

October 2022

On campus & Online FDP

S. No.	Date	Title of FDP
1.	03 October 2022	Prevent and Reverse Lifestyle disorders- BP, Diabetes, Obesity, Cholesterol issues
2.	05 October 2022	Trends and Challenges in Electric Vehicle Charging – An Industry perspective
3.	05 October 2022	Nanowire Optoelectronic Devices And Gas Sensors
4.	05 October 2022	Deep attention is all you need for NLP
5.	07 October 2022	Exploiting the synergistic catalytic effect on oxide -based semiconductor photocatalyst for energy and environmental applications
6.	08 October 2022	Continuing Professional Development in Higher Education
7.	10-14 October 2022	Smart Grid Features and Application of IoT, AI, Blockchain and Cybersecurity in Smart Grid
8.	10-14 October 2022	IoT & ML Driven Intelligent Systems & Solutions
9.	10-14 October 2022	Material Processing Microstructure and Property
10.	11 October 2022	Rational Design of mRNA based Therapeutics & Vaccines
11.	11 October 2022	Live without Medicines
12.	12 October 2022	Technology commercialisation and nurturing entrepreneurship
13.	12 October 2022	Introduction to Machine Learning for Future Wireless Communication
14.	12 October 2022	Application of Optimization Techniques in Engineering
15.	17–21 October 2022	Recent Advancement and Applications in Artificial Intelligence: Research Perspective
16.	17–21 October 2022	Artificial Intelligence in Solving Real World Problems
17.	19 October 2022	It's time to travel
18.	19 October 2022	The ART of innovation is the PART of Entrepreneurship
