ABOUT VIT

VIT was established with the aim of providing quality higher education on par with international standards. It persistently seeks and adopts innovative methods to improve the quality of higher education on a consistent basis. The campus has a cosmopolitan atmosphere with students from all corners of the globe. Experienced and learned teachers are strongly encouraged to nurture the students. The global standards set at VIT in the field of teaching and research spur us on in our relentless pursuit of excellence. In fact, it has become a way of life for us. The highly motivated youngsters on the campus are a constant source of pride. Our Memoranda of Understanding with various international universities are our major strength. They provide for an exchange of students and faculty and encourage joint research projects for the mutual benefit of these universities. Many of our students, who pursue their research projects in foreign universities, bring high quality to their work and esteem to India and have done us proud. With steady steps, we continue our march forward. We look forward to meeting you here at VIT.

ABOUT V-SPARC

The V-SPARC School of Architecture, established in 2015, embarked on its journey with the inaugural class of 40 students. Committed to nurturing aspiring individuals who seek excellence in the Contemporary era, the School distinguishes itself through its unwavering dedication to providing top-notch Education and Cutting-edge Infrastructure.

ABOUT PROGRAMME

Shaping the digital evolution in the Architecture Engineering and Construction (AEC) field holds a key role. Addressing the demand for inclusive planning and design has reshaped architects' perspectives on architectural solutions, urban challenges, and product innovations. Embracing a spectrum of modern tools, from AI to data-driven digital design and prototype creation, empowers architects not only to provide solutions but also to revolutionize the design process.In the post-digital era, isn't the manner in which we design just as crucial as what we design? Let's contemplate.

CHALLENGE THE CONVENTIONAL APPROACH TO ARCHITECTURAL DESIGN AND MAKING!!

PROGRAMME HIGHLIGHTS

- BIM integrated Curriculum
- Form finding Techniques for Sustainable Geometries
- Informed decisions on Energy usage in Buildings
- Apt for Research Oriented Curricular Opportunities
- Multi-Dimensional Career scope in Construction, Design Research and Academics
- Industry–Institute partnership for Joint sessions
- Academic Collaboration with Reputed International Universities
- Academic Exchange Programmes with International Universities
