AIIoT

3rd IEEE International Conference on

Artificial Intelligence for Internet of Things

AIIoT 2024

Keynote Address:
A Portrait of a Woman in Engineering - Some Comparison with Governance and Security

Dr. Svetlana Stanarevic,
**Faculty of Security,
University of Belgrade,
Serbia.**

Hybrid Mode
03 - 04, May 2024

Svetlana Stanarević is a doctor of defense, security, and protection sciences - Associate Professor at the Faculty of Security, University of Belgrade. She participated in several international and domestic conferences, scientific gatherings and seminars, several scientific projects and programs (Erasmus, COST, Horizon 2020), and as a consultant and expert in international and national programs and online courses with topics in the field of human security, radicalization, and violent extremism, urban security, and security culture. Also, she is attended several training programs in the domain of risk and crisis management, creation, analysis, and evaluation of public policies, and initiated the formation of the Informal Network of Evaluators of Serbia and as a coordinator registered with the International Organization for Cooperation in Evaluation (IOCE). She is the author and co-author of more than 60 scientific and professional papers, monographs, and textbooks in the field of security studies and co-editor of several collections of papers from international scientific conferences in the field of human security, security culture as well as national conferences in the field of urban security and urban development. Her interests and some articles cover the field of new technologies and their applications in the fields of urban security, human security, data protection, and security culture.
