ABOUT
NATIONAL YOUTH SOCIAL ARCHITECT COMPETITION 2025

We live in a society which is continuously designed and shaped up by leaders of the past and present. Our society had many great social thinkers who influenced the society. We have largely benefited from their dreams for the society. It is time that we engage early on with the youth of the nation, foster social thinking and empower them to design and architect the society with compassion the way they want it for themselves and for the future generations. Material and economic advancements are crucial for the society. However, the social developments cannot be ignored or compromised. A society which is economically sound, inclusive -addressing the concerns of vulnerable population on a continuous basis and protecting and promoting environment will lead to sustainable living. This competition aims to promote social thinking among the youth and innovate in designing and architect society that is more sustainable.

O OBJECTIVE

To promote social thinking and design with compassion among youth for creating sustainable and harmonious society.

E THEMES FOR EVENTS

Children, Women, Elderly, Disability, Sustainable Development, Community Mobility or Transport, Human Rights, Education, Health, Financial Inclusion, Agriculture, Social Entrepreneurship, Employee relations, Democracy and Vulnerable Population.

Madam had the privilege of visiting prisons in Singapore and The training Academy and had a visited all the Prisons in India. Madam is an International Trainer training the Global Leaders through Haggai International, USA..,

Sri. B. Pradeep

Sri. B. Pradeep, formerly Deputy Inspector General of Prisons and Correctional Services (southzone) and Director of SICA, has 31 years of exemplary service. Trained at APCA in 1989, he has undergone short-term courses at prestigious institutions such as LNJNN Institute of Criminology and Forensic Service, New Delhi; Sardar Vallabhai Patel National Police Academy, Hyderabad; Dr. Ram Monohar Lohia National Law University, Lucknow; Daulat Rao Jadhav Jail Officers Training College, Yerwada, Pune; and National Law School of India University, Bengaluru.

Sri. B. Pradeep played a pivotal role in initiating and executing various reformative and rehabilitative initiatives within Kerala prisons. He represented the delegation that visited Sri Lankan prisons in 2013 and orchestrated the friendly T20 cricket match between Kerala prisons and their Sri Lankan counterparts, held at the Sports Hub in Karyavattom, Thiruvananthapuram. Notably, the Kerala team comprised both officers and inmates, while the Sri Lanka team included officers of various ranks. As Director of SICA and D.I.G. of Prisons (South zone), he oversaw six passing out parades for assistant prison officers consecutively with the honor of the Chief Minister and Home Ministers graciously taking the salute.

Furthermore, he played a leading role in championing the establishment of food production units in Kerala prisons, benefiting the department and contributing to inmate rehabilitation efforts.

As Deputy Inspector General of Prisons and Correctional Services (South zone) and Director of SICA, he played a Pivotal role in elevating the training standards for Prison officers in Kerala. He was instrumental in facilitating a first time study visit of Assistant Prison officers to various Prisons across South Indian states to study the best practices in correctional Management.

Under his leadership musical instruments worth lakhs of rupees were sponsored for the inmates, fostering a more peaceful atmosphere within the prison through the calming influence of music. Gymnasium equipment was also provided to the Thiruvananthapuram and Thirussur Central Prisons, marking a historic development. Additionally an all Kerala best physique competition for prison officers was held at the SICA Auditorium in Thiruvananthapuram. With financial supports from the Prisons Headquarters a well–equipped Gymnasium was later established for the use of both officers and inmates at Central Prison, Thiruvananthapuram.

He was also an active member of the drafting committee for the Kerala Prison Act 2010 and the Prison Rules of 2014. Furthermore, he served as a member of the PSC interview Board responsible for selecting Assistant Superintendents of Kerala Prisons

His contribution has been recognized through several awards, including the President's Medal for Correctional Services(2012), the KLN Reddy Award for Best Prison Officer(2016),

meritorious service awards, citations, good service entries, and cash awards. He also assumed the full additional charge of Inspector General of Prisons for a period. Re-employed as a Director, APCA, Vellore, w.e.f. the A.N. of February 8, 2024.

After retirement, he assumed responsibility for 'Thanalidam' Probation home in Kollam District, Kerala. This facility is a joint initiative between the Kerala Government social Justice department and Gandhi Bhavan, a well –known care home for men and women. The probation Home offers temporary shelter to prisoners who have no relatives or friends to care for them after their release from Prisons.

National Young Social Architects Competition

The National Young Social Architects Competition was organized by Dr. Dominic Savio, Assistant Professor, Sr. Grade 1, Dr. Soma Saha, Assistant Professor, Grade 2, and Dr. Rajameenakshi, Assistant Professor, Sr. Grade 1. The objective of the competition was to promote social thinking among youth to design and architect a sustainable and harmonious society. The Competition had lists of events for students to participate: Poster presentation, Rangoli Competition, and Video presentation.

Dr. Dominic Savio welcomed everyone and shared the context in which the competitions were organized. He stressed the need for the youth to believe in their capacity to design and architect a sustainable society. He gave an example of Economic Development in Indian society. He gave a case example of how a few business people cannot bring about economic development for the whole nation, and a better design is required where more people can participate in the economic development process.

Dr. Naveen Kumar, HOD, Department of Social Sciences, introduced the department and its achievements to the participants. Dr. Sarika Gupta, Associate Dean, SSL, shared how Social Sciences in VIT started making an impact. Dr. Selvan, Dean, SSL, in his address, asked the students to become entrepreneurs. The Chief Guest was Mr. Pradeep B, Director – Academy of Prisons and Correctional Administration (APCA), Former Deputy Inspector General of Prisons -Southzone, India. The Guest of Honour was Dr. Buela Emmanuel, Professor -Social Work & Sociology, APCA. The Chief Guest highlighted his experience of working with Prisons and shared the need for young people to come up with innovative ideas that can contribute to creating a more sustainable society. Dr. Buela shared the role of social workers in Prison and corrections settings and the role social workers play in contributing to create a sustainable society. Dr. Soma Saha, Assistant Professor, SSL gave the vote of thanks at the end of the inaugural session.

The Poster competitions were held in TT 318 and TT 725 from 11 am to 4 pm. Rangoli competition was held on the Pathways near Woodys. The Short Videos screening was done in TT 318. Faculty members (10 People) from different disciplines were in the panel of Judges for the events. They judged the events using the criteria of :1. Idea, Need or issues, 2. Design & Architecture, 3. Creativity, Innovation, and Sustainability. Based on the scores, the Judges selected the winners. The students used various themes from SDGs to participate in the events.

The Valedictory session was held at 5 pm in TT 725. Dr. Prabhakar, Professor, Grade 1, Department of Social Sciences was the chief Guest, and he awarded the winners with Trophies, Certificates, and Cash Prizes (1st Prize -Rs.2000/-, 2nd Prize – Rs.1000/- and 3rd Prize -Rs.500). Dr. Bangalore Morarji, Associate Professor, SSL gave vote thanks.

The students actively participated in the events. The event has an impact on the participants on social thinking and designing a sustainable society.

Faculty Development Program on "Funding for Social Science Research in India"

Program Overview

The Department of Social Sciences, School of Social Sciences and Languages (SSL), Vellore Institute of Technology (VIT), organized a Faculty Development Program (FDP) titled "How to Get Funding for Social Science Research." The event aimed to enhance faculty members' knowledge and skills in securing research funding.

Key Details

- Date: 15.10.2024

- Time: 2:30 PM to 3:30 PM

- Venue: Technology Tower, VIT, Vellore

- Resource Person: Dr. Bibhuti Bhusan Mohanty, Council Member, Indian Council of Social Science Research (ICSSR) and Professor, Department of Sociology, School of Social Sciences and International Studies, Pondicherry University

Program Highlights

- Dr. Mohanty's expert talk provided insights into the funding landscape for social science research.

- He outlined strategies for identifying potential funding sources and crafting successful proposals.

- Discussion sessions allowed participants to clarify doubts and share experiences.

- The program fostered networking among faculty members from diverse disciplines.

Key Highlights of Dr. Mohanty's Talk

1. Funding Landscape: Dr. Mohanty provided a comprehensive overview of funding opportunities for social science research. This encompassed government agencies such as the Indian Council of Social Science Research (ICSSR), the University Grants Commission (UGC) and the Ministry of Education, international organizations like the Ford Foundation and the Rockefeller Foundation, and private foundations including the Tata Trust and the Azim Premji Foundation. He emphasized the importance of exploring diverse funding sources to support innovative research.

2. ICSSR Funding: Dr. Mohanty elaborated on ICSSR's research funding schemes. These schemes include doctoral fellowships, postdoctoral fellowships, senior and junior fellowships and grants for research projects. He detailed eligibility criteria such as academic qualifications, research experience and publication records. Application procedures, including proposal submission, peer review and approval processes, were also covered.

1. Proposal Writing: Dr. Mohanty shared essential tips for crafting successful research proposals. These included:

- **Clarity:** Clearly articulate research objectives, methodology and expected outcomes.
- **Originality:** Demonstrate novelty and significance of the research.
- **Feasibility:** Ensure realistic timelines, budgets and resource allocation.
- **Relevance:** Align research with funding agency priorities and societal needs.

2. Evaluation Criteria: Dr. Mohanty outlined key evaluation criteria for research proposals:

- **Significance:** Potential impact on social science knowledge and practice.
- **Methodology:** Sound research design, sampling and data analysis.
- **Impact Potential:** Contribution to policy, practice or societal improvement.
- **Feasibility:** Realistic timelines, budget and resource utilization.

3. Challenges and Opportunities: Dr. Mohanty discussed common challenges faced by social science researchers, such as:

- Securing funding in a competitive landscape.
- Maintaining research integrity and objectivity.
- Collaborating across disciplines for holistic understanding.

Opportunities highlighted included interdisciplinary collaboration, engaging diverse stakeholders and leveraging technology for enhanced research impact.

These elaborations provide a detailed insight into Dr. Mohanty's talk, covering funding landscapes, ICSSR funding, proposal writing, evaluation criteria and challenges and opportunities in social science research.

Objectives

- Enhance understanding of research funding opportunities.
- Develop skills in proposal writing and submission.
- Facilitate collaboration and knowledge sharing.

Participants

- Faculty members from the Department of Social Sciences and other SSL departments.
- Dean, SSL, VIT.
- Associate Dean, SSL, VIT.
- Head of Department, Social Sciences.

Outcomes

- Increased awareness of funding sources (ICSSR, UGC, international organizations).
- Improved proposal writing and submission skills.
- Enhanced collaboration potential among faculty.

Recommendations

- Conduct regular FDPs on research methodology and publication ethics.
- Invite experts from diverse funding agencies.
- Establish a research support cell within SSL.

Organizing Committee

- Dean, SSL, VIT
- Associate Dean, SSL, VIT
- Head, Department of Social Sciences
- Dr. S. Prabakar, Profesor, Department of Social Sciences, SSL, VIT.

Report on the Mock Parliament Event

Date: 11 November 2024
Time:10:00 AM - 1:40 PM
Venue: Gallery II - TT, Vellore Institute of Technology
Organized by: Department of Social Sciences, School of Social Sciences and Languages (SSL)
Organiser: Dr. Ramnath Reghunadhan and Dr. Rupak Kumar

Theme: One Nation, One Election (Simultaneous Elections in India)

On 11 November 2024, the Department of Social Sciences at Vellore Institute of Technology hosted a Mock Parliament centered around the topic "One Nation, One Election." This initiative aimed to replicate parliamentary procedures while addressing the potential benefits and challenges of holding simultaneous elections across India. The event gathered 29 participants who played the roles of members of parliament, engaging in rigorous debates and discussions, as well as 44 visitors who observed the proceedings.

Event Inauguration

The Mock Parliament commenced at 9:30 AM with an inaugural address by Prof. Manoharan M., Dean of SSL, who highlighted the significance of participatory democracy and praised the Mock Parliament as an opportunity for students to delve into real-world legislative and governance challenges. Dr. V. Selvam, Associate Dean of SSL, further emphasized the value of experiential learning, encouraging participants to actively engage with the topic and develop critical perspectives on electoral reforms.

Event Structure

1. Initiation by the Speaker and Question Hour:
The session began with the Speaker's opening remarks, setting the tone for a structured and formal parliamentary session. The question hour provided participants with an opportunity to present preliminary inquiries. This period allowed members to raise questions about the logistics, constitutionality, and perceived benefits or disadvantages of simultaneous elections.

2. Business Hour and Debate on the Motion:
Following the question hour, the business hour commenced, where participants formally debated the motion of "One Nation, One Election."

- Arguments in Favor:
Supporters argued that holding simultaneous elections would reduce the financial burden on the nation by cutting down on repetitive election costs. They pointed out that continuous elections hinder policy continuity, as governments are often preoccupied with election cycles, impacting long-term development goals.

- Arguments Against:
Opponents expressed concerns about the federal structure of India, cautioning that simultaneous elections could undermine the autonomy of state governments and might not reflect the distinct political dynamics of each state.

3. Audience Participation and Visitor Engagement:
The event drew a substantial number of visitors, with 44 attendees actively observing and reflecting on the proceedings. They witnessed firsthand the parliamentary procedures and were exposed to the complexities of policy reform.

4. Event Management and Judging:

Three volunteers played crucial roles in organizing and facilitating the event, ensuring smooth transitions between sessions and adherence to parliamentary rules. Two faculty members were invited to judge the event, assessing participants on the quality of their arguments, adherence to parliamentary decorum, and depth of understanding of the topic. The judges commended the participants for their research and eloquence and provided constructive feedback to further hone their skills.

Outcomes and Key Takeaways

The Mock Parliament was a valuable learning experience, allowing students to immerse themselves in the structure and processes of parliamentary debate while discussing a pressing political reform.

Key Takeaways:
1. Enhanced Understanding of Democratic Processes: Students gained insight into the legislative procedures, structure, and rules that govern parliamentary debate and decision-making.
2. Engagement with Contemporary Political Issues: The topic of simultaneous elections is a significant, ongoing debate in India. The event encouraged students to analyze its implications on democracy, governance, and federalism.
3. Skill Development: Participants refined their research, public speaking, and critical thinking skills, as well as their ability to present arguments within a formal structure.

Conclusion

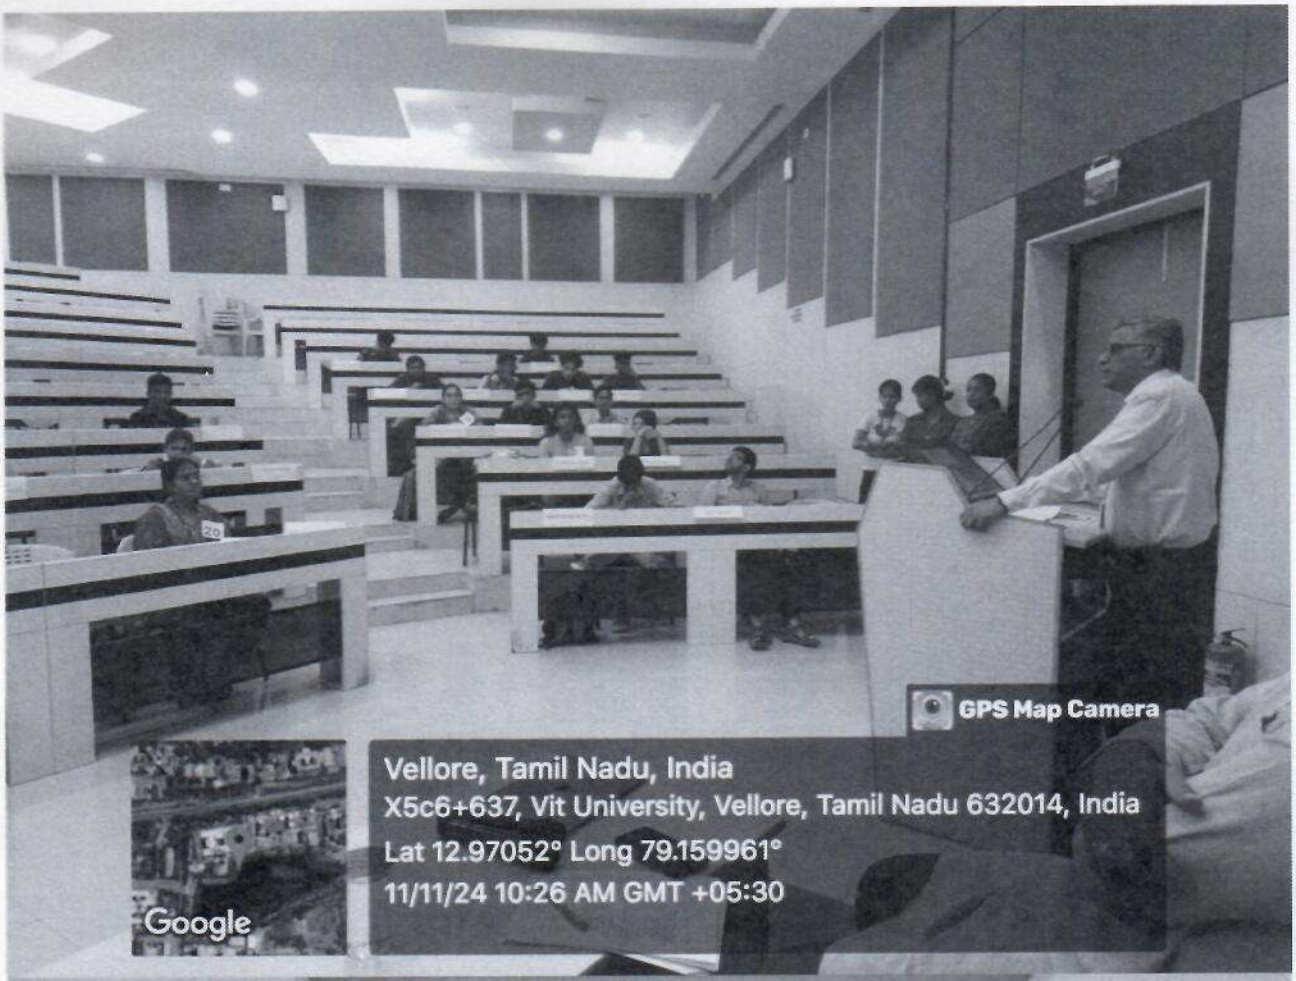

The Mock Parliament on "One Nation, One Election" was a successful and impactful event, achieving its goals of deepening students' understanding of parliamentary practices and electoral reforms. The Department of Social Sciences, SSL, demonstrated a strong commitment to fostering critical thinking and engagement with real-world issues, making this event an enriching experience for all involved.

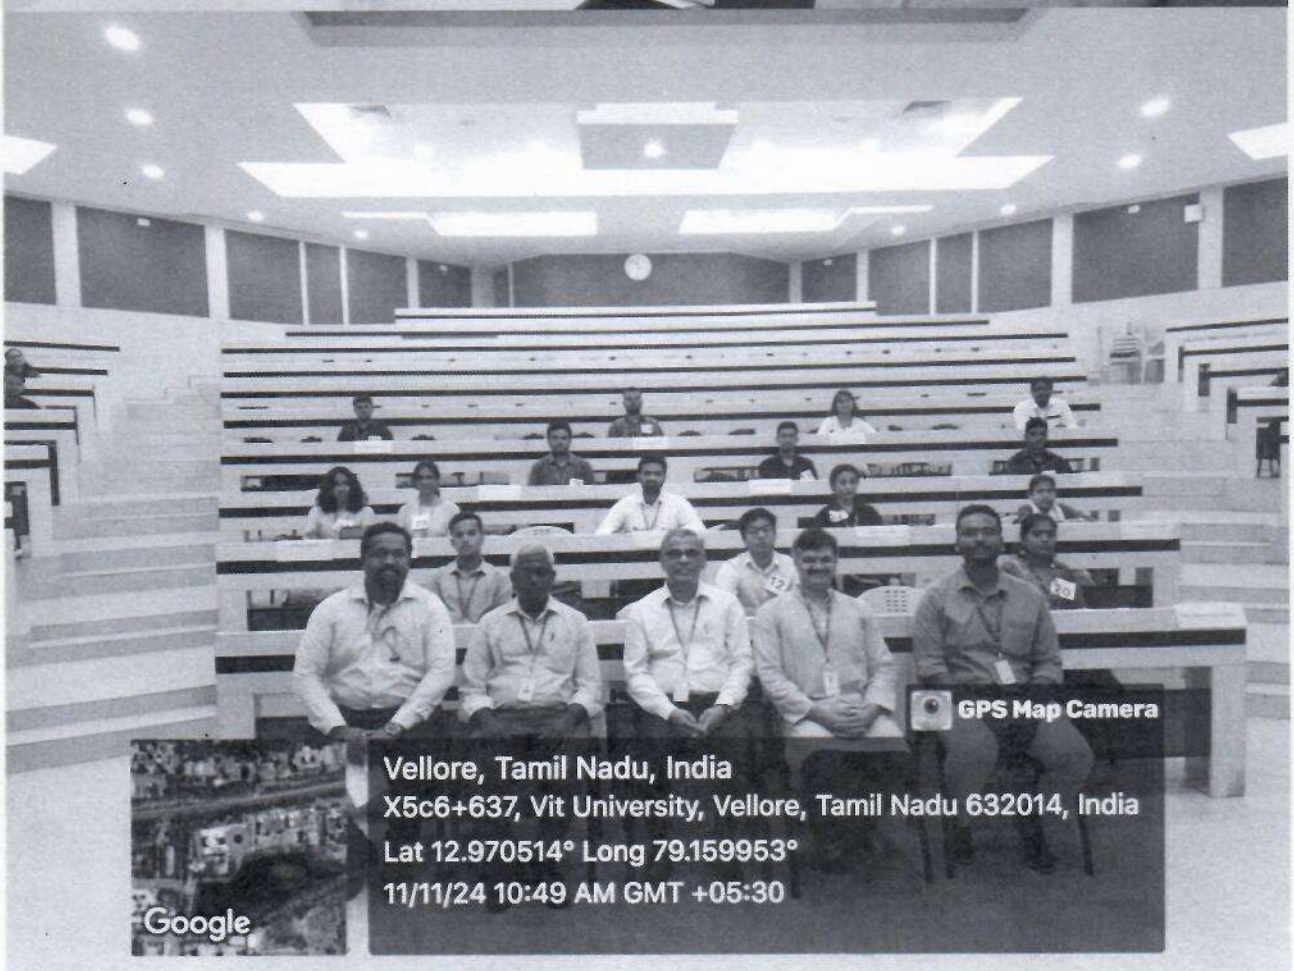

Winners of the Event:
1st Prize: Akshaya N
2nd Prize: Lekhaashree S R
3rd prize: Niranj Ramesh
Best Speaker: Shalini V

Confirmation of my ward Participation in the Outreach Program

Paru 1971 <paruarth1971@gmail.com> Thu, Oct 26, 2023 at 12:21 PM
To: gayathri.a@vit.ac.in

Dear Prof. Gayathri.A,

I hope this message finds you well. My daughter, Rithika A, informed us about the School Outreach Program scheduled for 30th October 2023 at Government Higher Secondary, Karnambut. We wish to express our wholehearted approval for his participation in this event, the program which is organized by the School of Computer Science Engineering and Information Systems at VIT.

Here are my ward's details:
Name: Rithika.A
Registration Number: 20MIS0018
Phone Number: 9345786053
Email Address: rithika.a2020@vitstudent.ac.in

Thank you for your time and consideration.

Thanks and Regards,
Arthanarai.K

6-Day International Workshop on Research Methods in Social Sciences

Organised by

School of Social Sciences and Languages,
Vellore Institute of Technology,
Vellore-632014.

in association with

SPARC
Govt. of India

Date: 26th to 31st August 2024
Venue: Dr. Ambedkar Auditoriam, (TT ground floor)

Discussions and Insights:

DAY 1 (26/08/2024)	QUANTITATIVE RESEARCH METHODS – I	FN: 9.30 am-11.00 am and 11.30 am - 1.00 pm AN: 2.00 pm-3.30 pm and 4.00 pm-5.30 pm
DAY 2 (27/08/2024)	QUANTITATIVE RESEARCH METHODS – II	
DAY 3 (28/08/2024)	ECONOMETRICS - I	
DAY 4 (29/08/2024)	ECONOMETRICS - II	
DAY 5 (30/08/2024)	QUALITATIVE RESEARCH METHODS – I	
DAY 6 (31/08/2024)	QUALITATIVE RESEARCH METHODS – II	

Registration (No Charges):

Research Scholars of the 2022, 2023, and 2024 registered batch from the Department of Commerce and Social Sciences are encouraged to register and Refreshments will be provided.

Registration details

Registration can be done online using the link:
https://docs.google.com/forms/d/e/1FAIpQLSeRBgIX25n3CBl9TAo2NDianGMbrYNdgwVsskZ0jwN4tKMhCA/viewform?usp=sf_link

The school offers programs in B.Com. (Banking & Capital-markets, Financial Technology, Business Process Services); Master of Social Work (MSW), and Ph.D. programs in Commerce, Economics, Tamil, English, Psychology, Sociology, and Hindi. Also, foreign languages such as German, Spanish, and French are offered as a part of the curriculum. Electives on IPR, The Indian Constitution among others are imparted across the university

ABOUT VIT

VIT was established with the aim of providing quality higher education on par with international standards. It persistently seeks and adopts innovative methods to improve the quality of higher education on a consistent basis. The campus has a cosmopolitan atmosphere with students from all corners of the globe. Experienced and learned teachers are strongly encouraged to nurture the students. The global standards set at VIT in the field of teaching and research spur us on in our relentless pursuit of excellence. In fact, it has become a way of life for us. The highly motivated youngsters on the campus are a constant source of pride. Our Memoranda of Understanding with various international universities are our major strength. They provide for an exchange of students and faculty and encourage joint research projects for the mutual benefit of these universities. Many of our students, who pursue their research projects in foreign universities, bring high quality to their work and esteem to India and have done us proud.

SCHOOL OF SOCIAL SCIENCES AND LANGUAGES

Established as a distinct entity in 2009, the School of Social Sciences and Languages (SSL) employs innovative teaching methods and adopts interdisciplinary approaches to learning. The school helps students gain knowledge and skills that are required in the global market. It adheres to the highest standards in teaching-learning by employing innovative practices, ensuring excellence in research, and adopting rigorous internal peer and student reviews. The school is committed to providing a dynamic intellectual environment by fostering critical, reflective and conceptual thinking in students and aims to enrich their education by adopting unique approaches to learning. Integrating international perspectives into its teaching, the school attracts students from a wide range of cultural backgrounds and provides a uniquely rich and diverse learning and teaching environment. The school maintains an outstanding record of awards for excellence in teaching within the VIT community and in the broader higher education context.

A REPORT ON

6-Day International Workshop on Research Methods in Social Sciences

The 6-Day International Workshop on Research Methods in Social Sciences organised by the School of Social Sciences and Languages in association with SPARC Govt of India is a comprehensive event designed to enhance the research capabilities of research scholars from the broad disciplines of Social Sciences and Commerce backgrounds, held from August 26th to August 31st, 2024. This workshop will bring together renowned experts and researchers with an aim to provide participants with a thorough understanding of contemporary research methods, equipping them with the skills necessary to conduct rigorous and impactful research. Each workshop day is focused on qualitative and quantitative research designs, econometrics, data collection techniques, data analysis methods, and the ethical considerations involved in conducting research. The sessions deal with hands-on training and group discussions, allowing research scholars to actively engage with the material and apply what they learned to real-world scenarios. Hands-on sessions in R, SPSS, Stata, Atlas.ti will be dealt with, enabling participants an opportunity to discuss and refine their methodologies under the guidance of resource persons. This interactive format will not only enhance their understanding but also foster collaboration among participating researchers. The workshop will conclude with a panel discussion on the future of Social Sciences research, where experts will emphasize the importance of innovative approaches and interdisciplinary research. Participants will leave the workshop with a deeper knowledge of research methods, new project ideas, and connections with fellow researchers that will last well beyond the event. The success of this workshop will underscore the ongoing need for such international collaborations in advancing research in the Social Sciences areas.

Report on *How AI is Transforming Social Science Research?*

Date: 26 June 2025 **Venue**: Department of Social Sciences, School of Social Sciences and Languages, VIT, Vellore **Presenter**: Dr. Kovendan AKP, Assistant Professor Sr., SCOPE, VIT, Vellore **Audience**: Faculty members and social science research scholars

📌 Introduction

The presentation explored the transformative impact of Artificial Intelligence (AI) on social science research. It focused on how AI tools are both reshaping research methodologies and becoming important subjects of inquiry themselves.

□ Key Themes Discussed

1. **AI as a Research Enabler**
   - The presenter highlighted the use of **Natural Language Processing** (NLP) for large-scale sentiment and discourse analysis, especially in evaluating public opinion through social media data.
   - **Large Language Models** (LLMs) were demonstrated as tools to simulate human responses, enabling efficient hypothesis testing and behavioral research.
2. **Modeling Complex Social Dynamics**
   - The use of **Agent-Based Modeling (ABM)** to study phenomena like misinformation spread and collective decision-making was discussed in detail. AI-enhanced simulations allow for more dynamic and interactive modeling of social processes.
3. **Turning the Lens on AI**
   - A compelling segment focused on the **Social Science of AI**—examining how AI systems influence trust, fairness, and cultural values.
   - Issues of algorithmic bias and accountability were raised, urging researchers to treat AI as both a tool *and* a subject of ethical scrutiny.
4. **Ethical Considerations and Limitations**
   - Concerns were raised about **bias in training data**, lack of transparency in proprietary algorithms, and the ethical implications of using AI-generated data in empirical research.
   - The presentation advocated for interdisciplinary collaboration to ensure responsible AI integration in social studies.

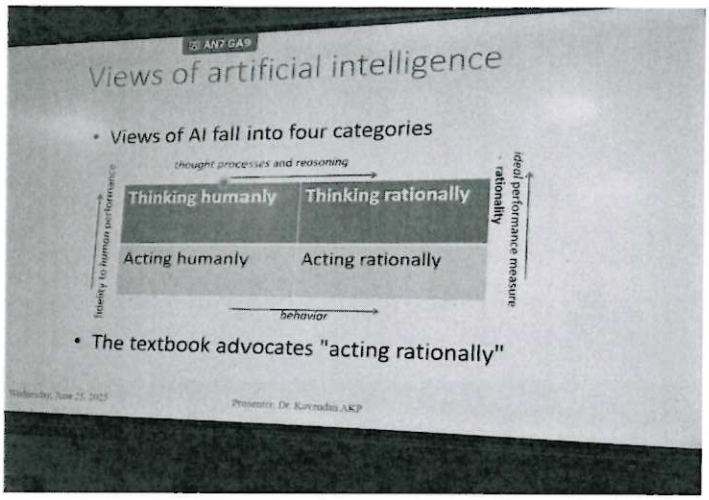

🔍 Critical Reflections

The audience responded with enthusiasm and curiosity. Several questions were posed about the replicability of AI-assisted experiments and the challenges of interpreting results derived from opaque models. The session emphasized the need for methodological innovation alongside ethical vigilance.

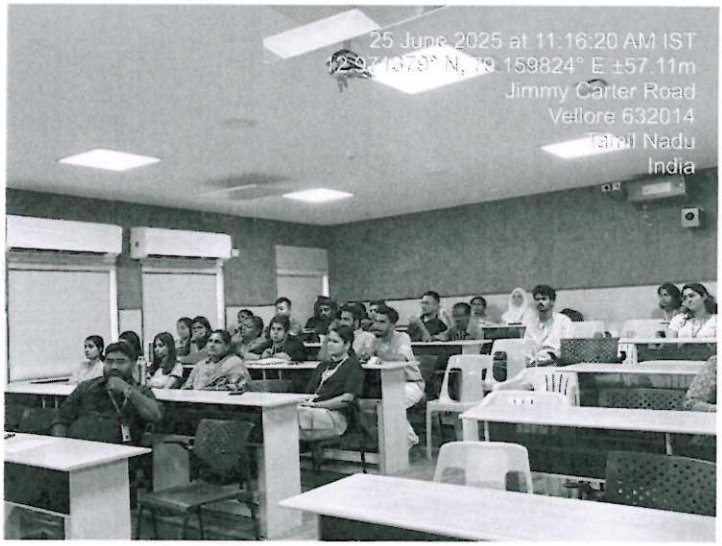

🎯 Conclusion

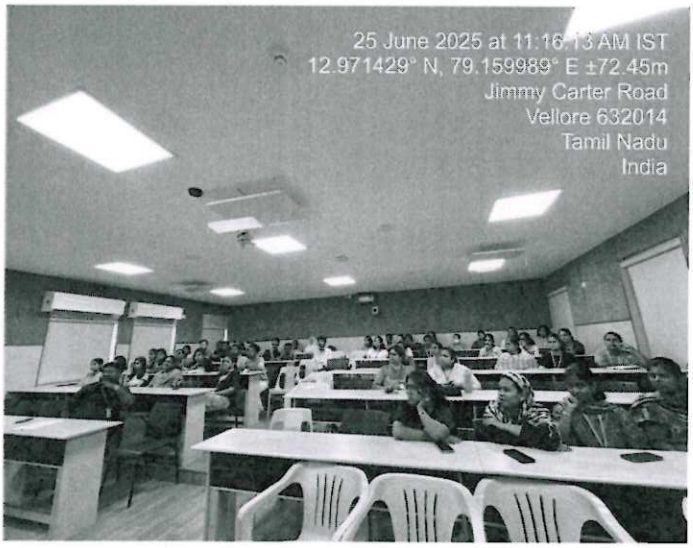

The presentation concluded by emphasizing that the intersection of AI and social science is not only a site of innovation but also of responsibility. The field holds immense potential to generate new insights into human behavior—provided researchers remain critically aware of the tools they use.

A Report on Data Analysis in Social Science Research Using STATA in Hybrid Mode

Registration Details

STATA – Registration Details

Welcome Address:

Dr. Mohanraj K, Associate Professor, Dept. of Agricultural Extension and Economics at VIT School of Agricultural Innovations and Advanced Learnings (VAIAL), VIT, inaugurated the workshop with a welcome address. Highlighted the significance of the workshop, discussed relevant current research, and expressed his gratitude to the Head of the Department for organizing this workshop and asked to conduct more in the future.

About the Programme:

Dr. Paul Mansingh J, Professor and Head of Agricultural Extension and Economics at VIT School of Agricultural Innovations and Advanced Learnings (VAIAL), VIT, Vellore, shared his overwhelming response from participants. He highlighted the enthusiasm shown by various institutions' participants, including research scholars and faculty members who registered for this program. He also emphasized the eagerness of international participants to join the session online, underscoring the importance and relevance of the analysis. Additionally, he outlined plans for future workshops in the series, focusing on topics such as Fuzzy Cognitive Mapping using Mental Modeler Software and Social Network Analysis using Gephi

Dean's Address:

Dr. Rajendran R, Dean of VAIAL, extended his congratulations to the Department of Agricultural Extension and Economics faculty team for successfully organizing the workshop. He also praised the Head of the Department for organising this session and encouraged the initiation of many more such workshops in the future.

During the session:

Dr. Paul Mansingh J, Professor and Head of Agricultural Extension and Economics at VIT School of Agricultural Innovations and Advanced Learnings (VAIAL), VIT, Vellore, led an insightful session focused on the fundamentals of data understanding and analysis using STATA software. Key topics covered included Levels of measurement, descriptive and inferential statistics, various regression analyses such as Multiple linear regression, Tobit regression, Binary logit regression, Fractional logit regression, Ordinal logit regression, Beta logit regression, Multinomial regression and Poisson regression with Model Fit, Heteroscedasticity, and multicollinearity. The session highlighted their applications in predictive analysis and exploring data relationships. The participants gained hands-on training with practical knowledge by enhancing their analytical skills, emphasising the importance of the methodologies in the research field followed by the feedback session.

Feedback Session:

Participants gained insightful knowledge on theory and practical applications of this workshop and asked to conduct more workshops in the future on Atlas. ti, NVivo, Smart PLS, Python, Jamovi, SPSS AMOS, R Studio, DSSAT, Power BI etc.,

sir, i have asked about -ve value of mean and t value sir, kindly explain it sir in paired T test ? even at 95% confidence interval we got value 4.05 (approx)
does in chi square test no of variables in rows and columns must be same like matrix 3*3 same or 2*3 ?
Hope your query is addressed
yes
Dear participants - please if you have any queries so far in the descriptive statistics and inferential statistics please switch on your mic and ask and clarify your doubts

A REPORT ON

Workshop on "The Idea of Science in Social Research"

Dr. Navneet Sharma, delivered a Workshop on "The Idea of Science in Social Research" to the Faculty and Research Scholars of VIT. The session explored the fundamental nature of research in social sciences, contrasting it with natural sciences while examining various epistemological challenges. The session focused on understanding the intricate dynamics of knowledge production and research methodologies, encompassing various aspects such as:

- **Defining Research:** The lecture explored different existing definitions of research, highlighting how research essentially represents a journey to produce knowledge by making sense of the world through observation, classification, categorization, analysis, and conclusion-drawing.
- **Science vs. Scientific Method:** Dr. Sharma delved into the distinction between science as a body of knowledge and the scientific method as a process, highlighting their unique characteristics and applications in different contexts.
- **Knowledge Production Dynamics:** The session emphasized how knowledge is produced slowly and how research fundamentally involves challenging existing understandings, making one's predecessors uncomfortable through innovation and discovery.

Key Takeaways:

- Students gained valuable insights into the complexities of social science research and the power dynamics that influence knowledge recognition.
- They learned about the historical division between Western knowledge (termed "scientific") and Eastern knowledge (termed "indigenous"), and how this affects knowledge legitimacy.
- The lecture provided practical guidance on developing better research questions rather than seeking definitive answers, acknowledging the non-linear nature of research due to the richness of human experience.

Overall:

The Industry Expert Lecture by Dr. Navneet Sharma was highly informative and engaging for the Research Methodology Class students. His expertise in social science research methodologies provided valuable insights into the multifaceted nature of knowledge production, challenging students to think critically about objectivity, rationality, and the social construction of scientific knowledge.

About the Workshop

Join us for an insightful Workshop on Social Network Analysis (SNA), designed to provide a comprehensive understanding of the fundamentals and advanced techniques of SNA. Participants will explore its diverse applications in societal research, including cybersecurity, misinformation detection, and public health. This workshop aims to combine theoretical learning with practical expertise in SNA tools to empower researchers and students in their academic and professional pursuits.

Resource Persons

Dr. Rajesh Sharma, Associate Professor, University of Tartu, Estonia,

Dr. Sreeraag G, Assistant Professor, School of Computing, Amrita Vishwa Vidyapeetham, Bangalore Campus,

Target Audience

The workshop is designed for faculty members, PhD research scholars, and UG/PG students from VIT and other institutions.

Reg fee - ₹500*

About VIT

Vellore Institute of Technology was established under Section 3 of the University Grants Commission (UGC) Act, 1956, and was founded in 1984 as Vellore Engineering College. The Union Ministry of Human Resources Development conferred University status on Vellore Engineering College in 2001. The University is headed by its founder and Chancellor, Dr. G. Viswanathan, a former Parliamentarian and Minister, Tamil Nadu Government. The institution persistently seeks and adopts innovative methods to improve the quality of higher education consistently. The campus has a cosmopolitan atmosphere with students from all corners of the globe. Experienced and learned teachers are strongly encouraged to nurture the students. The diversity of faculty members and their unrelenting focus on teaching and research enable to realise the high requirements of modern-day teaching-learning process. VIT has established and sustains a strong support structure for the successful progression of students. VIT is committed towards its vision of "Transforming life through excellence in education and research" and adopts professional approach in its governance.

Ranking and Accreditation

- VIT has emerged as one of the best institutes in India and is aspiring to become a global leader. Quality in teaching-learning, research and innovation make VIT unique.
- Ranked among the top 701-800 Universities of the world and one among the top 5-6 Institutions in India (Shanghai ARWU Ranking 2023).
- The 10th best University, the 13th best Research institution and the 11th best Engineering Institution in India (NIRF Ranking, Govt. of India 2024)
- The Engineering and Technology subject areas of VIT are the 212th best in the World and the 9th best in India as per QS World University Rankings by Subject 2024.
- NAAC Accreditation with A++ grade in the 4th cycle
- Ranked within the top 163 Universities in Asia (QS Asia University Rankings 2024)

About SCORE

The School of Computer Science Engineering and Information Systems (SCORE) emphasizes the fields of Information Technology, Software Engineering and Domain Specific Applications to facilitate the evolution of skills in students to help them to attain a higher degree of knowledge, global competency, and excellence, for the betterment of the society. According to the subject positioning by QS, Computer Science and Information systems secured 136 rank in the globe. This school offers Bachelor of Technology, Master of Technology, Bachelor of Science(Computer Science), Bachelor of Computer Applications, Master of Computer Applications and Doctorate of Philosophy programmes. Major areas of research include Artificial Intelligence, Big Data, Cloud Computing, Data Mining, Image Processing, Information and Cyber Security, Intelligence Systems, IoT, Machine Learning and Software Engineering. The school's focus is on holistic learning to help the students to make significant contributions to the industry and to serve society at large. The school has committed faculty members, apart from many visiting professors, and working professionals from the industry and R&D organizations. The faculty members are highly motivated to do groundbreaking research and excel in teaching and learning processes. Students are provided opportunities to apply the acquired knowledge in solving real-world problems and gaining research experience. The placement record of the school is always remarkable.

The school has strong linkages with leading IT and research organizations with industry-supported laboratories. A selection of professors of the school are among the Top 2% Scientists in the world according to the study conducted by the Stanford University, USA in 2024

Schedule (10:00 AM – 4:00 PM)

- Introduction to Social Network Analysis
- Advanced SNA Techniques
- SNA in Societal Research
- Live Tool Demonstration with Case Studies
- Emerging Research Challenges & Future Directions in SNA
- Discussion & Wrap-Up

About IEEE ITS

The IEEE Information Theory Society at VIT is a newly established student chapter that explores the latest advancements in information theory to tackle modern-day challenges. We provide a nurturing environment for fresh ideas and innovative thinking, empowering individuals to make a difference. Our chapter organizes technical events, workshops, and delivers high-quality projects to partners and collaborators. We inspire and shape curious minds, helping them overcome present-day challenges and achieve success.

Request to Forward Workshop Announcement to MCA, B.Tech, and M.Tech Students

Shynu P G <pgshynu@vit.ac.in> Mon, Feb 3, 2025 at 4:03 PM
To: "HOD, Department of Computer App" <hod.cacm@vit.ac.in>, "HOD, Department of Information Technology" <hod.it@vit.ac.in>, HOD Department of Smart Computing <hod.sc@vit.ac.in>, "HOD, Department of Software & Systems Engg" <hod.sse@vit.ac.in>
Cc: Dean SCORE <dean.site@vit.ac.in>, John Singh K <johnsingh.k@vit.ac.in>

Dear Professor,

Greetings!

The School of Computer Science Engineering and Information Systems (SCORE) is organizing a **One-Day Workshop on Social Network Analysis: Advanced Techniques, Applications, and Tools for Societal Research** on **8th February 2025 at VIT Vellore (SJT G07 Smart Classroom).**

This workshop is structured to cover concepts from fundamentals to advanced levels, making it highly beneficial for MCA, B.Tech, and M.Tech students who wish to explore Social Network Analysis (SNA) and its applications in cybersecurity, misinformation detection, influence propagation, graph algorithms, and AI-driven techniques.

Since this workshop provides valuable exposure to real-world applications of computational techniques and network analysis, please forward the following announcement to MCA, B.Tech, and M.Tech students to encourage their participation.

I appreciate your kind support in sharing this with the students.

Thanks and Regards,

Shynu P G

.....

📢 **One-Day Workshop on Social Network Analysis – Register Now!**

🔬 Would you be interested **in learning how Social Network Analysis (SNA) is applied in technology and research?** This workshop will introduce fundamental concepts, advanced techniques, and real-world applications of SNA in **cybersecurity, misinformation detection, influence propagation, and network analysis.**

📅 **Date:** 8th February 2025
📍 **Venue:** SJT G07 Smart Classroom, VIT Vellore
⏰ **Time:** 10:00 AM – 4:00 PM
💰 **Registration Fee:** ₹500

🚀 Why Attend?

✓ **Step-by-step learning** – Covers **SNA from basics to advanced applications.**
✓ **Industry & Research Applications** – Learn how SNA is used in **cybersecurity, AI, data science, and social media analysis.**
✓ **Expert Sessions** – Gain insights from **experienced researchers in network science and computational social systems.**
✓ **Live Demonstrations** – See **practical applications of SNA tools and techniques.**
✓ **Great for Career & Research Growth** – Valuable for those interested in **AI, machine learning, data analytics, and cybersecurity.**

🌐 **More Information & Registration:**
🔗 **Website:** https://vit.ac.in/event/international-workshop-on
📝 **Register Here:** https://events.vit.ac.in/

📢 **Limited seats are available. Register now to enhance your learning and career prospects!**

Thanks and Regards,
Shynu P. G., M.E (CSE), Ph.D.,
Professor,
School of Computer Science Engineering and Information Systems (SCORE)|
Vellore Institute of Technology(VIT), Vellore campus, Tamil Nadu, India.

****

Vellore Institute of Technology (VIT), India -

- Engineering and Technology: 212th best in the World and 9th best in India (QS World University Rankings by Subject 2024)
- 10th best University, 13th best research institution and 11th best engineering institution in India (NIRF Ranking, Govt. of India 2024)
- 6th in India and 687th in the world (US News 2024)
- NAAC Accreditation with A++ grade (3.66 out of 4)

Profile: Dr. Sreeraag G

Assistant Professor, School of Computing, Amrita Vishwa Vidyapeetham, Bengaluru Campus

Dr. Sreeraag G is an Assistant Professor at Amrita Vishwa Vidyapeetham, Bengaluru Campus and a Ph.D. alumnus of VIT Vellore. His research expertise lies in Social Network Analysis (SNA), cybersecurity, privacy and information security, and epidemic modeling.

His primary research focus includes:

✓ Misinformation and rumor propagation models

✓ Network dynamics and influence propagation

✓ Adversarial attacks in social networks

✓ AI-driven approaches for social network security

Dr. Sreeraag is passionate about leveraging social networks for societal benefit while ensuring digital security for users. His interdisciplinary research contributes to strengthening online safety measures and understanding the complex spread of information in digital ecosystems.

During the One-Day Workshop on Mastering Social Network Analysis, Dr. Sreeraag conducted the morning session, covering fundamental concepts of SNA and laying the groundwork for advanced discussions. His session provided participants with a strong theoretical foundation in network analysis, introducing key concepts, applications, and real-world challenges.

Profile: Dr. Rajesh Sharma

Associate Professor, Institute of Computer Science, University of Tartu, Estonia

Dr. Rajesh Sharma is an Associate Professor at the University of Tartu, Estonia, specializing in Social Network Analysis (SNA), Computational Social Science, and AI-driven data analysis. He holds a Ph.D. in Computer Science from Nanyang Technological University, Singapore, and has completed postdoctoral research at the University of Bologna, Italy, Queen's University Belfast, and the University of Bristol.

His research spans multiple domains, including:

✓ Graph Neural Networks and AI-driven SNA

✓ Misinformation detection and fake news propagation

✓ Cybersecurity and influence manipulation in social networks

✓ Computational models for social capital and behavior analysis

Dr. Sharma has actively contributed to academic research and global collaborations, supervising several Ph.D. students and serving as an Associate Editor for the Journal of Social Network Analysis and Mining (SNAM). He has also organized multiple prestigious workshops and conferences under IEEE and ECAI.

During the One-Day Workshop on Mastering Social Network Analysis, Dr. Sharma led the afternoon session, focusing on advanced research topics, AI-driven SNA methodologies, and real-world case studies. His session highlighted practical examples of fake news, misinformation, and hate speech detection, providing participants with critical insights into the role of AI and network science in combating digital threats.

Report on the Outcome of the Event

Title of the Event: *One-Day Workshop on Mastering Social Network Analysis: Advanced Techniques, AI-Driven SNA, and Tools for Societal Research*

Date: 8th February 2025
Venue: SJT G07 Smart Classroom, VIT Vellore

Faculty Coordinators: Dr. Shynu P G and Dr. John Singh K

Participants:

The workshop saw an enthusiastic participation of 32 attendees, comprising:

- PhD research scholars
- Undergraduate and postgraduate students
- External participants from other institutions

Workshop Sessions & Key Takeaways:

The workshop provided a structured learning experience, covering fundamental concepts in the morning and advanced research applications in the afternoon.

- Morning Session: Led by Dr. Sreeraag G, focused on the foundational principles of Social Network Analysis (SNA), introducing key concepts in graph theory, network properties, and their applications in cybersecurity and misinformation detection.
- Afternoon Session: Conducted by Dr. Rajesh Sharma (online), explored advanced research topics, including AI-driven SNA, misinformation propagation, influence detection, and practical case studies on combating fake news and hate speech.

Outcomes of the Workshop:

✓ Strengthened Understanding of SNA – Participants gained a solid conceptual foundation in network analysis techniques and methodologies.
✓ AI & Data Science Applications – The integration of AI-driven approaches in SNA provided valuable insights for those exploring research in cybersecurity, influence modeling, and misinformation detection.
✓ Real-World Relevance – Discussions on network security, social influence, and adversarial attacks helped bridge theoretical knowledge with practical applications.
✓ Research and Collaboration Opportunities – The sessions encouraged meaningful discussions and networking among scholars, students, and faculty, fostering future research collaborations.

Conclusion:

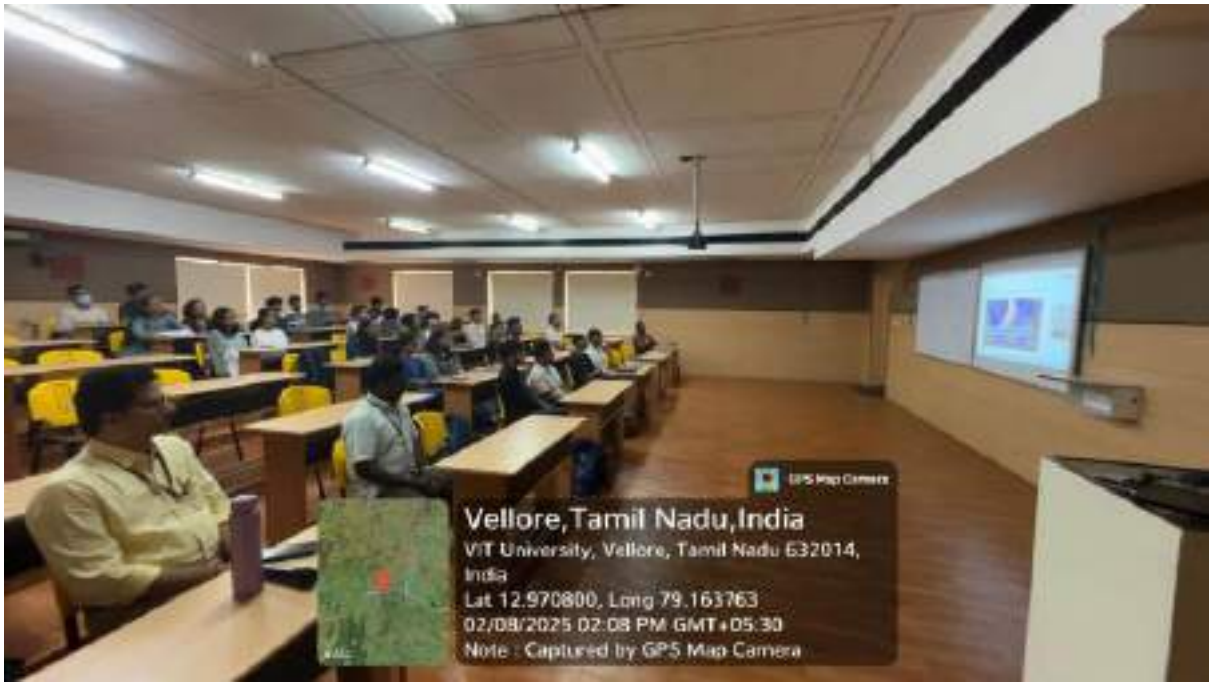

The workshop was highly engaging and well-received. Participants appreciated the balanced mix of theoretical knowledge, research-driven insights, and practical demonstrations. The discussions and expert sessions provided valuable direction for those interested in pursuing AI-driven Social Network Analysis research and its societal impact.

(Documents uploaded by the user i.e. the document in "Uploaded Document" section will not be considered as a valid proof of identity).
2. PNRs having fully waitlisted status will be dropped and automatic refund of the ticket amount after deducting the applicable CLERKAGE by Railway shall be credited to the account used for payment for booking of the ticket. Passengers having fully waitlisted e-ticket are not allowed to board the train. However, the names of PARTIALLY waitlisted/confirmed and RAC ticket passenger will appear in the chart.
3. A clerkage charge of Rs.60 per passenger plus GST for AC Classes and Rs.60 per passenger for Non AC classes will be deducted if the ticket remains Waitlisted at the time of Cancellation/Charting.
4. Passengers travelling on a fully waitlisted e-ticket will be treated as Ticketless.
5. Obtain certificate from the TTE /Conductor in case of (a) PARTIALLY waitlisted e-ticket when LESS NO. OF PASSENGERS travel, (b)A.C FAILURE, (c) TRAVEL IN LOWER CLASS. This original certificate must be sent to GGM (IT), IRCTC, Internet Ticketing Centre, 2nd Floor, Tower-D, World Trade Centre, Nauroji Nagar, New Delhi- 110029, after filing TDR online within prescribed time for claiming refund.
6. In case, on a party e-ticket or a family e-ticket issued for travel of more than one passenger, some passengers have confirmed reservation and others are on RAC or waiting list, full refund of fare, less clerkage, shall be admissible for confirmed passengers also subject to the condition that the ticket shall be cancelled online or online TDR shall be filed for all the passengers upto thirty minutes before the scheduled departure of the train.
7. In case train is late more than 3 hours, refund is admissible as per railway refund rules only when TDR is filed by the user before the actual departure of the train at boarding station and passenger has not travelled.
8. In case of train cancellation on its entire run, full refund is granted automatically by the system. However, if the train is cancelled partially on its run or diverted and not touching boarding/destination station, passengers are required to file online TDR within 72 hours of scheduled departure of the train from passengers boarding station.
9. Never purchase e-ticket from unauthorized agents or persons using their personal IDs for commercial purposes. Such tickets are liable to be cancelled and forfeited without any refund of money, under section (143) of the Indian Railway Act 1989. List of authorized agents are available on www.irctc.co.in under 'Find NGet Agents' option.
10. For detail, Rules, Refund rules, Terms & Conditions of E-Ticketing services, Travel Insurance facility etc. Please visit www.irctc.co.in
11. While booking this ticket, you have agreed of having read the Health Protocol of Destination State of your travel. You are again advised to clearly read the Health Protocol advisory of destination state before start of your travel and follow them properly.
12. The FIR forms are available with on board ticket checking staff, train guard and train escorting RPF/GRP staff.
13. Variety of meals available in more than 1500 trains. For delivery of meal of your choice on your seat log on to www.ecatering.irctc.co.in or call 1323 Toll Free. For any suggestions/complaints related to Catering services, contact Toll Free No. 1800-111-321 (07.00 hrs to 22.00 hrs)
14. National Consumer Helpline (NCH) Toll Free Number: 1800-11-400 or 14404
15. You can book unreserved ticket from UTS APP or ATVMs (Automatic Ticket Vending Machines) located in Railway Stations.
16. As per RBI guidelines, the refund of Ticket should be given in the same Bank account, which was used for booking. It is necessary that the Bank Account used for booking online ticket should not be closed at least up to 30 days beyond the date of the journey. If accounts are found closed at the time of processing refund, the refund will be regretted by the Bank.

Summer Internship for School Students (20.06.05 to 29.06.25)

20.06.25 | Day 1 – Introduction and Knowing Self

Participants introduced themselves and discussed the agenda of the program. They explored the concept of "self," personal qualities, and how the self is formed through experiences and interactions. The day concluded with a reflective activity on identifying one's own strengths and learning from role models.

Meeting link:

21.06.25 | Day 2 – Self-Regulation and Self-Efficacy

The focus of the session was on understanding self-efficacy using Bandura's framework. Participants identified their self-defeating behaviors and examined how emotional regulation and persistence play a role in achieving goals. Strategies for developing confidence and resilience were also discussed.

22.06.25 | Day 3 – Self-Paced Learning & Emotion Assessment

This day encouraged self-paced learning with activities focused on introspection and emotional self-assessment. Participants reflected on their emotional responses, patterns of behavior, and learned the importance of emotional awareness in personal development.

23.06.25 | Day 4 – Understanding Emotions

Students explored the definition, components, and universality of emotions. They learned about emotional expression, functions of emotions, and the TEA model (Thought–Emotion–Action). The difference between moods and emotions was clarified through examples and discussions.

24.06.25 | Day 5 – Cognitive Emotion Regulation

Participants learned cognitive strategies to regulate emotions and explored the adaptive and maladaptive coping strategies for regulating negative situations. Students conducted a test on themselves to understand what are coping mechanisms that they use in their routine life.

25.06.25 | Day 6 – Emotional Intelligence

Participants learned explored the five components of emotional intelligence: self-awareness, self-regulation, motivation, empathy, and social skills. The session emphasized how emotional intelligence supports effective communication and decision-making.

26.06.25 | Day 7 – Stress and Coping Strategies

The session focused on recognizing the signs and sources of stress, and understanding how it differs from anxiety. Various stress types—acute, chronic, episodic, and eustress—were explained. Participants practiced evidence-based coping strategies including mindfulness, physical activity, and emotional reframing.

27.06.25 | Day 8 – Expert lecture on 'Prioritizing Mental Health' by Ms. Sukirti Ahuja

Ms. Sukirti Ahuja started the session by rapport building with the students. From there she started talking about how psychological issues are connected with mind and body. What are the psychological issues and

how should we deal with them. She also spoke about grounding techniques. Students were made to do grounding technique during the session.

28.06.25 | Day 9 – Understanding, Stress, Anxiety and Depression

Dr. Tanu Kukreja explained the students about identifying some common mental illness. She also made them understand the role of psychiatrist, psychologist and counsellor. Students were made apprised of anxiety symptoms and types, depression symptoms, how to identify them and whom to approach. Students were also encouraged to make support systems and understand its values rather than engaging in digital addiction.

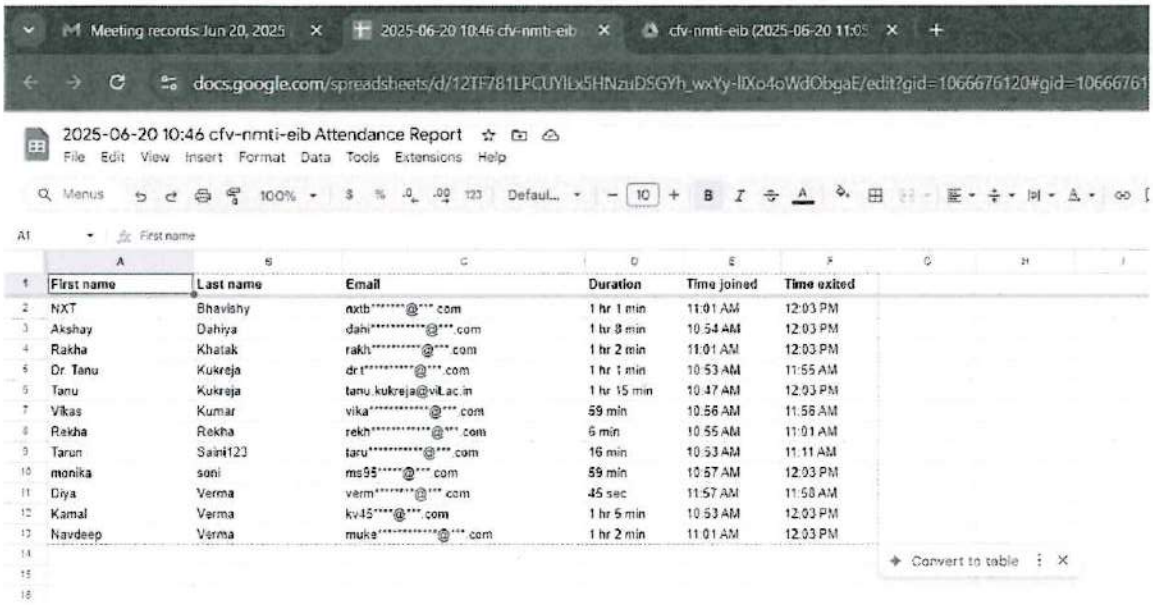

29.06.25 | Day 10 – Summarizing and Feedback

Everything covered during the previous 9 days of internship was revised. So that the lessons last longer. It was surprising to see how students remembered it all and shared their learning one by one. Students shared their feedback about the session and requested to have more such sessions. The summer internship was closed with a thank you note by Dr. Tanu Kukreja

To Principal

Yog Senior Secondary School

Hisar (Haryana)-125001

At the outset, I am thankful for your time to have a discussion about the summer internship of 11^{th} and 12^{th} students of your school. Considering the ever-paced time of technology and associated challenges it becomes necessary that we equip our students with the necessary skills of keeping themselves mentally and physically healthy. This internship shall focus on training students for self-development, emotion regulation, learning positive coping strategies, healthy use of technology and effective communication. Please find below the proposal for summer internship of students and feel free to suggest any changes.

Main theme- Self development, Emotional and Personal Growth

Day wise topics:

Day	Date & Day	Theme	Topics / Activities
Day 1	20.06.25 (Friday)	Introduction & Ice-Breaking session	Self-introductions, agenda of the internship, team-building and self-awareness games
Day 2	21.06.25 (Saturday)	Who Am I? (Self-Awareness)	Personality types, personality assessment, SWOT analysis
Day 3	22.06.25 (Sunday)	Effective Communication	Communication with self and others
Day 4	23.06.25 (Monday)	Emotions	Understanding emotions and its significance, identifying feelings
Day 5	24.06.25 (Tuesday)	Emotional Regulation	Emotional regulation strategies, identifying one's emotion regulation strategy, managing negative emotions etc.
Day 6	25.06.25 (Wednesday)	Understanding mental health Mindfulness	Understanding the concept of mental health and identifying good mental health strategies, Practicing mindfulness
Day 7	26.06.25 (Thursday)	Stress management and Resilience	Stress relief, management and prevention strategies, Resilient thinking patterns
Day 8	27.06.25 (Friday)	Self-regulation	Building Self efficacy, understanding self-defeating behaviours
Day 9	28.06.25 (Saturday)	Technology Addiction	Understanding addiction and its impacts, Digital wellness
Day 10	29.06.25 (Sunday)	Reflection & Celebration	Learning experience and feedback sharing

Duration: 10 days (2-3 hours every day)
Time: 11 am – 1pm
Format: Online, interactive sessions
Registration process: Students can register through the following link:
https://forms.gle/XJ5TpBHGTNkE4kew7

No. of participants – 10-15 on first come first serve basis
Fee – No charges

I trust that the program will benefit students by enhancing their emotional intelligence, boosting confidence, and preparing them for future academic and social challenges.

I am hopeful that you like the proposal and introduce the program to your students.

Thank you for your time and consideration. I look forward to your positive response.

Dear Dr. Kukreja,

Thank you very much for sharing the details of the proposed program. I sincerely appreciate your thoughtful initiative and the potential value it offers in supporting our students' emotional and personal development.

You can please go ahead with this program. I will share it with our students for their participation. We truly value such opportunities that contribute positively to student well-being and growth.

Thank you once again for reaching out and for considering our institution.

Kind regards,

Dear Ms. Ahuja

Good evening!

Much thanks to you for accepting my request to speak on 'Prioritizing your mental health' to my summer internship program students. All are 10th grade students and are very fresh from a mental health perspective. Getting a right perspective at this age is essential, and I trust your session will be immensely beneficial for them.

Below are the details for the session:

Topic: Prioritizing mental health
Time: 10AM
Duration: 45 minutes + 15 mins for Q&A
Mode: Online. Link is as follows:

https://meet.google.com/cfv-nmti-eib

Looking forward to your session!

Dear students,

Good morning!

Please note we don't have a regular class today. Instead I am posting an assignment for you. Please find below your work today's work. You simply have to read the instructions given and answer the question. There is no right or wrong answer to any question. We need these answers for tomorrow's class.

I hope you are also maintaining your diary for daily learnings. From now onwards, after you have written please e-mail me a copy of it.

Thanks

Best,

Dear students,

Good evening!

Alongwith making a daily logbook (diary), please do the following assignment and submit by tomorrow night.

Watch the following videos and write an essay of your learnings from it.

1. https://www.ted.com/talks/ted_ed_how_to_make_smart_decisions_more_easily
2. https://www.ted.com/talks/patrick_mcginnis_how_to_make_faster_decisions?subtitle=en

Same is posted on your whatsapp group as well.

Thanks

Dear students

Good evening!

A huge thanks to all of you for being part of this summer internship 2025. As requested, I will plan more such activities for you so that you can pave your way to success. Please find below the feedback link for this internship. I request you to fill this at your earliest convenience.

As discussed, please also share a note on your overall journey in this internship. What did you learn and how are you going to apply it in your day to day life?

ABOUT VIT

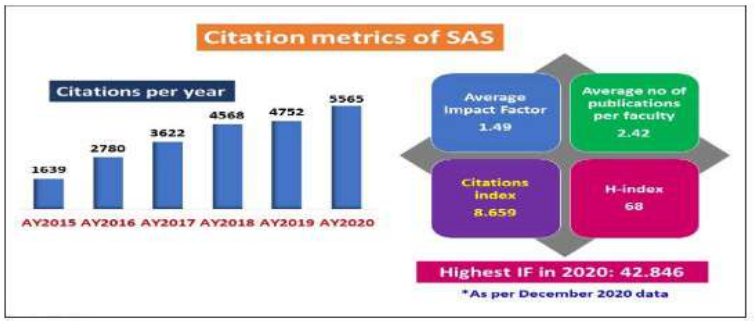

VIT was established under Section 3 of the University Grants Commission (UGC) Act, 1956 and was founded in 1984 as a self-financing institution called the Vellore Engineering College. The Union Ministry of Human Resources Development conferred University status on Vellore Engineering College in 2001, in recognition of its excellence in academics, research and extracurricular initiatives. The University is headed by its founder and Chancellor, Dr. G. Viswanathan, a former Parliamentarian and Minister in the Tamil Nadu Government. In recognition of his service to India in offering world class education, he was conferred an honorary doctorate by the West Virginia University, USA. Currently, VIT has 5 campuses in Vellore, Chennai, Amravati, Bhopal and Bangalore. NIRF of the MHRD, Government of India, has ranked VIT 10th best in University, 13th best in Research, 11th best in Engineering, 19th best in Overall category in 2024. VIT has gone for accreditation by NAAC [India], IET [UK], and ABET [USA] and follows world class academic processes. VIT is one of the top 2 institutions of India and within the top 501-600 Universities of the world as per Shanghai ARWU Ranking 2024. VIT is also ranked by QS World University Ranking, Times Higher Education (THE) World University Ranking, US News Ranking, Round University Ranking, Russia and others. VIT is the first institute of India to receive QS 4-Star rating in overall category and QS 5-Star rating in teaching, employability, facilities, innovation and inclusiveness.

SCHOOL OF ADVANCED SCIENCES

School of Advanced Sciences (SAS), which was established in the year 1984, comprises Mathematics, Physics, and Chemistry departments. The school consists of a total of 232 experienced and energetic faculties. The school has been receiving research grants from various funding agencies such as DST, CSIR, DRDO, NBHM, BRNS, IGCAR, AERBA, NRB and ARDB.

The school has also been recognized by DST for support under the FIST programme. The school conducts various programmes such as InoVIT, SciGATHER, and National Science Day. The school offers University core and elective courses in Mathematics, Physics and Chemistry for all UG Programmes. The school offers M.Sc. programs in Chemistry, Physics and Mathematics. It also offers core and elective courses for all PG Programmes. The school offers Ph.D. programs in frontier research areas.

DEPARTMENT OF MATHEMATICS

The Department of Mathematics comprises 133 faculty members dedicated to fulfilling the needs of all the engineering departments. The faculty members of the department are specialized in frontier areas of mathematics such as Operations Research, Queuing Theory, Fuzzy Mathematics, Algebra, Analysis, Complex Analysis, Differential Equations, Fluid Dynamics, Graph Theory, Inventory Systems, Coding Theory, Mathematical Modeling, Numerical Methods, Mathematical Biology and others. Several research projects of the department are financially supported by some of the leading funding agencies such as CSIR, DRDO, DST and NBHM. The department offers Ph.D., Statistics and Data Science in addition to M.Sc. (Data Science), M.Sc. (Business Statistics), Integrated M.Sc. (Computational Statistics and Data Analytics) and Integrated M.Sc. (Mathematics) programmes. The department is also serving the requirements of the leading industries through consultancy projects. The department of mathematics has a good record of frequently organizing seminars, workshops, symposiums and conferences in the recent emerging technical areas. VIT Mathematical Meet is conducted every year by the department, which is a south Indian level math and science contest for school children, to create and encourage mathematical and scientific innovations among the students.

EDP HIGHLIGHTS

- Unleashing the spirit of entrepreneurship.
- The untold story behind success—the failures, uncertainties, and lessons learned along the way—to empower professionals to develop resilience and an entrepreneurial spirit.
- Entrepreneurial mind-set in project management with different approaches.
- Stakeholder management.
- Understand how recruitment works in today's job market (campus, off-campus, referrals, LinkedIn, etc.).
- Highlight what companies look for beyond academics (skills, attitude, adaptability).
- Tyre product development lifecycle, emphasizing critical stages from concept design to industrialization and market launch.
- Teach the essentials of an impactful resume.
- Discuss how to build a strong digital presence (LinkedIn, portfolios, GitHub, etc.).
- Smart money investments to save income tax.
- Why some brand names stick and others slip away.
- How customers judge a brand in 3 seconds.
- From likes to love: How emotions build start-up loyalty.
- Using feelings, not features, to create brand fans.

A REPORT ON

Five Days Entrepreneurship Development Program (EDP)

On Unlock Your Potentials

The EDP was organized by the Department of Mathematics, VIT, Vellore, from June 2nd to June 6th, 2025. The welcome address was delivered by Dr. K. Karthikeyan, Dean, School of Advanced Sciences, VIT, Vellore.

DAY 1 (June 2, 2025)

Session 1: Mr. Srithar Chellapan shared the story behind his success, including the failures, uncertainties, and entrepreneurial spirit required, regardless of one's field.

Session 2: Dr. Gemini V Joy explored the secrets of smart branding. She clearly explained the psychological concepts behind how customers judge a brand and how emotions build start-up loyalty, among other aspects.

DAY 2 (June 3, 2025)

Session 3: Ms. E. Revathi covered the basics of project management. She explained different types of project management approaches with suitable examples.

Session 4: Mr. J. Kumaresan explained the recruitment process in companies, He also discussed topics such as preparing attractive resumes and building a strong digital presence etc.

DAY 3 (June 4, 2025)

Session 5: Mr. Arihant Parakh briefed attendees on how they started their industry, the multiple challenges they faced with respect to market demand, and the various products evolved to sustain in the market.

Session 6: Mr. M. Sundar demystified how recruitment works in today's job market. He explained the key players, such as recruiters, hiring managers, and talent acquisition teams. He also conducted a mock interview for students during the session

DAY 4 (June 5, 2025)

Session 7: Mr. B. Dinesh Kumar provided an in-depth overview of the product development lifecycle, emphasizing critical stages from concept design to industrialization and market launch.

Session 8: Ms. R. Rajashree covered the basics of tax filing, IT regulations, and tax deductions. She also provided some input on how to save income tax more effectively.

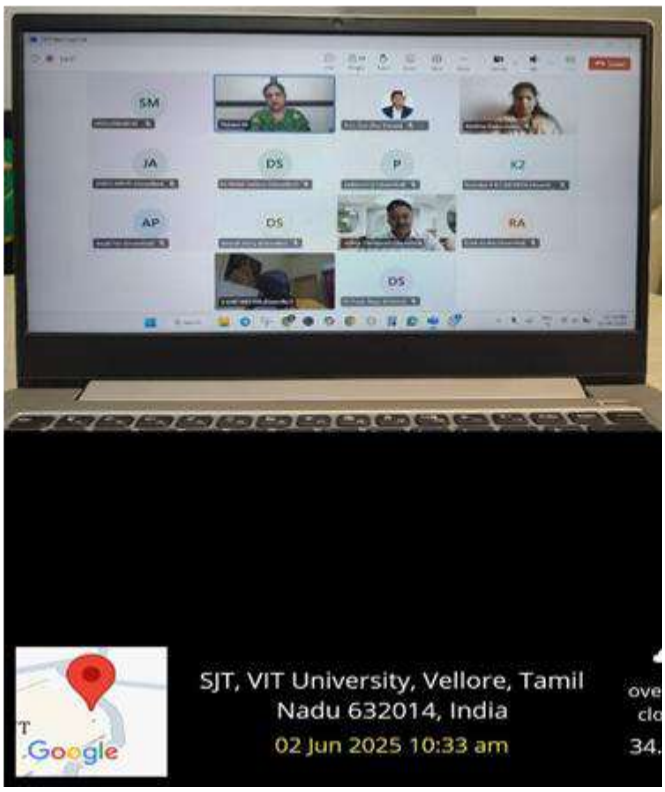

DAY 5 (June 6, 2025)

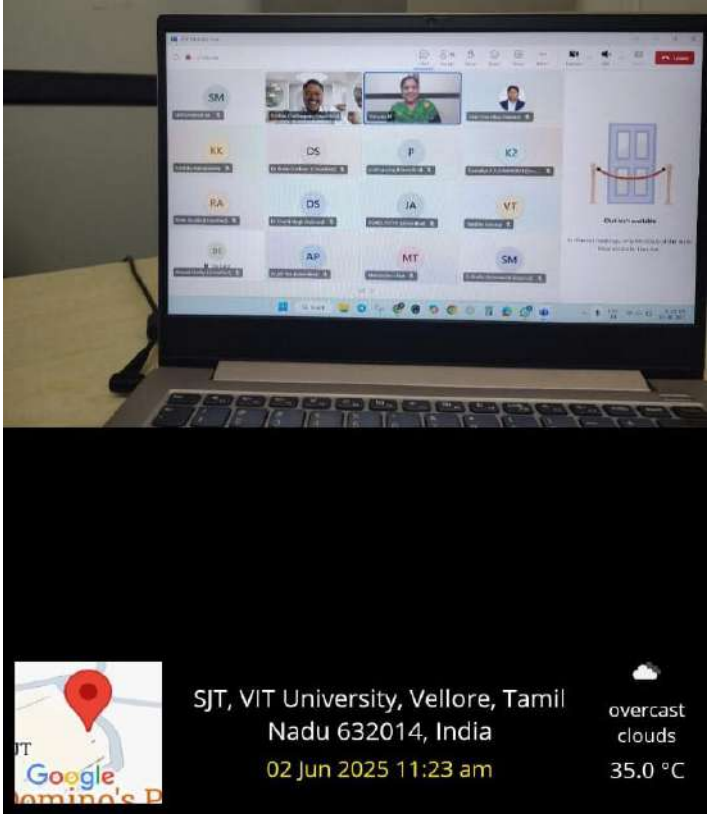

Session 9: Dr. B. Prabu Christopher explored the spirit of entrepreneurship, behavioural traits of entrepreneurs, how to develop an entrepreneurial spirit, cognitive distortion, and other related topics.

Session 10: Mrs. Deepa explored the key aspects of data analysis. She explained the importance of data analysis, the role of a data analyst, and the use of Excel sheets and other applications with real-time examples.

A REPORT ON Smart Agriculture: Integrating AI and IoT for Sustainable Farming

Brief Writeup: Agriculture is undergoing a rapid transformation with the integration of Artificial Intelligence (AI) and the Internet of Things (IoT), enabling precision farming, resource optimization, and sustainability. In this evolving landscape, it is crucial to equip faculty members with the latest advancements in smart agriculture to enhance their teaching, research, and outreach activities. This FDP aims to bridge the knowledge gap between AI-IoT technologies and Agriculture, enhance the interest towards interdisciplinary research and innovation and develop industry-academia collaborations, enable agriculture educators to incorporate AI and IoT concepts into their courses, ensuring that students are well-prepared for the industry and research sectors. Conducting this Faculty Development Program will not only enhance the technical expertise of educators but also enable them to mentor students, guide farmers, and collaborate with industries, ultimately fostering innovation in smart and sustainable agriculture. Objectives of the FDP: 1)To provide a foundational and practical understanding of AI and IoT technologies in the context of agriculture. 2) To discuss the role of smart agriculture in achieving sustainable development goals (SDGs), particularly in food security and environmental protection. 3) To expose faculty and researchers to real-world case studies, live demonstrations, and hands-on sessions. 4)To facilitate collaboration between computer science, electronics, and agricultural science disciplines. 5)To enable participants to ideate and initiate interdisciplinary research proposals and projects. Key topics to be covered in the FDP: Preprocessing agricultural data for AI applications, Computer vision for plant disease detection and crop monitoring, Remote Sensing & Drones for real-time farm monitoring, IoT-based Smart Irrigation & Precision Farming, AI applications in agriculture, Case Studies on AI tools for agriculture.

Event Outcome:

- Participants will develop a clear understanding of how artificial intelligence (AI) and the Internet of Things (IoT) can be practically applied in the agricultural domain, bridging gaps between technology and farming sciences.
- Participants will be able to identify research gaps and formulate research questions in smart agriculture, develop interdisciplinary project proposals for government or industry funding, and collaborate with peers across institutions for joint research initiatives.
- Faculty members will be better positioned to guide student projects in emerging areas like precision farming, agri-drone technology, or AI-based advisory systems and encourage innovation and entrepreneurship among students in agri-tech.
- Participants will explore successful use-cases of smart agriculture from India and around the world, helping them understand the scalability of tech-based farming, challenges faced in real-world implementation, and socio-economic and environmental impact of digital agri solutions.
- Hands-on Experience with various Tools and Platforms used in Smart Agriculture.

A REPORT ON

Five Days Faculty Development Programme

Shakthi To Mahashakthi: Women Welfare in Workplace

Women are the striving force and play different roles such as mother, sister, daughter, deans, and heads of various departments. All women should have a work life balance with good physical and mental health in spite of their busy schedules. This FDP is planned to conduct only for the women faculty. The main aim of the programme is to improve women faculty mental and physical health by conducting sessions on physical well-being, mental well-being, health well-being, gynaecological health and menstrual hygiene and sanitation, Occupation related musculoskeletal health well-being, food and nutrition. It is a rejuvenating programme to make them relax and face a new academic year with good energy.

In this programme, 21 faculty members from diverse schools have registered. The sessions were sequentially geared up to cover multiple topics and activity sessions.

Day 1 (05.05.2025 – Monday)

The programme started with a welcome address. Dr. Geetha Manivasagam, Professor Higher Academic Grade, HOD,BHT,SHINE, Dean, SHINE, Department of Manufacturing Engineering, School of Healthcare Science and Engineering handled a session on “Breaking the Barriers: Women in Science and Engineering”. She discussed opportunities to excel in the profession. She emphasized the issues, challenges that are generally faced by women in the workplace. She also explained how to overcome peer pressure, fund generation processes.

The second session on “Financial Awareness and Freedom” was handled by Dr. Manoharan M, Associate Professor Grade 2, VIT Business School. He explained about financial literacy, financial wellness, personal finance, various investment sources, money management strategy, and the effect of inflation.

The afternoon session was handled by Dr. Mangayarkarasi Arun P, Director, Physical Education Department. She explained about Kundalini yoga that focuses on awakening and channelling the Kundalini energy, a spiritual power believed to be dormant at the base of the spine. The participants get practice on Asanas, Pranayama and Kundalini Awakening with the help of the Dr. Mangayarkarasi Arun P.

Day 2 (06.05.2025 – Tuesday)

The second day of the programme was started by Mr. Emmanuel Angelo, at PRISM and MD Sanctuary on “Women at Workplace”. He explained about the strength of a woman, importance of posture, negotiation and self-appreciation. The afternoon session was a “Zumba session” handled by Yogesh V, Zumba fitness instructor. He taught simple warm up routines, dance and aerobic exercise routines for beginners. The participants were more curious to perform it. It is used to improve cardiovascular health, coordination, stress relief, and increased confidence.

It is understood that Zumba is a great option for burning calories and improving overall fitness, regardless of experience level. Dr. Mangayarkarasi Arun P, Director, Physical Education Department described Asanas that help to improve immunity, healing.

A REPORT ON IMMUNOTHON

The Department successfully organized IMMUNOTHON, an Ideathon aimed at encouraging innovation and problem-solving among students. The event took place over two days and saw enthusiastic participation from students of MSI (MSC Integrated Biotechnology).

Day 1: April 3, 2025 – Homi Bhabha Gallery

The first day of the event was held at the Homi Bhabha Gallery. Around 40 teams, comprising a total of 123 students, actively participated. The event began with an inspiring guest lecture by Dr. Jaganathan, an esteemed industrialist, who shared valuable insights on Vaccinations.

Following the lecture, student teams presented their innovative ideas based on the problem statements provided by the faculty coordinators. A panel of judges, consisting of faculty members, evaluated the presentations. After a thorough assessment, 10 teams were shortlisted for the final round.

Day 2: April 4, 2025 – Sarojini Naidu Gallery

The final round was conducted at the Sarojini Naidu Gallery. The selected teams presented refined versions of their ideas. After an intense round of judging, three winning teams were selected based on creativity, feasibility, and impact of their solutions.

The event concluded with a heartfelt vote of thanks, appreciating the efforts of all participants, organizers, and faculty members who contributed to the success of IMMUNOTHON

Title : Transforming skin and hair health with medical dermatology

Date : 2025-04-02 - 2025-04-02
Time : 14:15 - 17:30
Venue : TT707

Event Outcome

- The participants will understand how to identify various skin problems and treat them effectively.

Resource Person 1 - Details
Name : Dr Dincy Peter CV
Designation : Professor, Department of Dermatology
University/ Company : Christian Medical College Vellore, VELLORE
Address : India, 632004.

Resource Person's Profile :

1. Profile of Dr Dincy Peter CV

Dr, Dincy Peter C. V, is a Professor in the Department of Dermatology,
Christian Medical College Vellore. Her career interests include Clinical dermatology, Dermatopathology, Dermoscopy, and Dermatosurgery.
She is actively involved in research in the field of dermatology, venereology and leprosy since 2005. She has more than 50 publications in both national and international journals.

Skin disorders, ranging from temporary acne to potentially life-threatening conditions like skin cancer, vary greatly in symptoms, severity, and causes, some being situational or genetic. While many are treatable and can lead to remission, some are chronic and require on-going management, emphasizing the importance of seeking medical advice for persistent issues. Skin disorders can present with a wide range of symptoms, from mild rashes to severe, disfiguring conditions. Some skin conditions are temporary and resolve with treatment, while others are chronic and may require long-term management. Some skin disorders are painful, while others are painless, and some can be life-threatening. Some skin disorders are triggered by environmental factors or lifestyle choices, while others have a genetic component. Common known causes include bacteria, fungus, parasites, viruses, a weakened immune system, contact with allergens or irritants, genetic factors, and illnesses affecting the thyroid, immune system, kidneys, and other body systems. Common skin disorders include acne, eczema, psoriasis, rosacea, and skin cancer. Other common skin conditions include atopic dermatitis, alopecia areata, Raynauds phenomenon, vitiligo. Many skin disorders have effective treatments that can help manage symptoms and prevent complications. Even for some permanent skin disorders, treatments can lead to extended periods of remission, where symptoms are significantly reduced or absent. It is important to seek medical advice for any persistent or concerning skin problems, as some conditions can be serious or require specific treatment. A dermatologist can help diagnose and treat various skin conditions.

Lectures and demonstrations

A REPORT ON 'TRANSFORMING SKIN AND HAIR HEALTH WITH MEDICAL DERMATOLOGY'

Date: 2 April 2025 Time: 02:15 p.m. to 05:30 p.m. Venue: TT-707

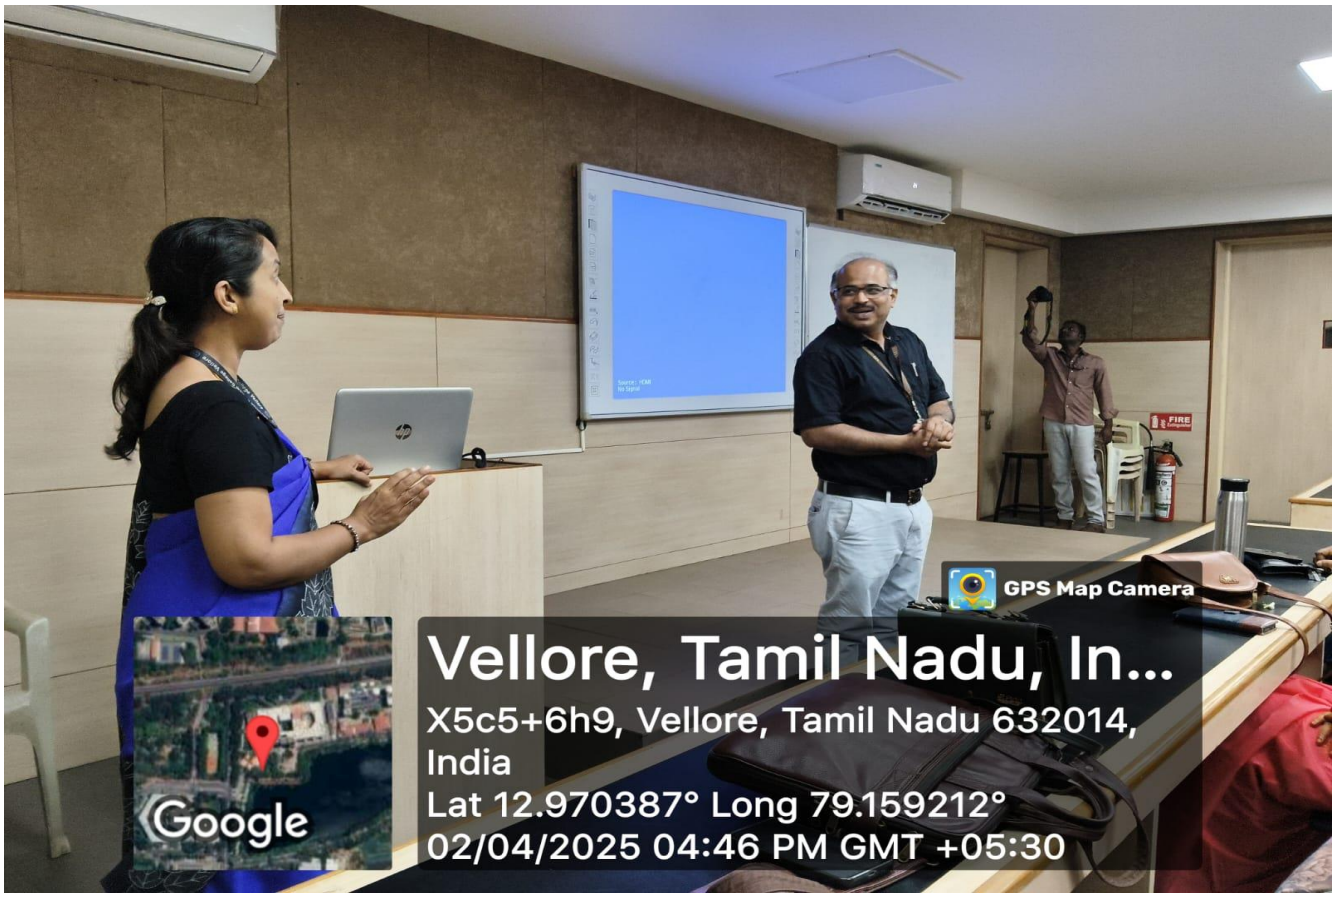

An FDP was organized for the faculty members, research scholars and Project Staff of VIT, Vellore on the 2nd of April, 2025 (Wednesday) from 02:15 pm to 05:30 pm at TT-707. The FDP was on '**Transforming Skin and Hair Health with Medical Dermatology**'. It was organized by **Dr. Sangeeta Mukherjee**, Senior Assistant Professor and **Dr. Evangeline Priscilla B.,** Assistant Professor, Department of English, SSL under the flagship of TLCE. The objective of this programme was to identify various skin and hair problems and treat them effectively. The resource person was **Dr. Dincy Peter CV,** Professor and Dermatologist, Christian Medical College, Vellore, India. Dr. Dincy explained the different kinds of skin disorders and their symptoms. She also described how to identify the various skin problems. She discussed about the reasons for hair loss and dandruff along with the effective ways to cure them. She also suggested appropriate medication, diet and lifestyle to be followed for the different kinds of skin and hair problems. The session was a highly interactive one as the audience asked many queries and sought effective measures for relief against skin and hair problems. The resource person answered the queries patiently, gave effective guidance and measures to be adopted and also demonstrated the corrective medical intervention to be sought. The programme was attended by the faculty members and research scholars of VIT, Vellore who found it to be very useful. The audience also took one to one suggestions from the resource person. On the whole, the FDP was a positive and fruitful one.

A Report on “World Water Day”

A farmers training event was organised in view of world water day on 22 Marcch 2025, which support the farmers to seek solutions on their water management problems. Moreover it paved way for the farmers to learn new strategies for adapting themselves for changing climatic conditions. Trainings were given on two topics “Integrating the Climate Change Adaptation into water management practices” by Er. Britto Raj, Executive Engineer, Secretariat, Chennai followed by another training on “ Sustainable agricultural practices: Linkage to SDGs” by Dr. Carolin Arul, Associate Professor, Anna University Chennai. The training sessions were fruitful and the farmers actively interacted with the speakers and clarified their doubts regarding irrigation water management.

A REPORT ON "Farmers' Training Programme on Oyster Mushroom Cultivation"

ATMA sponsored Farmers Training Programme on "Oyster Mushroom Cultivation" was successfully held on 21.03.2025 at Agri Clinic, VIT, Vellore. The program aimed to equip farmers with the knowledge and skills necessary for oyster mushroom cultivation.

The program included both theoretical and practical sessions on oyster mushroom cultivation, covering topics such as spawn production, substrate preparation, and crop management. Experienced faculty member and experts in the field of mushroom cultivation provided guidance and support to participants. Participants received hands-on training on oyster mushroom cultivation techniques, including substrate preparation, spawning, and incubation.

From this Programme, the partcipants gained a comprehensive understanding of oyster mushroom cultivation techniques and best practices, they acquired practical skills in oyster mushroom cultivation, enabling them to start their own mushroom cultivation ventures. The program also provided opportunities for participants to network with other farmers, experts, and potential buyers.

The Farmers Training Programme on Oyster Mushroom Cultivation was a successful initiative that equipped farmers with the knowledge and skills necessary for oyster mushroom cultivation. The program's hands-on approach and expert guidance ensured that participants gained practical experience and confidence in mushroom cultivation.

Date: 24 February 2025 Time: 04:00 p.m. to 05:30 p.m. Venue: TT-311

An FDP was organized exclusively for the faculty members, research scholars and Project Staff of VIT, Vellore on the 24th of February, 2025 (Monday) from 04:00 pm to 05:30 pm at TT-311. The sDP was on **‘Orthopaedic Pain Management and Relief**’. It was organized by **Dr. Sangeeta Mukherjee**, Senior Assistant Professor and **Dr. Evangeline Priscilla B.,** Assistant Professor, Department of English, SSL under the flagship of TLCE. The objective of this programme was to recognize the symptoms of pain and effectively deal with it by adopting pain management techniques and thereby cultivating a healthy lifestyle. The resource persons were **Dr. P.C. Austin,** Consultant Orthopaedics, and **Mr. Paul Rajkumar**, Occupational Therapist, Schieffelin Institute of Health Research and Leprosy Centre, Karigiri. India. Dr. Austin explained the different kinds of pain and their origin along with the reasons for pain. He also suggested appropriate medication, diet and lifestyle to be followed for the different kinds of pain. Mr. Rajkumar on the other hand demonstrated the different kinds of exercises and effective physiotherapeutic measures to be followed for effective pain relief. The audience actively participated in these exercises. The session was a highly interactive one as the audience asked many queries and sought effective measures for pain relief. Both the resource persons answered the queries, gave effective guidance and measures to be adopted and also demonstrated the corrective physical exercises to be followed through drills. The programme was attended by the faculty members, research scholars, Project Staff and Office Staff of VIT, Vellore who found it to be very useful. The audience also took one to one suggestions from the resource persons. On the whole, the FDP was a positive and fruitful one.

A REPORT ON FACULTY DEVELOPMENT PROGRAMME

TOPIC: EMPOWERING WOMEN'S HEALTH: ADVANCES IN GYNAECOLOGICAL CARE AND AWARENESS

Date: 20 December 2024 Time: 10:00 a.m. to 01:15 p.m. Venue: TT-707

An FDP was organized exclusively for the female faculty members, research scholars and Project Staff of VIT, Vellore on the 20th of December, 2024 (Friday) from 10:00 am to 01:15 pm at TT-707. The FDP was on **'Empowering Women's Health: Advances in Gynaecological Care and Awareness**'. It was organized by **Dr. Sangeeta Mukherjee**, Senior Assistant Professor and **Dr. Evangeline Priscilla B.,** Assistant Professor, Department of English, SSL under the flagship of TLCE. The objective of this programme was to create awareness among the working women professionals about regular health check-ups to root out early gynaecological issues and to understand women's gynaecological health and hygiene. The resource persons were **Dr. Manjula K.,** an expert and experienced Gynaecologist, practicing at MAA Hospital (Motherhood Wellness Clinic) Laparoscopy & Scan Centre in Comissary Bazaar, Vellore, and **Dr. Priyaroseni Briskala P.,** an Assistant Professor and experienced Gynaecologist at Christian Medical College Vellore. Both the resource persons explained in detail the importance of women's gynaecological health with real-life experiences and various examples. They stressed upon the importance of regular health check-ups for females; discussed about the feminine hygiene; described the diseases related to the reproductive system and also shared some tips on how to detect the symptoms of certain diseases and prevention of others. The programme was attended by the female faculty members and research scholars of VIT, Vellore who found it to be very useful. The programme ended with an interactive question and answer session where the audience asked their queries regarding various gynaecological issues. All their queries were meticulously handled by the two doctors. On the whole, the FDP was a positive and fruitful one.

Title : Empowering Women's Health: Advances in Gynaecological Care and Awareness

Date : 2024-12-20 - 2024-12-20
Time : 10:00 - 13:15
Venue : TT707

Event Outcome

- To create awareness among the working women professionals about regular health check-ups to root out early gynaecological issues.

Resource Person 1 - Details
Name : DR K MANJULA
Designation : MBBS MS, Obsteatrics and Gynaecology
University/ Company : Maa Hospital Motherhood Wellness Clinic Laparoscopy And Scan Centre, VELLORE
Address : INDIA, 632007.

Resource Person 2 - Details
Name : DR Priyaroseni Briskala P
Designation : Assistant Professor, Gynaecologic Oncology
University/ Company : CMC, VELLORE
Address : INDIA, 632004.

Resource Person's Profile :

1. Profile of DR K MANJULA

K.Manjula is an expert and experienced Gynaecologist with an experience of 7years. The doctor specializes in Gynaecologist. Currently, K.Manjula is practicing at Maa Hospital (Motherhood Wellness Clinic) Laparoscopy And Scan Centre in Comissary Bazaar, Vellore , is fluent in English, Hindi and provides compassionate care for all the patients to ensure complete recovery and strives to provide advanced medical care in a comfortable and holistic environment for all patients coming for treatment.

2. Profile of DR Priyaroseni Briskala P

Priyaroseni Briskala P is an Assistant Professor, Christian Medical College Vellore, Ida Scudder Road, Vellore 632004, Tamil Nadu, India

Womens health has seen significant advancements in recent years, particularly in the field of gynaecology. These innovations not only enhance medical care but also foster awareness, breaking taboos and empowering women worldwide to take charge of their health. Modern gynaecological care is transforming through groundbreaking technologies and treatment options like Minimally Invasive Procedures, Fertility Innovations, Personalized Medicine, Cervical Cancer Prevention, Telehealth for Gynaecology. Despite these advances, education and awareness remain critical to improving womens health outcomes. Efforts in this area include Breaking Taboos, Public Health Campaigns, and Accessible Resources. Empowering women through better gynaecological care and awareness is about more than medicine its about giving them control over their health, decisions, and lives. Continued investment in research, education, and de-stigmatization efforts will pave the way for healthier futures for all women.

REPORT

THIRD INTERNATIONAL CONFERENCE ON POPULATION AGEING AND LABOUR

Hosted by
The School of Social Sciences and Languages, Vellore Institute of Technology, Vellore
In Collaboration with the
International Institute of Migration and Development (IIMAD), Trivandrum, Kerala

November 28th- 30th 2024

EXECUTIVE SUMMARY

The School of Social Sciences and Languages (SSL), Vellore Institute of Technology, Vellore, in collaboration with the International Institute of Migration and Development (IIMAD) organized the Third International Conference on Population Ageing and Labour, an International Pre-Conference and Conference, from 28th to 30th November 2024. The event, held from 10:00 AM to 6:30 PM at the Kamaraj Auditorium and TT725 (Technology Tower), witnessed active participation, with 173 attendees registered over both days. A total of 68 presenters from 25 institutes and universities across India contributed to the conference, along with international participants, including three authors from the US, Malaysia, and Brunei, adding a global perspective to the discussions.

The conference commenced with an inauguration ceremony led by Dr. Ramnath Raghunandan, who welcomed delegates and dignitaries, setting a respectful tone with the Tamil Nadu State Anthem. Dr. Bangalore Morarji, Associate Professor & HoD, Department of Social Sciences, delivered the Welcome Address, emphasizing VIT's commitment to fostering a supportive educational environment. The dignitaries participated in a traditional lamp-lighting ceremony, symbolizing the beginning of the conference.

Among the distinguished speakers was Prof. S. Irudaya Rajan, who provided context and relevance to the conference by discussing the silver economy and productive ageing, highlighting the contributions of the ageing population and collaborating with Scopus-indexed journals for publishing conference papers. Dr. V. S. Kanchana Bhaaskaran, the Vice Chancellor, Vellore Institute of Technology, Vellore, Tamil Nadu, emphasized the role of technology in enhancing the quality of life for the ageing demographic and praised the concept of the silver economy. Dr. Halimah Awang, Principal Research Fellow at the Social Wellbeing Research Centre, University of Malaya, highlighted current research trends concerning the ageing population, referencing the Longitudinal Ageing Study in India (LASI) and its international collaborations. Dr. Udaya Shankar Mishra, Professor at the International Institute of Population Sciences, posed critical questions regarding whether the ageing population is a liability or an asset, advocating for a multidimensional

assessment approach to understanding ageing and the role of technology in improving the lives of older adults.

The conference sessions revolved around several key themes, including ageing and employment, migration and ageing, technology and ageing, and policy interventions and sustainable strategies. Presentations highlighted the challenges and opportunities presented by an ageing workforce in India, addressing issues such as ageism in the workplace, barriers to re-employment for elderly workers, and strategies for inclusion in the labor market. The discussions emphasized the need for policy interventions and a supportive societal framework to enhance the economic participation of the ageing population.

Parallel Sessions focused on the intricate patterns and challenges associated with migration and ageing, with presenters discussing the socio-economic impacts of international migration on the elderly population, particularly in regions like Goa and Kerala. The interplay between migration, informal employment, and the ageing workforce was explored, along with the effects of adult children's migration on the well-being of elderly parents. The role of technology in improving the quality of life for the elderly was a recurrent theme, with presenters discussing the importance of digital connectivity and the need for technological solutions to address the challenges faced by the ageing population. The integration of technology into elderly care and the potential of Active Ageing Centres were also highlighted. The conference underscored the critical need for effective financial

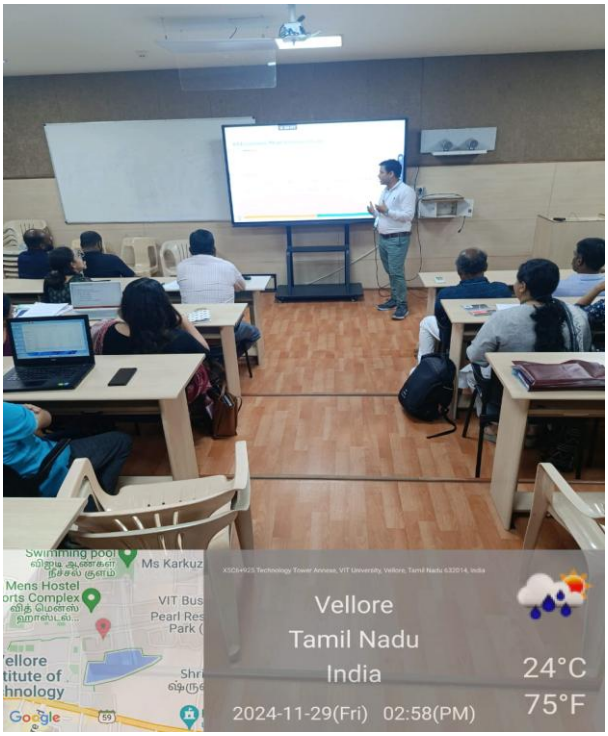

and policy interventions to support the ageing population, emphasizing the importance of inclusive policies and sustainable strategies to address the multifaceted challenges posed by an ageing society, including economic security and demographic transitions.

Multiple plenary sessions were held, including one chaired by Mr. Biju Mathew from HELPAGE

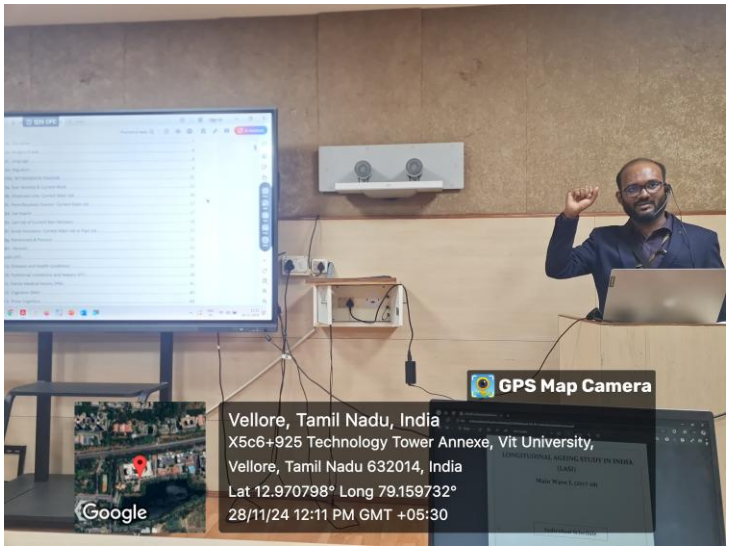

INDIA, which focused on the elderly labor force and the impact of migration on their employment. Presenters shared insights on how the migration status of adult children affects the work participation of elderly parents. Another plenary session addressed various aspects of ageing, including the establishment of Active Ageing Centres aimed at empowering older adults, emphasizing the importance of training local governments to create day centres "run by elderly for the elderly."

A pre-conference workshop on "Engaging in Big Data: Longitudinal Ageing Study in India (LASI) - Fourth Batch" was held on November 28, 2024, led by Dr. Irshad, providing participants with hands-on experience in using STATA software and working with LASI datasets. Total 18

participants across states took part in the workshop. The session covered data harmonization, analysis techniques, and the importance of quality data in research.

The conference concluded with a valedictory address at 1:45 PM, where Prof. Rajkumar P from Madurai Kamaraj University expressed gratitude to the organizers and participants, sharing a moral story that emphasized the importance of ethics and values in all aspects of life. Dr. Sumeetha, the Organising Secretary, appreciated the audience's engagement throughout the conference, while Dr. Irudaya Rajan announced plans to publish selected papers in special issues of reputed journals. Overall, the Third International Conference on Population Ageing and Labour successfully facilitated meaningful discussions on the challenges and opportunities associated with an ageing population, highlighting the importance of collaboration among researchers, policymakers, and practitioners to develop effective strategies for addressing the needs of the ageing demographic. The insights gained from the conference will contribute to ongoing research and policy development in the field of ageing and labour.

A REPORT ON VALUE ADDITION IN VEGETABLES

A training program focusing on "Value Addition in Vegetables" was conducted for farmers to enhance their knowledge about post-harvest practices and value-added products. The session was led by Mrs. Chithra Kalaichelvan, an expert in agricultural value addition and market dynamics.

The training aimed to educate farmers on innovative methods to increase the marketability and shelf life of vegetables such as lady's finger and brinjal. Mrs. Chithra emphasized the importance of value addition in boosting farm income and reducing post-harvest losses. She elaborated on how value-added products like pickles, powders, and dehydrated vegetables have gained significant traction in the domestic and export markets. By presenting key statistics, she highlighted the growing demand for these products and their potential to create a profitable niche in the agricultural economy.

A notable segment of the session was the live demonstration, where Mrs. Chithra showcased practical techniques to preserve vegetables using minimal resources. She demonstrated the use of 1% citric acid as a natural preservative, ensuring an extended shelf life while retaining the vegetables' nutritional value and colour. The demonstration included proper handling, treatment, and processing of vegetables to maintain quality standards.

Packaging, a crucial aspect of marketing value-added products, was also thoroughly explained. Mrs. Chithra provided insights into affordable and efficient packaging methods suitable for small-scale farmers. She emphasized the role of packaging in ensuring product safety, enhancing visual appeal, and meeting export standards.

The training program highlighted the economic potential of value-added vegetables in local and international markets. With increasing consumer demand for ready-to-cook and long-lasting vegetable products, farmers were encouraged to explore this avenue for diversification and income generation.

The session concluded with an interactive Q&A, where participants actively engaged in discussions about the cost of production, market linkages, and the feasibility of implementing these techniques on their farms. Farmers expressed appreciation for the practical insights and committed to adopting these practices to enhance their agricultural ventures.

This training served as a vital step toward equipping farmers with the skills and knowledge to embrace value addition, ensuring both sustainability and profitability in their farming practices.

Foreign Expert Special Lecture

School of Advanced Sciences
Department of Chemistry
Vellore Institute of Technology

Aerosols/Particulate Matter (PM): Their climate contributions and human health impacts of interest to India.

Prof. A.R. Ravishankara

University Distinguished Professor, Departments of Chemistry and Atmospheric Science, Colorado State University, Fort Collins, CO, USA

Prof. Ravishankara is a University Distinguished Professor in the Departments of Chemistry and Atmospheric Science at the Colorado State University, Fort Collins, USA. He has worked on the chemistry of the Earth's atmosphere related to stratospheric ozone depletion, climate change, and air quality. His studies have significantly contributed to understanding ozone layer depletion, the role of chemically active species on climate, and urban air pollution. He has close to 400 publications with an h-index of 101. He is a member of the US National Academy of Sciences, a Foreign Member of the Royal Society (London), and a Foreign Fellow of the Indian National Science Academy. He currently serves on the scientific advisory panel of the Climate and Clean Air Coalition (CCAC) of United Nations Environment Programme (UNEP) and the Steering Committee for the UNEP program to monitor Ozone Depleting Substances. He is the recipient of several distinguished awards including the Polanyi Medal of the Royal Society of Britain, the Stratospheric Ozone Protection award of the US Environmental Protection Agency, and the American Chemical Society's award for Creative Advances in Environmental Sciences.

ABSTRACT :

I will very briefly describe how aerosols have led to lower contributions of India to global climate change and the health impacts of the aerosols over India. I will briefly describe how we obtain surface PM2.5 (particulate matter of diameter less than 2.5 micrometers) from satellite data. Then, I will describe the health impacts of PM2.5 as measured by premature mortality. I will highlight the contributions of PM in non-urban India. Lastly, I will provide rough estimates of the measures needed to meet national ambient air quality standards in India from the changes observed during the COVID-19 shutdowns and lockdowns.

Dear Sir / Madam

We have processed the Payment as per your request. The transaction reference number is given below:

Claim Number	:	**46204[1]16363**
Name of the bank holder	:	**E Arunan**
Bank Name	:	**STATE BANK OF INDIA**
Account Number	:	**10270643528**
IFSC Code	:	**SBIN0002215**
Amount	:	**4991/-**
UTR Number	:	**IDIBN52025032753855381**
Payment Date	:	**27.03.2025**

NOTE:

Our Payment process is through Indian Bank, So UTR / Ref No. will not be generated (Internal Transfer).

If the amount is not credited to the beneficiary account kindly contact through the Email.

Thanks & Regards,

Jayanthimala. M

Dear Sir,
Prof. A. R. Ravishankara a member of the US National Academy of Science and a foreign member of the Royal Society (London) , is visiting VIT **on the 6th of November**. He currently chairs the Board on Atmospheric Science and Climate of the NAS and serves on the scientific advisory panel of the Climate Clean Air Coalition. He is also a recipient of several distinguished awards which include the Polanyi Medal of the Royal Society, The Stratospheric Ozone Protection award of the US Environmental Protection Agency, and the American Chemical Society's award for Creative Advances in Environmental Sciences. He has close to 400 publications and an h index of 101 (**CV is attached herewith).**
Wikipedia has some information on him: https://en.wikipedia.org/wiki/Akkihebbal_Ravishankara
His Google Scholar page: https://scholar.google.com/citations?user=Gb0ClrsAAAAJ&hl=en
https://www.infosysprize.org/jury/2019/ravishankara.html

In line with the visit, a seminar is being arranged on the 6th of November in Kamaraj Auditorium from the School of Advanced Sciences. Given his immense contribution to Climate Science and association with the United Nations Montreal protocol, an interaction session with him would be beneficial to CCE. I kindly request you to arrange an interaction with the faculty and researchers from CCE if possible.

DR. ELANGANNAN ARUNAN, Professor, Department of Inorganic and Physical Chemistry
Indian Institute of Science Indian Institute of Science Bangalore is also accompanying him. Please find attached both their CV's.

Kindly let me know your thoughts on this.

Warm regards,

Dr. Sainu Franco (Ms.)

Thank you for your email and information.
We are happy to meet and interact with Dr. Ravishankara and Dr. Elangannan on 06th November 2024.
Kindly let me know the schedule of their visit to our centre so that I will inform our team accordingly.

Best Regards,
Prof. S. Shantha Kumar
Director, CCE

Dr Hannah	Early Career	Radiation Oncology	Vellore	hannah.thomas@cmcvellore.ac.in	9626262292

Programme Schedule

Day & Date	Time	Session Topic	Resource Person
Monday 14-10-2024	10:00 AM – 11:30 AM	How to make AI in Production	Dr. Rohit Kumar
	11:45 AM – 1:15 PM	Arrhythmia due to electrical circuits in the heart.	Dr. John Roshan Jacob
	2:15 PM – 3:45 PM	Challenges in blood pressure measurement and introduction to a newly patented device CMCNIBP	Dr. Sathya Subramani
	4:00 PM – 5:30 PM	Human Eye - Capturing its glory	Dr. Jeyanth Rose
Tuesday 15-10-2024	10:00 AM – 11:30 AM	Exploring GENAI and LLM's	Dr C S Saravana Kumar
	11:45 AM – 1:15 PM	Working with LLM	Dr C S Saravana Kumar
	2:15 PM – 3:45 PM	Challenges in smart ICU equipment design	Dr Venkatraman
	4:00 PM – 5:30 PM	Recent trends in Robotics	Dr. R Subramaniyan
Wednesday 16-10-2024	10:00 AM – 11:30 AM	Predicting Faulty Products with Supervised Classification Models	Mr. Prateek Goyal
	11:45 AM – 1:15 PM	Explainable Artificial Intelligence	Dr. Jennica
	2:15 PM – 3:45 PM	AI in Medical Imaging	Dr. Devakumar
	4:00 PM – 5:30 PM	Bridging the gap between Data Scientists and Clinicians- Experiences and Lessons from a Large Imaging Trial	Dr. Hannah
Thursday 17-10-2024	10:00 AM – 11:30 AM	Revolutionising Medical Diagnosis: The role of AI in Modern Healthcare	Dr. S Angelin Kirubha
	11:45 AM – 1:15 PM	Revolutionising Medical Diagnosis: The role of AI in Modern Healthcare	Dr. S Angelin Kirubha
	2:15 PM – 3:45 PM	Multi-modal AI for Diagnostics	Dr. Anandkumar
	4:00 PM – 5:30 PM	Multi-modal AI for Diagnostics	Kirthi Yuvaraj
Friday 18-10-2024	10:00 AM – 11:30 AM	Design of LDPC Code on Feedforward Neural Network for image Decoder using CMOS technique	Dr.C. Senthil Pari
	11:45 AM – 1:15 PM	Artificial Intelligence based thermal image processing for medical applications	Dr. U. Snekhalatha
	2:15 PM – 3:45 PM	Explainable AI for AF Identification from ECG Signals".	Dr. Malay Kumar Nath
	4:00 PM – 5:30 PM	Exploring AI and LLM working	Dr. Sumit K Mandal

A REPORT ON
Faculty Development Programme - Emerging Frontiers in AI: From Robotics to Healthcare and IoT Applications

The Faculty Development Program (FDP), conducted from 14th October 2024 to 18th October 2024, brought together 54 participants, offering them an enriching and immersive experience over five days. The program aimed to bridge knowledge gaps and stimulated dialogue between academia, industry professionals, Doctors, and researchers. With a focus on the latest advancements in Artificial Intelligence (AI), machine learning, healthcare technologies, and engineering innovations, the FDP scheduled daily from 10:15 AM to 5:30 PM, delivering a comprehensive set of 20 sessions designed to equip participants with cutting-edge skills and knowledge.

The FDP opened with an insightful session on "How to make AI in Production", which delved into the challenges of deploying AI models in real-world scenarios. Participants were introduced to the complexities of model scalability, deployment pipelines, and the need for continuous model improvement. This session provided a strong foundation for subsequent discussions on AI's role across various sectors, particularly in healthcare.

Healthcare was a major focus of the FDP, with several sessions dedicated to exploring AI-driven innovations in medical diagnostics and patient care. The session titled "Arrhythmia due to Electrical Circuits in the Heart" discussed the intricacies of arrhythmias and their correlation with the electrical circuits in the human heart, setting the stage for deeper discussions on AI applications in cardiology. Another key healthcare-related session, "Challenges in Blood Pressure Measurement and Introduction to a Newly Patented Device CMCNIBP", introduced a newly patented non-invasive blood pressure measurement device. This session underscored the challenges in accurate blood pressure measurement and how this device is set to revolutionize patient monitoring.

AI's influence on medical diagnostics was further explored in sessions like "Revolutionizing Medical Diagnosis: The Role of AI in Modern Healthcare" and "Multi-modal AI for Diagnostics". These sessions examined the convergence of various AI technologies, including image processing, natural language processing, and sensor data integration, to deliver comprehensive diagnostic solutions. Additionally, "Explainable AI for AF Identification from ECG Signals" shed light on the importance of making AI models more interpretable, particularly in critical healthcare applications, where transparency and trust are paramount.

The integration of AI with medical imaging technologies was another significant theme of the FDP. The session "Human Eye – Capturing its Glory" explored how AI can augment our understanding of the human eye, enhancing diagnostic capabilities in ophthalmology. Similarly, "Artificial Intelligence-Based Thermal Image Processing for Medical Applications" demonstrated the potential of AI-driven thermal imaging in detecting and diagnosing medical conditions, emphasizing the versatility of AI in medical applications.

Generative AI (GENAI) and Large Language Models (LLMs), two of the most discussed topics in the AI world, were introduced to participants in the session titled "Exploring GENAI and LLMs". This session highlighted the practical applications of GENAI and LLMs, from text generation to decision support systems, while also addressing the ethical implications of deploying such technologies in real-world settings.

The FDP also included sessions that explored engineering and equipment design. "Challenges in Smart ICU Equipment Design" discussed the complexities involved in designing next-generation smart ICU equipment that integrates AI for real-time patient monitoring and decision-making. The session "Recent Trends in Robotics" provided insights into the latest advancements in robotics, focusing on how AI is transforming robotic systems, particularly in healthcare and industrial applications.

Several sessions were dedicated to machine learning applications in engineering and healthcare. The session "Predicting Faulty Products with Supervised Classification Models" discussed the role of supervised learning models in predicting product failures, a critical area for improving manufacturing quality control.

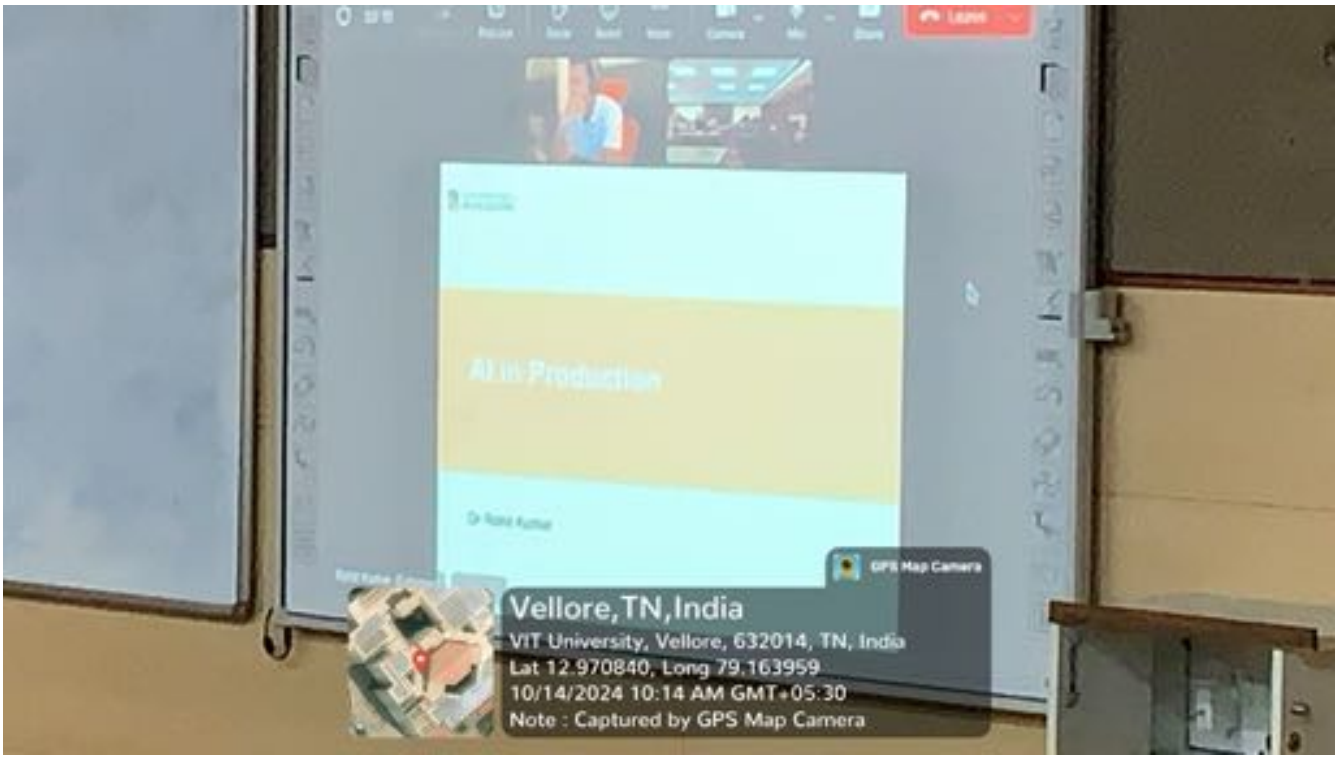

The event also touched upon advanced computational techniques for real-time AI applications and LLM. In the session "Exploring AI and LLM working ", participants gained insights into the evolving landscape of these models and architectures, a key area for developing scalable AI solutions and LLM optimization.

Overall, the sessions, emphasized the importance of interdisciplinary collaboration in healthcare research. These sessions shared valuable insights from a large imaging trial, highlighting the need for stronger

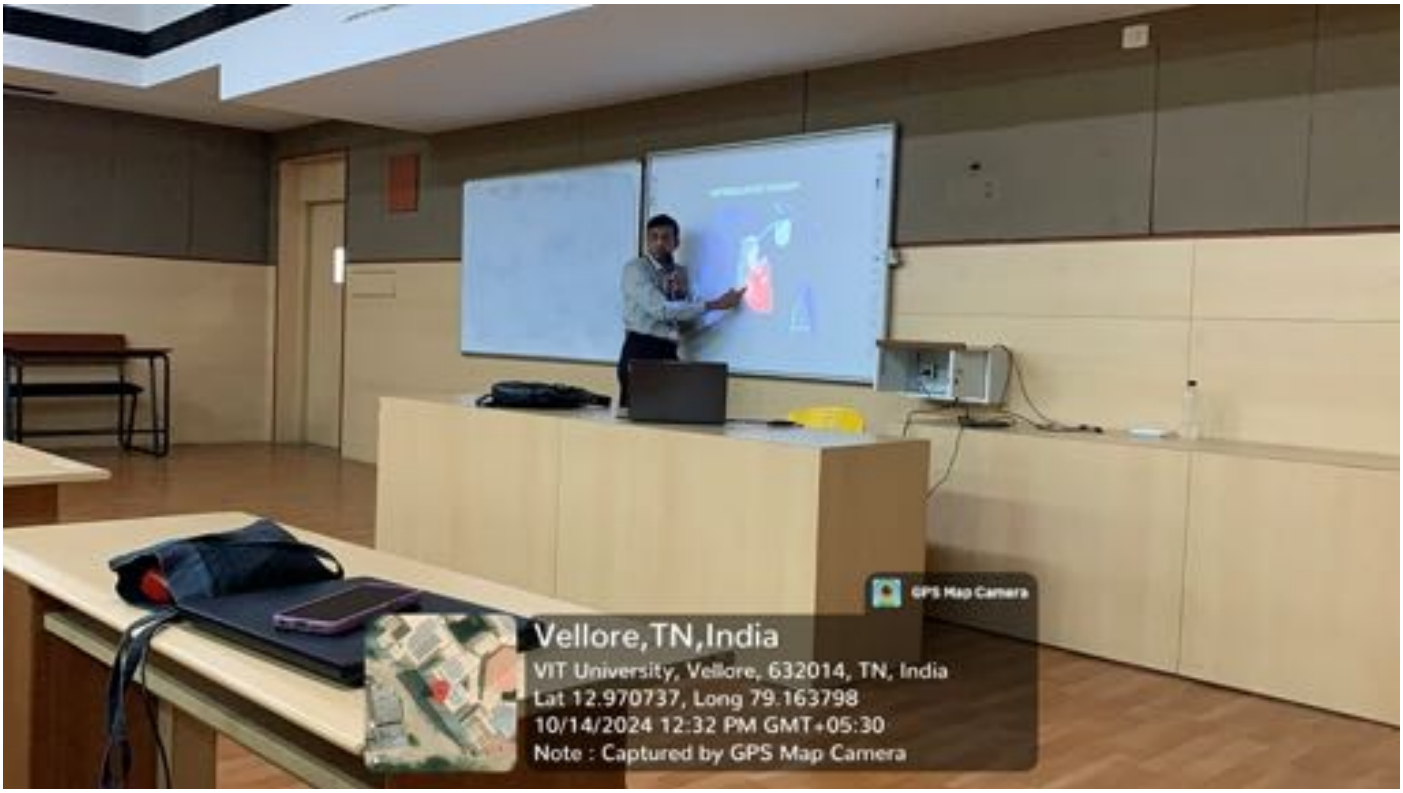

partnerships between data scientists and healthcare professionals to ensure the successful application of AI in clinical settings.

In conclusion, this FDP was a successful convergence of academic excellence, practical expertise, and industry experience. It not only provided participants with a thorough understanding of the latest technological trends but also fostered an environment conducive to collaboration and future innovations in AI, healthcare, and engineering.

Workshop on Prioritizing Mental Health and Building Resilience -October 9, 2024

Department of Social Sciences

School of Social Sciences and Languages

A Workshop was organized by a team of esteemed professionals Dr M. Bhuvaneswari and Dr. Tanu Kukreja, with the unwavering support of the Dr. M Monaharan, Dean School of Social Sciences and Languages,Head of the Department, Dr. Bangalore Morarji, Department of Social Sciences for students on 9th October 2024 to commemorate Mental Health Day, from 10:00 AM to 1:00 PM, at TT-725on the topic of "Prioritizing Mental Health and Building Resilience". The primary focus of this workshop was to shed light on mental health and building resilience of the student population.

Dr. Tanu Kukreja, Assistant Professor, Department of Social Sciences, SSL, VIT, Vellore, delivered a warm welcome address, emphasizing the importance of mental health and the need for workshops to address this critical issue. The resource person Dr. Varsha Malagi, Assistant Professor, Manipal Academy of Higher Education, Bangalore, then led the session, beginning with an engaging question: "How are you, and what was your emotion this morning?"The resource person helped participants understand resilience and its practical applications in daily life.To foster engagement, interactive icebreaker exercises were conducted, making the session lively and enthusiastic.

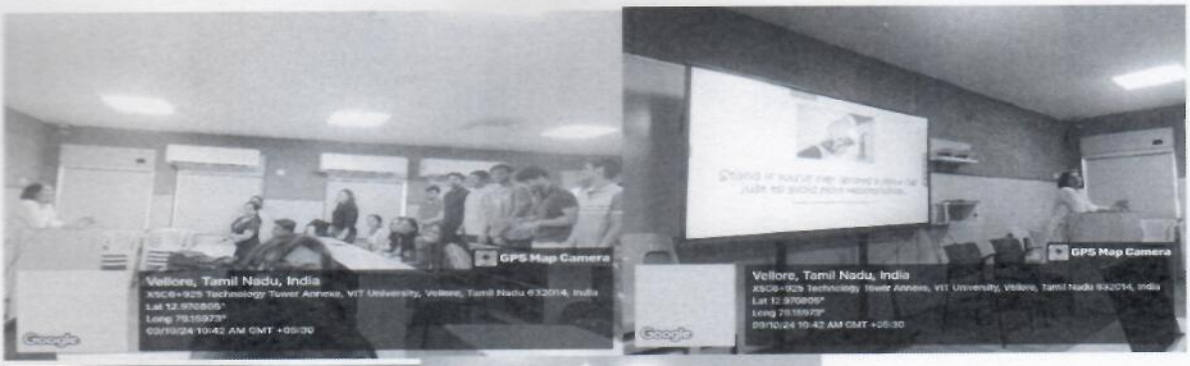

Dr. Varsha Malagi led a thought-provoking session, beginning with poignant questions on emotional first aid that sparked insightful reflections. Building on this momentum, Dr.Malagi explored mentalism and dualism, adding depth to the discussion. The conversation then transitioned to the mental health equation, engaging students in deeper exploration of the

concept. Further delving into psychosocial resilience, Dr.Malagi broke it down into emotional, cognitive, and social resilience, using illuminating examples to facilitate comprehension. The discussion culminated with Aaron Beck's cognitive distortion theory, shedding light on errors in thinking, overgeneralization, and mind reading. These concepts were thoroughly explored, enriching students' understanding of cognitive distortions and their impact on mental well-being.

This workshop on mental health and resilience shed light on two critical cognitive distortions: magnification and minimization. Through interactive discussions and personal reflections, students gained profound insights into how these thought patterns impact their emotional well-being.

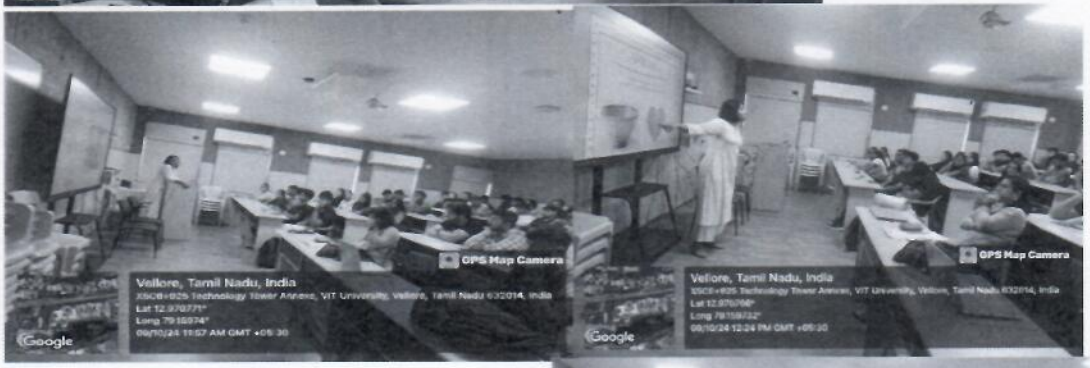

The exploration of emotional reasoning resonated deeply, enabling students to recognize how their emotions. This eye-opening experience encouraged students to re-examine their thought processes, fostering a deeper understanding of their mental health.The concept of Wabi-Sabi sparked immense interest among the students, resonating deeply with its profound message. This ancient Japanese philosophy, emphasizing the beauty of imperfection and impermanence, struck a chord with the young minds.The event concluded with a heartfelt vote of thanks delivered by Dr. M. Bhuvaneswari, Associate Professor Senior, Department of Social Sciences, SSL, VIT. Both the students and the faculty members expressed positive feedback, acknowledging the value and impact of the workshop.

Workshop on Mental Health and Wellness - October 9, 2024

Department of Social Sciences

School of Social Sciences and Languages

A Workshop was organized by a team of esteemed professionals Dr M. Bhuvaneswari, Dr. Tanu Kukreja andDr. Geetha R, with the unwavering support of the Dr. M Monaharan, Dean School of Social Sciences and Languages,Head of the Department, Dr. Bangalore Morarji, Department of Social Sciences for B.com students on 9th October 2024 in recognition of Mental Health Dayfrom 2:00 PM to 4:00 PM at TT-725on the topic of "Mental Health and Wellness". The meeting was convened with a focus on promoting mental health and wellness among students.

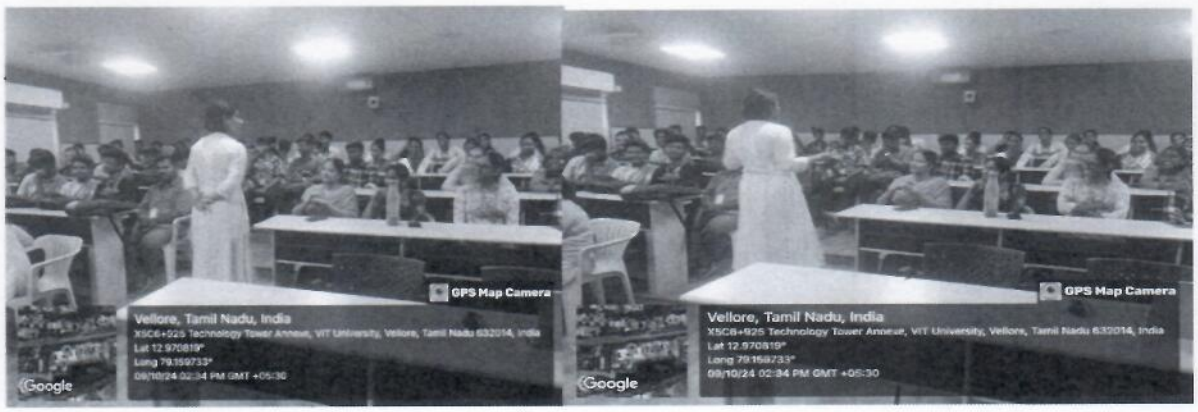

Dr. Tanu Kukreja, Assistant Professor, Department of Social Sciences, School of Social Sciences and Languages (SSL), Vellore Institute of Technology (VIT), Vellore, delivered the inaugural address, underscoring the significance of mental health and the imperative need for workshops to tackle this pressing concern.Thereafter, Dr. Varsha Malagi, Assistant Professor, Manipal Academy of Higher Education, Bangalore, expertly facilitated the session, commencing with engaging icebreaker exercises that effectively fostered a lively and enthusiastic atmosphere among participants.The speaker gracefully explained the differences between bouncing back and bouncing higher by explaining the various components of resilience.

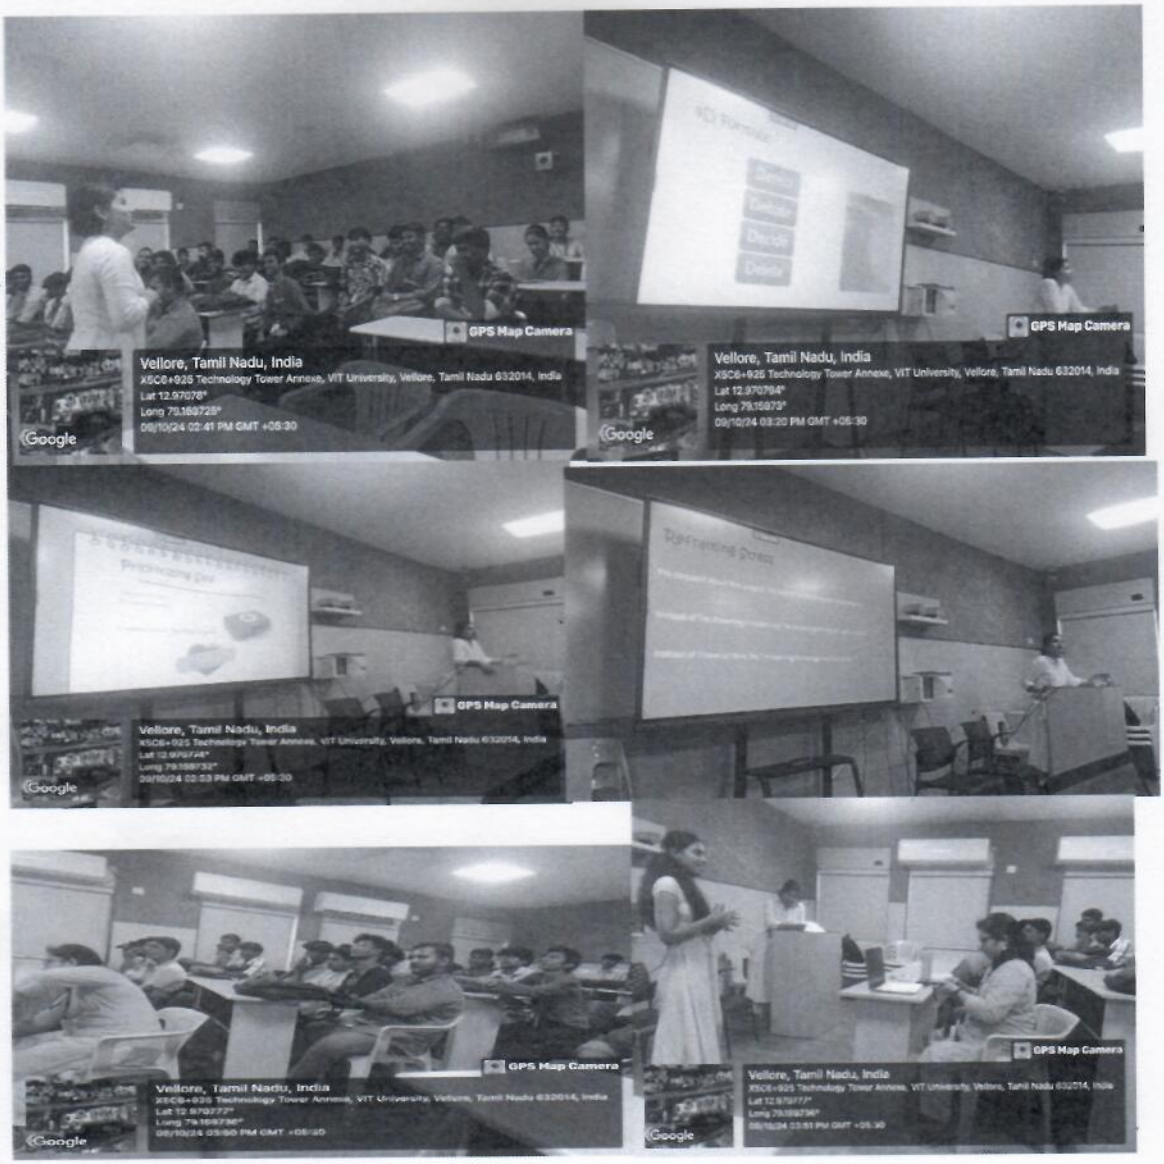

Dr. Varsha Malagi delivered their insightful thoughts on cognitive errors contributing to poor psychological well-being, highlighting the 4D formula comprising detect, debate, decide, delete.The speaker's discussion on cognitive distortions, specifically Personalization,

Labelling, and Dichotomous Thinking, prompted students to engage in introspection, critically evaluating their own thought patterns and promoting increased self-awareness. She emphasized how these distortions exacerbate negative events and provided coping strategies for stress management, focusing on thought management and thought processing. Through interactive exercises, students learned to recognize and reframe irrational thoughts, fostering enhanced self-awareness and emotional regulation. This engaging session empowered participants with practical tools to mitigate stressors and cultivate a healthier mindset.

The presentation on 'Growing Around Grief' provided valuable insights, equipping students with essential tools for emotional resilience. The resource person also shared practical mindfulness techniques, empowering students to cultivate presence and live in the moment. These tools enabled students to better navigate challenging emotions and maintain mental well-being, fostering a supportive environment for personal growth.

The program achieved its objectives, providing a platform for students to engage in meaningful discussions and gain valuable insights into mental health and wellness.The program concluded with a gracious Vote of Thanks, presented by Sri Raghavi V, Research Scholar, from Department of Social Sciences, School of Social Sciences and Languages (SSL), expressing appreciation to the resource persons, organizers, and participants.

WORKSHOP ON "YOGA AWARENESS FOR YOUTH EMPOWERMENT"

07/10/2024 @ CS. Hall

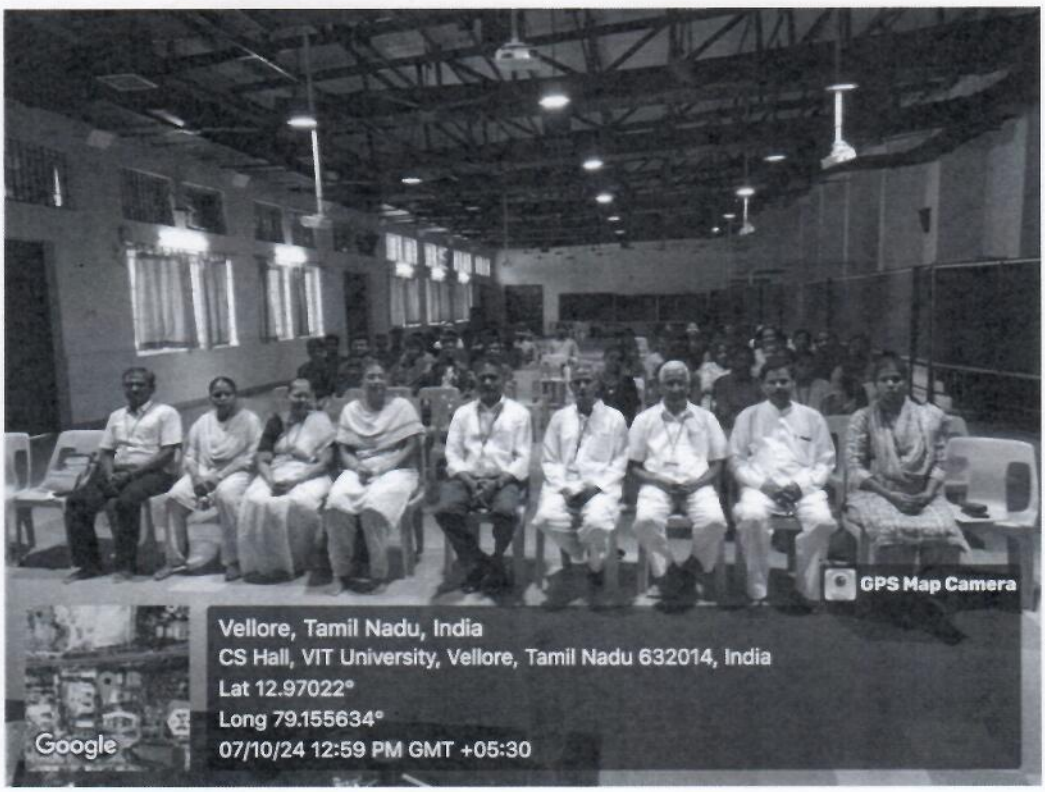

Department of Social Sciences, SSL organized a workshop on Yoga awareness for youth empowerment as a part of MANAM,2024 a programme initiated by the School of Social sciences and Languages to observe the World Mental Health Day. The workshop was organized on October 7, 2024, in CS Hall. Dr. Rajameenakshi J, Assistant Professor welcomed the gathering and explained the objectives of the workshop to the participants. Experts from Vellore Manavalakalai Mandram Trust - Ms.P. Parameswari – President, Mr.K.N. Arumugam – Secretary, Mrs. G. Shanthi – Assistant Professor (Yoga) oriented the students about the need and significance of Yoga and meditation in our day-to-day life. Mrs. G. Shanthi made a presentation on the details of Yoga and how it would make impact on our quality of life in the aspects of physical, mental and social wellbeing.

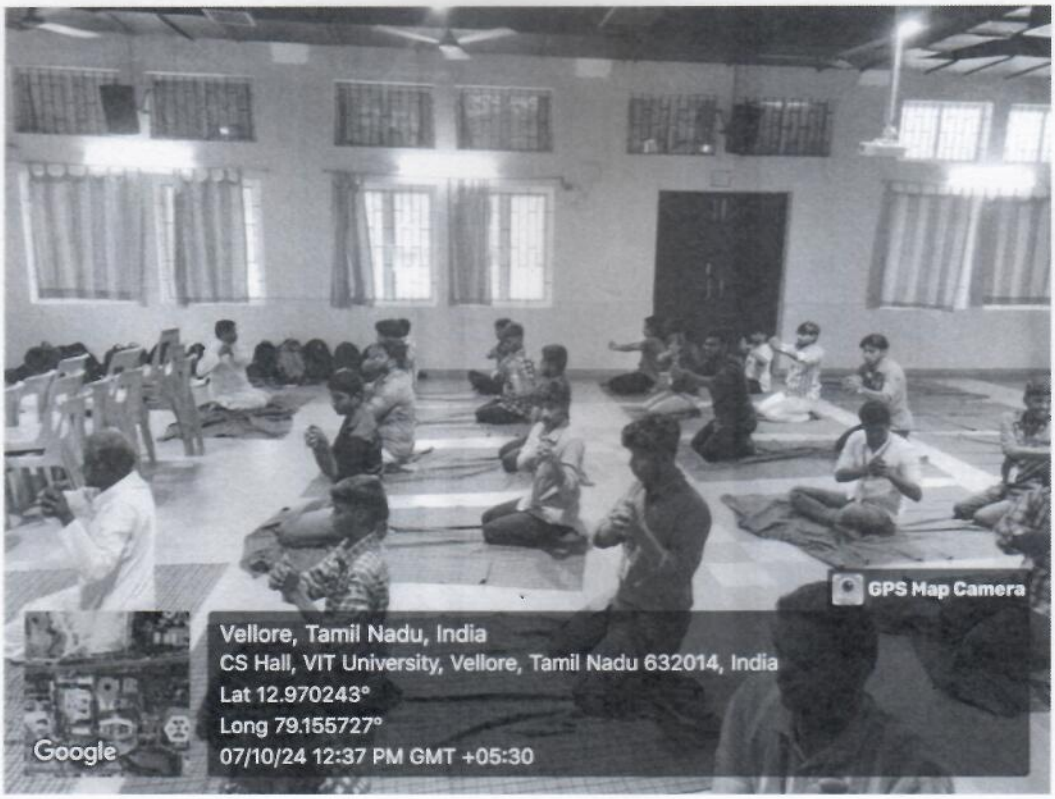

The practical session of Yoga was conducted for all the participants, and they actively participated.60 B. Com students and 7 Research scholars attended and benefitted from the Yoga session. Separate practical sessions were conducted for male and female participants. Doubts raised by the participants were clarified by the resource persons from Vellore Manavalakalai Manram Trust. Dr. Sriram Assistant Professor (Senior) proposed the vote of thanks and insisted the participants to do Yoga and meditation on daily basis to enhance their lifestyle. Dr. Sriram G, Dr. Bangalore Morarji and Dr. Rajameenakhi J of School of Social Sciences and Languages organized this programme.

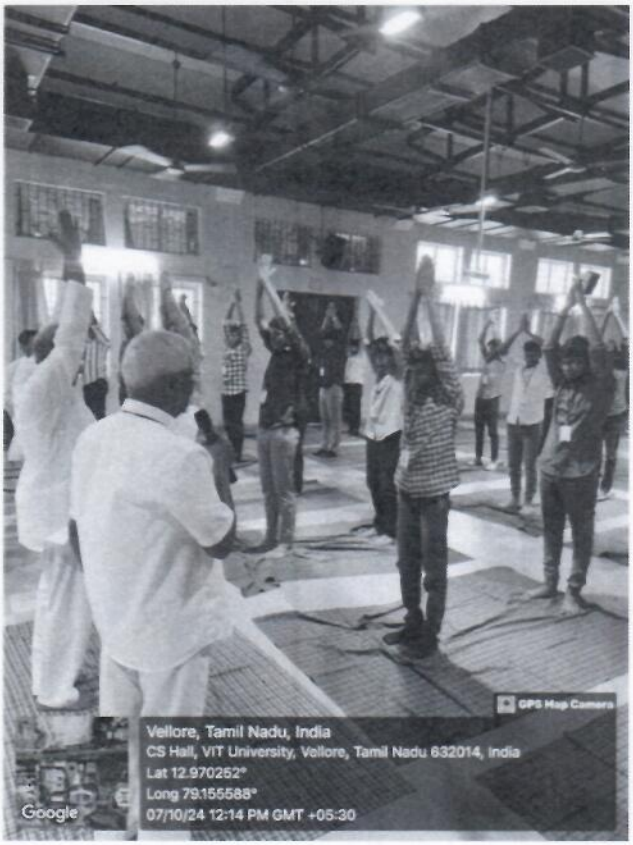

Dr. Rajameenakshi, J Assistant Professor explaining the objectives of the workshop.

A REPORT ON

Manam 2k24 – Workshop

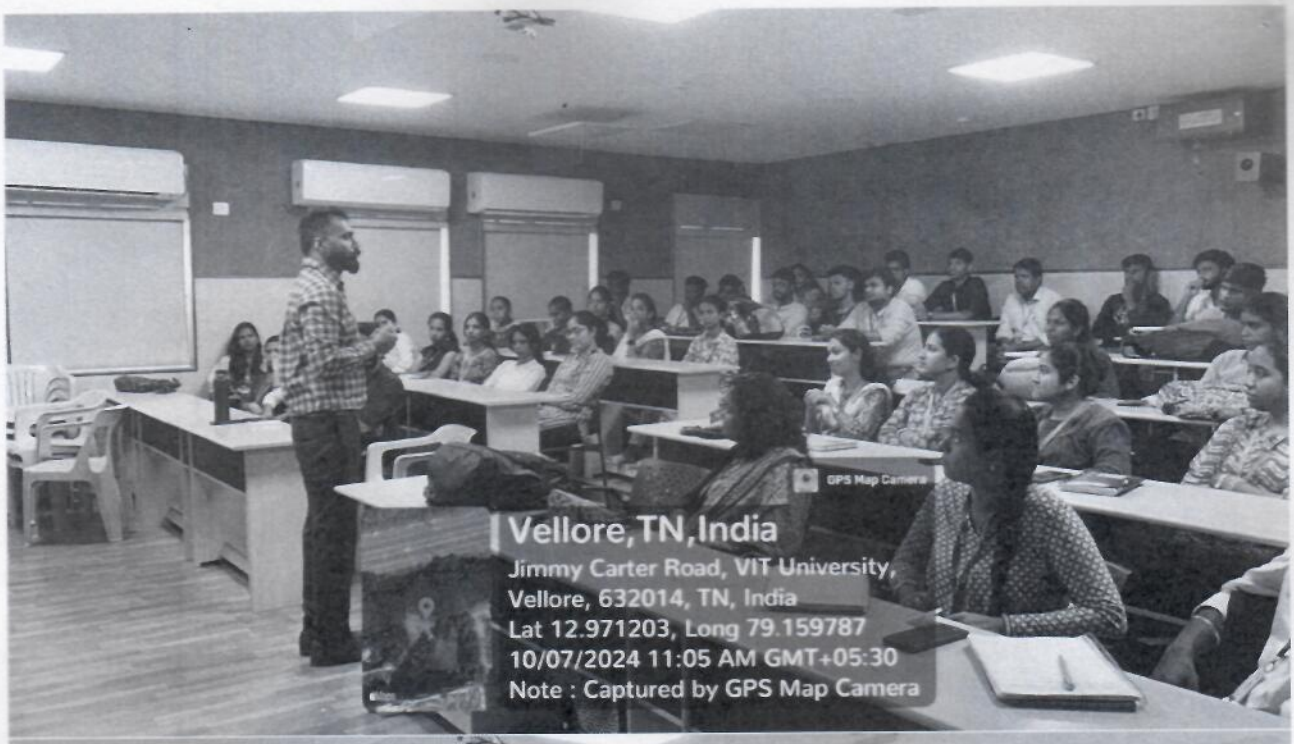

"Mindful Balance; Enhancing Wellbeing Through Work Life Integration" - Report

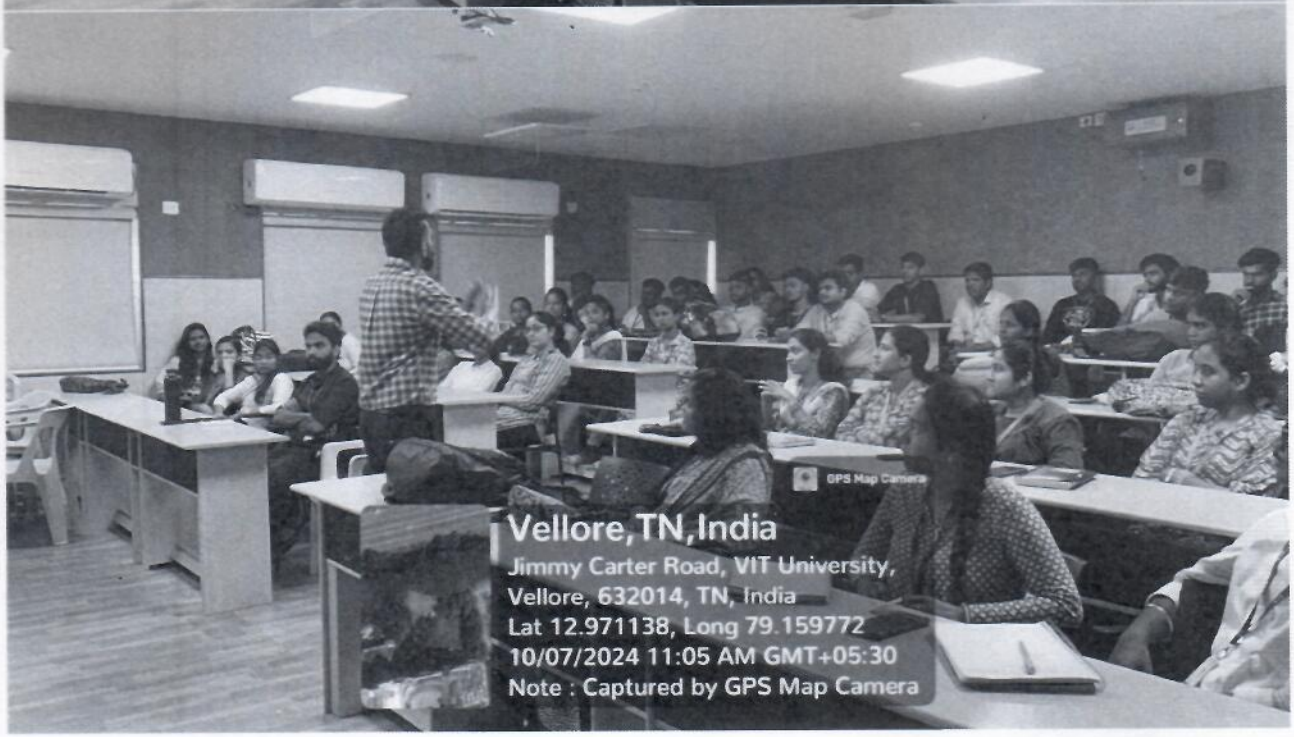

This workshop was organized on the occasion of World Mental Health Day Celebration – "MANAM- 2k24" for our School of Social Sciences students and faculties on 7th October 2024 (10.30 a.m. to 01.15 p.m.) to prioritize mental health at the workplace. On the behalf of School of Social Science and Languages, Dr. Soma Saha, Abdul Azeez and Dr. Preethi Solomon organized it.

The Guest keynote speaker was Dr Bino Thomas, Additional Professor of Psychiatric Social Work, and Consultant to child and adolescent psychiatry services at the National Institute of Mental Health and Neuro Sciences, (NIMHANS), Bangalore. He provides us the insight of psychosocial assessment to youths and families with mental health related issues. He also gave us training for topics of adolescent and youth mental health, parenting, marital relationship, pre-marital guidance and family life, specially related to missing red flags (not able to identify, not able to make decision when identified), choice of partners, expectations about marriage and marital partners. He had also spoken about the domain of work – life balance like match between expectations and abilities, professional skills, work culture, finding enough work, work integrity, healthy relationships with colleagues, communication skills for the work place and lastly ways to know about those facts.

Approximately 60 people benefitted through the program about important Mental Health Domains. The event concluded at 1:30 pm and was a successful attempt to prioritize mental health among the youth nowadays.

ITINERARY AND EVENTS:

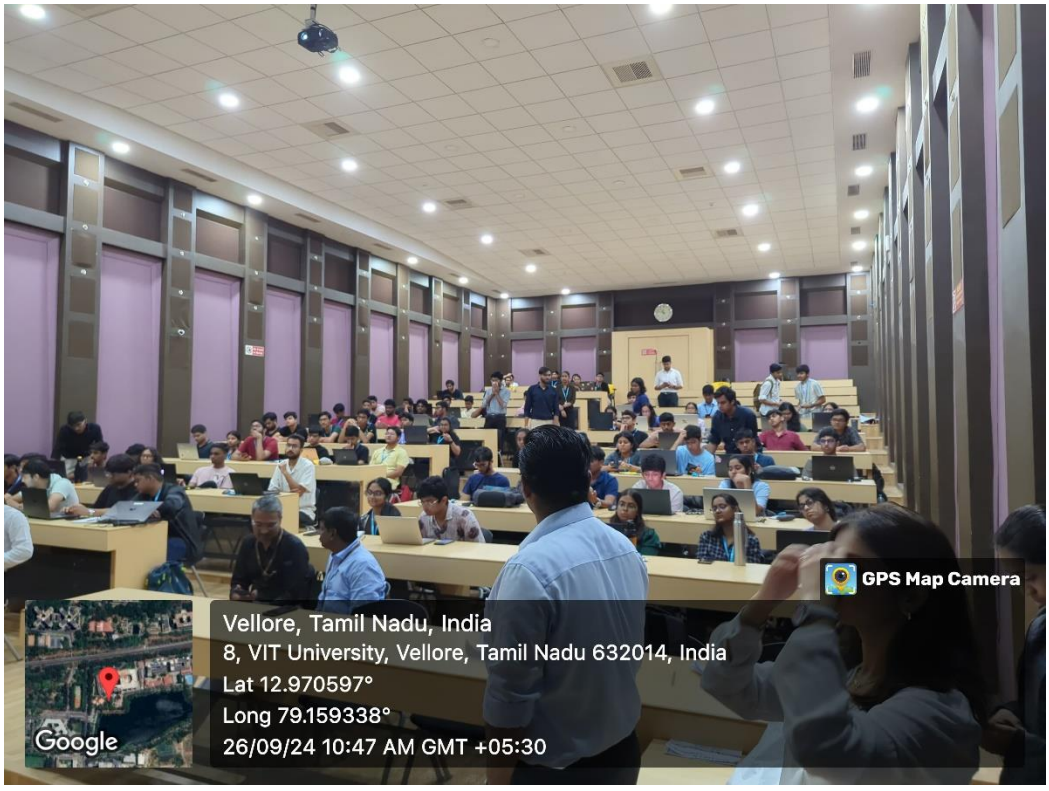

- **Day 1:**
    - Start Time: 10:00 AM
        - Before Arrival of guest, basic setup for event attendees is done like providing fusion 360 education for students and some basic introduction to additive manufacturing.
    - Introduction to the Event at 10:40
        - Given by the Chapter Representatives and Guest is invited on stage
    - Insight about additive manufacturing at 10:45
        - Guest Provides lecture on
            1. Current Manufacturing Techniques
            2. Metal 3d printing – drawbacks and advantages

- Design Philosophy and current examples of parts
- Ease of topology optimisation and niche features that can be integrated into parts easily
- Aerospace applications
- Metal printing support design and physics
- Defence Technology Applications
- Industry Technology Applications
- Guest Takes quiz online – 11:27 am
    1. What is the energy source used in Powder Bed Fusion – Laser and Electron Beam
    2. What role does scan speed in plat in LPBF – improves build time and productivity
    3. What property does layer thickness affect? – Mechanical properties surface finish and print quality
    4. How does the laser spot size affect the print resolution – Smaller Spot improves accuracy
    5. What is max temp of EOS M290 – 200C
    6. What is max working limit for EOS M290 – 370W
    7. What is max scan speed for EOS M290 – 7000mm/s
    8. Is a separate parameter needed for support? – Yes
    9. Can you have multiple layer thicknesses in 1 build? - Yes
- Fusion CAD development session by guest, demonstrative effects of points from lecture, live demo of applications – 11:41 – 13:00
- Lunch Break – 13:00 – 14:00
- Fusion Demo resumes – 14:15 – Design Tolerances and their importance and AM design strategies, reasons for 3d printed builds to fail – 15:00

- QnA session – 15:00
- Optimisation of CAD Designs: 15:15 – 16:00
- 16:00 – Tea Break
- 16:20 – resumption of session
- 17:10 – Conclusion of Lecture from Guest, Feedback form and vote of thanks

GEOTAGGED PICTURES

Date: 4 September 2024

MEMORANDUM OF UNDERSTANDING (MoU)

Between

Project Title: "Skill Enhancement in Additive Manufacturing and Challenges Involved in Occupational Health and Safety: Transport, Energy and Health Care Applications" & "ID: ESMN 21-23/2/93"
Sponsoring Agency: Royal Academy of Engineering, UK

And

Vellore Institute of Technology (VIT), Vellore

This MoU is made and entered at Vellore on 4 September 2024 by and between "**ESMN 21-23/2/93"** represented by "Prof. R.Vasudevan, PI of the project - ESMN 21-23/2/93, Professor, School of Mechanical Engineering, VIT, Vellore and Vellore Institute of Technology (VIT), Deemed to be University, Vellore represented by Convenor of graVITas'24, Dr. Sharmila N.

According to the terms and conditions which were orally agreed and now the same is hereby reproduced into writing and signed by the parties.

1.This agreement shall be effective from 4 September 2024 to **29 September 2024**

- ESMN 21-23/2/93 shall conduct the "One -day workshop on Additive Manufacturing-ManufactureX" under the norms stipulated for the graVITas'24.
- It is mutually agreed that **ESMN 21-23/2/93** shall extend their services in conducting Events / Workshops to VIT.
- VIT shall appoint a coordinator at its own cost who shall be the contact person between **ESMN 21-23/2/93** and VIT.

• **ESMN 21-23/2/93** shall pay a sponsorship fee in terms of Resource Persons fee, travel cost and accommodation cost for the resource persons through the project fund available in **ESMN 21-23/2/93 through the proper channel and finance office of VIT which may be approximately cost Rs. 1, 50, 000 or actuals.**

• Both parties shall promote graVITas'24 through their advertising media.

• VIT shall provide separate manpower at its own cost for the smooth conduct of Events/workshops.

• VIT shall provide the necessary infrastructure including provision of adequate space, furniture, computer with required internet connections, required power supply for conducting the events /workshops.

• Registration fee for events / workshops agreed upon by both parties will be collected and maintained by VIT.

• All events / workshops registration shall be carried out only by the registration team appointed by the convenor graVITas'24 of VIT.

• VIT will provide accommodation / travel / transport / food / refreshment / required halls / certificates / mementos / prize money / tags / kits / stationary / banner (only wherever applicable and mutually agreed upon) at the actual cost.

• Event will have to start on scheduled time, failing which the event will be cancelled and the financial overhead should only be borne by the company.

• Any information, whether written, oral or in any other form, furnished hereunder by one party to the other or its employees, representatives or agents shall be considered confidential by the receiving party, which shall take all necessary precautions to keep the confidential information.

• Either party may disclose the general terms of this Agreement (but not the commercials or the specific details therein) for publicity subject to the condition that the Party so wishing to disclose gets the content to be published, publicized or disclosed to be approved by the other Party.

• Either party can exercise the right to terminate the MoU upon 15 days of notice, if any party commits a breach of any of its obligations under the agreement.

a. Any disputes between the parties shall be resolved by mutual discussions. Unresolved disputes, if any, shall be resolved by Arbitration in accordance with the Arbitration and Conciliation Act, 1996. The venue of arbitration shall be Vellore. The decision of the arbitrator shall be binding on both parties.

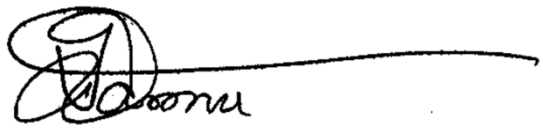

IN WITNESS WHEREOF, these duly authorized representatives of the parties hereby execute this agreement, the day and year first before written.

Signed and Stamp Convenor, graVITas'24.

Event Introduction

The two-day workshop titled 'The Integral Role of Genetic Counselling in Healthcare Management' was aimed to underscore the essential contributions of genetic counselling in modern healthcare, fostering a comprehensive understanding among healthcare professionals. It bridges the gap between complex genetic information and patient care, ensuring individuals receive tailored advice and support throughout their healthcare journey. **Dr. Kavitha Thirumurugan** introduced the event to all the participants and emphasized that genetic counselling is not just a support service but is a cornerstone of personalized medicine.

Day-1 started with the first session given by **Dr. G. Kumaramanickavel,** Research Director at Narayana Nethralaya, Bangalore. The lecture was titled "**Genetic Counselling in the Genomic Era**". Dr. Kumaramanickavel shed light on the transformative impact of genomics in modern healthcare.

Dr. Abul Kumar Azad then introduced the successive speakers briefing the audience about their role as genetic counsellors.

The second lecture, "**Empowering Precision Care: Role of Genetic Counsellors in Cancer Management**" was given by Ms. Niby Jacob, Genetic counselor & Founder of Bluegene Healthtech Pvt Ltd, Bangalore. She highlighted the critical role of genetic counselors in personalizing cancer treatment, and her crucial insights have empowered the participants to appreciate the nuances of precision care.

The third lecture of the day was by **Ms. Neeraja Reddy Malleda,** Vice President of genetic counselling at Mapmygenome**,** titled **"Supporting client journey: Integration of genetic counselling from preconception to pediatric care".** Ms. Malleda substantiated that genetic counseling is a vital thread weaving through the entire journey of healthcare, from preconception to paediatric care.

Dr. Everette J. introduced the next speaker**, Dr. Sandra Staffieri** who presented information on "**Genetic Counseling in Ophthalmology: From Bench to Bedside Supporting Clinical Care"** which integrated genetic counselling into ophthalmology and provided a deeper understanding of its impact on patient care.

Ms. Brinda Ramanathan gave an enlightening discussion on "**Genetic Counselling in Neurodevelopmental Disorders"** and emphasized on how genetic counselling can improve the lives of individuals with neurodevelopmental disorders**.**

The last lecture of the day was given by **Dr. Alpesh Patel** and his insightful talk on "**Genetic Counselling for Pre-implantation Genetic Testing (PGT)**" epitomized the fusion of cutting-edge genomic science and compassionate patient care, ensuring prospective parents are fully informed and supported in their journey toward conceiving a healthy child.

The day was concluded by a vote of thanks by **Dr. Alka Mehta.**

Day 2 started with an interactive session by **Ms. Niby Jacob** with the participants on "**Case Studies and Genetic Counselling in Cancer**" where she demonstrated a live display of how a counselor should deal with the patients. The session was about one of the members acting as a breast cancer patient and the other participants making aware the patient about the physical, social and psychological aspects of the disease. Ms. Niby also presented some case studies and educated the participants about the emotional and psychological turmoils of cancer patients.

This was followed by a comprehensive session by **Ms. Neeraja Reddy Malleda** on "**Genetic Counselling in Prenatal and Preimplantation Genetics**". She presented detailed explanations and practical insights on prenatal genetics which illuminated the complexities of these areas and how genetic counselling can better support prospective parents through their journeys.

The third lecture of the day was by **Dr. Teena Koshy** on "**De-mystifying Genetic and Genomic Testing**" and she gave a simplified explanation of complex genetic concepts into understandable and actionable information.

Dr. G. Kumaramanickavel along with **Ms. Brinda** and **Ms. Deepika** gave an enlightening overview of "**Genetic Counselling as a Profession**" through a one-on-one discussion with the participants and addressing their queries regarding the same. The three-membered team gave a practice session on how to address the patients. Furthermore, they gave a detailed discussion on case history, pedigree analysis, Mendelian genetics, cytogenetics, and copy number variants which provided a solid foundation and practical insights that can be applied in professional practice. The practical takeaways from this session are particularly noteworthy providing a hands-on knowledge in constructing detailed pedigrees and interpreting genetic data.

The day was concluded by a vote of thanks by **Dr. Everette J.**

Faculty Feedback:

VIT
Vellore Institute of Technology

Academic Peers Feedback
AY 2023-24

Dear Sir/Madam,
We seekyour valuable feedback on curriculum and syllabus to enhance the quality of the programme offered at Vellore Institute of Technology.

Name of the Programme:

5 – Strongly agree, 4 – Agree, 3 – Neutral, 2 – Disagree, 1 – Strongly disagree

Sl. No.	Parameters	5	4	3	2	1
1	The programme curriculum and syllabus have relevance to local, national, regional and global developmental needs	X				
2	The programme curriculum focuses on employability/ entrepreneurship/ skill development and addresses contemporary requirements	X				
3	Program Educational Objectives, Programme outcomes , Course outcomes are appropriately defined	X				
4	Syllabus addresses contemporary developments / technological advancements	X				
5	Opportunities for students to participate in field projects / research projects / internships, semester abroad program		X			
6	Programme curriculum facilitates inter/multi-disciplinary learning and is useful for career advancement & life-long learning of students	X				
7	Provide your specific inputs on addition/deletion in the course/syllabus and overall quality enhancement	well-rounded syllabus. Curious to understand access to genetic testing in India – how will counselling be provided in instances where genetic testing not available?				

Signature: Sandra E/Steffen
Name: SANDRA STEFFEN
Designation: ① Research Fellow; ② Rb Care-Co-ordinator/Research lead/ Senior Clinical Orthoptist
Organisation: ① CENTRE FOR EYE RESEARCH AUSTRALIA
② Royal Children's Hospital, VICTORIA AUSTRALIA

Thank you again for the opportunity to present to your student cohort.

Participants' Feedback:

Name	VIT registration no.	Institute name	Which day did you attend?	S1	S2	S3	S4	S5	S6	S7	W1	W2	W3	W4	How will this workshop help you in the future?	Rate the overall experience	Remarks (if any):
K. Deepti Venkata Sriya	23MSG0015	Vellore Institute of Technology	Day 2: Workshop	5	5	5	5	5	5	5	5	5	5	5	As I'm going to pursue genetic counseling as my career it'll help me in building my path towards it	Excellent	
Andrea Anthony Cruz	24BBT0304	VIT	Day1: Lecture series	5	5	3	4	3	3	4	5	5	5	5	Gained knowledge and advice from respective guest lecturers	Very Good	
Insiya Talwari	22BBT0040	Vellore Institute of Technology	Day 2: Workshop	5	5	5	5	5	5	5	5	5	5	5	Understood the working of genetic counseling and real life applications	Excellent	
Arsh Praveen	23BBT0036	VIT Vellore	Both	5	4	5	4	4	5	4	4	4	5	5	This workshop has given me a idea on the options I have after studying the course	Very Good	
Aanavi Patel	23BBT0017	Vellore Institute of Technology, Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	This workshop has given me important exposure, diving in to real life situations that have helped me become more aware of genetic counseling as a career.	Excellent	
S. Santoshi Iyer	23MSG0041	Vellore Institute of Technology	Both	5	5	5	5	5	5	5	5	5	5	5	This workshop helped me understand the role of a genetic counselor, and explore the dilemmas and other situations that they face during each session. I also learnt a lot about the current work that is being done to diagnose, and treat genetic conditions, and various advancements and technologies that are being used for the same.	Excellent	I am glad I attended this symposium cum workshop. I had a great time, and I hope the future batches get to attend these kind of events more often.
Rudransh Dewan	21BCB0010	VIT	Both	5	5	5	5	5	5	5	5	5	5	5	It deepened my understanding of genetics, hereditary conditions, and the role of genetic counseling in healthcare.	Excellent	
Chinmayi Mahender	23BBT0058	Vellore Institute Of Technology	Both	4	4	4	5	5	5	4	4	4	5	4	In deciding my career and procure knowledge	Very Good	
Diya Sengupta	23BBT0093	VIT Vellore	Both	3	5	3	4	5	5	5	5	5	3	4	Make more informed decisions.	Good	
Maria Catherine Aby	24MSG0039	Vellore Institute of Technology	Both	4	5	4	3	3	4	4	5	4	4	5	Really helped me understand the role of a GC and future opportunities as a GC.	Excellent	Was really good. Would be happy to have this opportunity again.
Charvi	22MSI0047	Vellore Institute of Technology	Both	5	5	5	5	5	5	5	5	5	5	5	This workshop for two consecutive days has encouraged me to explore further in the field of Biotechnology.	Excellent	
Asmit Bhattacharya	23BBT0034	Vellore Institute of Technology, Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	Attending this genetic counseling symposium and workshop will enhance my expertise by providing the latest research and best practices, improve my practical skills through hands-on training, and let me know about the experts working in this field. This combination of updated knowledge and refined skills will help me offer better support to clients and pursue a career in genetics.	Excellent	Both the workshop and the symposium were extremely well-organised. The speakers/guests were amazing and we all learned so much from them.
Nivedha R		BU	Both	4	5	5	4	5	5	4	5	5	4	5	Overall the whole session was insightful.It helped me to understand the basics of Genetic Counseling & specific areas with challenges that GC's encounter in helping patients diagnosis. This lecture and workshop is a page added to my book of Gc as a career.	Very Good	Request you to make facilities for those attending online,due to tech problems we missed out 2 sessions.
Aadya Goel	21BCB0024	VIT	Both	4	4	5	5	4	5	5	4	5	4	5	Helps me understand the fundamentals of genetic counselling and its importance	Excellent	
Ayessha Yadav	23bbt0179	Vit university	Both	5	5	5	5	5	5	5	5	5	5	5	In many ways	Excellent	No
Deepika	23MSG0035	VIT	Both	5	5	5	5	5	5	5	5	5	5	5	I had enormous amount of knowledge in genetic counselling and this symposium decided my future for genetic counselling	Excellent	
Shraddha Manojbhai Purohit		Department of zoology, Gujarat University	Both	4	5	4	4	4	4	4	4	4	4	4	I learnt so many things during this symposium	Satisfactory	
Neha Noor R	21BCB0052	Vellore Institute of Technology	Both	5	5	5	5	5	5	5	5	5	5	5	It will be helpful for further project if so.	Not Satisfactory	
Rachel Ragis Cherobim	23MSG0051	VIT Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	As a GC specialization student, the workshop provided me with necessary skills and mock practice that shall help in the future.	Excellent	

Rishika Sahoo	21BCB0184	Vellore Institute of technology	Both	5	5	5	5	5	5	5	5	5	5	5	It helped me to learn a lot of things.	Excellent	
Yeshi Yangchen	23MSG0020	Vellore Institute of Technology, Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	Inculcates skills required to work in the field of genetic counselling.	Excellent	
Dharshini Sridhar	23BBT0082	VIT Vellore	Both	4	5	5	4	5	5	5	5	5	5	5	I have gained knowledge on genetics and genetic counselling and I'm sure this well help me in better understanding of the subject and might be a factor for my career decision as well.	Very Good	
Manish Kumar V	23BBT0088	Vellore Institute of Technology, Vellore	Both	5	4	4	4	4	4	4	5	4	5	5	Better Family planning and reducing health disparities	Good	
Neil Rajeev Gandhi	24MSG0016	Vellore Institute of Technology, Vellore	Both	4	5	4	4	4	4	4	5	5	4	4	Professionalism of Genetic Councellor	Very Good	
Antara Joshi	23MSG0040	Vellore Institute of Technology	Both	5	4	5	3	4	5	5	5	4	5	5	This workshop will definitely help me while entering the field of genetic counseling and starting out as a genetic counselor. This workshop helped me understand the different aspects of genetic counseling and the different situations that genetic counselors might have to face in their journey, which broadened my ideas and understanding of this profession.	Excellent	None
Shrutidhara Gogoi	23MSG0045	Vellore Institute of Technology	Both	4	5	4	5	5	5	5	5	4	5	5	A genetic counseling workshop can enhance our understanding of genetic conditions, enabling us to provide informed support to individuals and families. It fosters skills in communication, risk assessment, and decision-making regarding genetic testing and outcomes. This knowledge will empower us to advocate for patients more effectively and contribute to personalized healthcare approaches in the future.	Excellent	
Adith Narayan	23BCB0055	VIT Vellore	Both	4	4	5	5	4	4	4	5	5	5	4	It helped me understand the power of genomics	Very Good	
Kirtana Mehta	23MSG0021	Vellore institute of technology	Both	4	5	5	5	5	5	5	5	4	5	5	Because it taught me and gave the perspective of a real life scenario in genetic counselling and how important it is to help the individual in making appropriate decisions	Excellent	
Madhav Mendiratta	23BCB0092	Vellore Institute Of Technology, Vellore	Day1: Lecture series	4	5	5	5	4	5	5	5	5	5	5	It helped me gain knowledge on human genetics , thereby enhancing my future practice in healthcare	Excellent	
Rogini Varshni	23BBT0081	Vellore institute of technology - Vellore	Both	4	5	3	4	5	3	4	5	3	5	5	It has certainly set genetic counseling as a possible career option for me.	Very Good	Lunch was not provided on Day 2 even though it was mentioned in the invite.
Jhoshitha Sre N L	23BBT0132	VIT, Vellore.	Both	4	5	4	4	4	5	4	4	5	5	4	This workshop helped me realise that there might be a career for me in genetic counselling.	Excellent	
Megha Rushikesh Pandya		Department of zoology biomedical technology human genetics and wildlife conservation school of science gujarat university	Both	1	1	1	1	1	1	1	1	1	1	1	Knowing about certain things with the experts helps us clearly understand the concepts and background	Excellent	It was very knowledgeable and was very clear for our paths as I'm pursuing masters in genetics
Vinaya C R	21MSI0094	VIT University Vellore	Day1: Lecture series	4	5	4	4	4	4	4	5	4	4	4	Gained insights about Genetic counseling as a career option through this workshop	Very Good	
Likitha.P	21MSI0060	Vellore institute of technology	Day1: Lecture series	4	5	4	4	4	4	4	5	4	4	4	New career opportunity	Very Good	
Jenmala Sai Teja Mudhiraj	24MSG0029	Vellore institute of technology (vit), vellore	Both	4	4	4	3	4	4	5	4	3	5	5	This workshop helped me build a professional network and gave me valuable insights from real-life case studies about the role of Genetic Counseling. It also taught me effective ways to handle different situations.	Very Good	
Munagala Harini	22BCB0042	Vellore Institute of Technology,Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	I came to know about Genetic diseases ,pedigree analysis and role of Genetic counsellors.	Excellent	
Aman Sharma	21BCB0075	VIT vellore	Day1: Lecture series	5	5	5	5	5	5	5	5	5	5	5	insightful	Excellent	

Shreya	22BBT0128	VIT	Both	4	5	5	4	5	5	5	5	5	4	5	Helped me decide on whether genetic counselling can be taken as a career and helped me understand the complexities of the career	Satisfactory	
Dharshikha S R	21BCB0135	Vellore Institute of technology (VIT)	Both	4	4	4	4	4	4	4	4	4	4	4	It lets me get to know more about genetic counseling	Good	NA
Preetisha Baruah	24MSG0065	Vellore Institute of Technology, Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	It gave me a clear understanding of how my journey in Genetic counselling will look like, what are the future options that I can explore and how can I upgrade myself as a GC.	Excellent	
Rhydhy Gurmuras	21BBT0268	VIT, Vellore	Day 2: Workshop	5	5	5	5	5	5	5	5	5	5	5	This workshop has provided me with immense knowledge in Genetic counselling and will definitely help in refining my skillset.	Excellent	
Shifrah Satish	24MSG0044	Vellore Institute of Technology	Both	5	5	4	3	3	3	5	5	4	5	5	This workshop helped me understand the foundations of Genetic counseling how it is practically applied in real life situations.	Excellent	
Anisha Dabke	24MSB0054	Vellore Institute of Technology	Both	5	5	4	4	4	5	5	5	5	5	5	It will help me make an informed decision about my career	Excellent	
Ayush Patel	21BCB0200	Vellore institute of technology	Day1: Lecture series	5	5	5	5	5	5	4	5	4	4	4	Na	Very Good	
Shreyash Tiwari	21BCB0159	VIT Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	It was so knowledgeable and skills set for biology background students .	Excellent	It was quite interesting.
Sruthi K	23BBT0118	VIT, Vellore	Both	5	5	5	5	5	5	5	5	3	5	5	It helped me to get an idea of how genetic counselling works and helped me to know that it is a potential area in biotechnology	Excellent	Nil
Maithreyi Chandan Nair	23BBT0163	Vellore Institute of Technology, Vellore	Both	4	5	4	4	4	4	4	5	4	4	4	I now have better insights to what a genetic counselor does. I also came to know what the future prospects of choosing this as a career may lead me to. Thank you!	Very Good	
Bhaswan Indu Jana	23PHD0147	Vellore Institute of Technology, Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	Understanding the psychological conditions of people diagnosed with rare genetic conditions and also the psychology of his or her family and figuring out how to console them to make them lead a quality life even if treatment of the condition is not compatible. This symposium cum workshop also gave an insight to understand the psychological and mental status of couples eager to proceed with having their own children and how to console them if that decision might become their greatest nightmare under genetic and hereditary grounds.	Excellent	This type of symposium cum workshops must take the form of national and international level conference proceedings in future.
Urvi Nayee		Gujarat University	Both	5	5	5	5	5	5	5	5	5	5	5	In practice when I will become a genetic counsellor	Excellent	
S. Amrita Malini	24MSG0011	VIT University, Vellore	Both	5	5	4	5	4	4	5	5	4	4	5	It has motivated me a lot, I got guidence to how GC works, what a Counselor should do and not do.. it is surely going to help me to become a Genetic counselor. It was a very informative and interactive workshop. We gained a lot of knowledge, and leaned new things. We also got to listen to the speakers experiences. Attending this workshop was a very a good experience and it is going to be useful in every aspect of my life.	Very Good	
G Hema	21BCB0133	Vellore Institute of technology	Day 2: Workshop	4	4	4	4	4	4	4	5	5	5	5	As we know genetic counseling is a very interesting topic . I'm keen to know more things about it in future . This workshop helped me to get knowing many things and doubts got solved .	Very Good	Nothing
Shreevarsha Senthilprabhu	23BBT0136	Vellore Institute of Technology	Both	4	5	4	5	5	4	4	5	4	4	5	This workshop increased my awareness towards the field of genetic counselling and it has broadened my career options for the future	Excellent	Very informative and a very great learning experience
SABARI KRISHNAN B B		Sri Ramachandra Institute of Higher Education and Research	Day1: Lecture series	5	5	5	5	5	5	5	5	5	5	5	The program gave insights into the technicalities in genomic counseling.	Excellent	I joined the event online and faced significant technical glitches. I would suggest that maybe next time a more user-friendly platform such as GMeet or Zoom could be used rather that Teams.
Akshat dubey	22BCE3364	Vit vellore	Both	5	5	5	5	5	5	5	5	5	5	5	I am from cse background but i always had a intrest in bio field so it helped me to gain more knowledge about biotech field	Excellent	
Hayfa F	21BCB0193	Vellore Institute of Technology	Both	4	4	4	5	5	4	3	5	5	5	4	Gave exposure to a new field in biology and brought in many questions in mind.	Very Good	nil
NYLA ANN MATHEW	23BBT0013	Vellore Institute of Technology	Both	5	5	4	5	4	3	4	5	5	5	5	It has provided a great insight into the field of genetic counselling and its scope.	Very Good	
Nida Kanwal	E000454R040490	Vellore institute of technology	Both	5	5	5	5	5	5	5	5	5	5	5	This workshop would be beneficial for me in my profession of genetic counselling.	Excellent	The symposium was excellent and i gained a lot of knowlegde from it.

Kesar Chandel	23BBT0170	Vellore Institute Of Technology, Vellore	Both	4	5	4	4	4	4	4	5	4	4	4	It helped me become aware about the aspects of genetic counseling and its importance	Very Good	
Kartikeya Singh	23BBT0146	Vellore institute of technology	Day1: Lecture series	3	3	4	5	5	4	1	4	4	4	4	I learned about scope of genetic counseling, it's benefits,etc. Various techniques like case analysis with pedigree charts etc. They will help in furthering my knowledge in genetics.	Good	
Amritha. A. S	23BBT0020	VIT, Vellore	Both	5	4	4	4	4	5	5	5	5	5	5	These sessions offered a clear insight into the world of genetic counselling and this has instilled an interesting and unique outlook towards the same field in me.	Very Good	
Saad Mohammed Mazhar Khan	21BCB0154	VIT vellore	Day1: Lecture series	5	5	5	5	5	5	5	4	4	4	4	This workshop on genetic counseling will enhance my career opportunities in healthcare, improve patient communication skills, strengthen my ability to analyze genetic data, and integrate bioinformatics tools for personalized medicine applications.	Excellent	
Arya Praveen	23BBT0046	Vellore Institute of Technology	Both	5	5	5	5	5	5	5	5	5	4	4	The workshop has opened my eyes to genetic counseling as a field, and I will definitely be considering a career in it in the future.	Excellent	
Vaishali C	22MSI0164	VIT, VELLORE	Day 2: Workshop	5	5	5	5	5	5	5	5	4	5	5	It provides a good foundation and basic knowledge about the field of genetic counseling and provides information on how different situations,that a genetic counselor faces, should be handled professionally	Very Good	
Kavya Rebecca Mathew	21BBT0203	Vellore Institute of Technology	Both	5	5	5	5	5	5	5	5	5	5	5	Before this workshop I had not considered genetic counselling as a potential career path. I'm glad I attended! It was very interesting and brought to my attention how important it is to identify inheritory disorders early for better quality of life. Additionally, participation looks good on my resume.	Excellent	
Anushka Mukherjee	23BBT0079	Vellore Institute of Technology , Vellore	Both	5	5	5	5	5	5	5	5	5	5	5	this workshop will help a lot in the future.	Excellent	
SudharshanV	23BBT0068	VIT	Both	4	4	5	4	4	4	4	4	4	5	4	Quite informative	Satisfactory	Nil
Anushka Zite	23BBT0045	VIT Vellore	Day1: Lecture series	5	5	5	5	5	5	5	5	5	5	5	I was fortunate enough to take part in the workshop on genetic counselling, and I must say that it was very informative. This made me comprehend what tasks genetic counsellors perform in order to prepare patients regarding genetic disorders, risk evaluation and management decisions related to health. The workshop was more of a multidisciplinary approach as it dealt with genetic testing, ethics and communication techniques with patients. This foray opened my eyes towards the concept of tailored medicine and also the role of genetics in determining health outcomes. It made me realize that there is a huge scope at the crossroads of science and healthcare which seems to be present in the field of genetic counselling.	Excellent	
Aman Krishan	21BCB0103	Vellore institute of technology	Day1: Lecture series	5	5	5	3	4	5	5	5	5	5	5	Yess	Excellent	
Sri Sankar Kumar Kappagantula	22BBT0222	Vellore Institute of Technology, Vellore	Both	5	4	4	5	5	5	4	4	4	4	4	It helped demystify genetic counselling as a career option for me as a biotechnology student, the workshop & lectures helped understand the importance of genetic counselling in healthcare and society as a whole and the integral role genetic counselors play as an intermediate between various healthcare providers and patients	Excellent

Deworming Tablet Distribution for VIT campus Students – 2024

Date : 27.08.2024

VIT – CSRD&RS and the Public Health, Department, Vellore jointly organized the distribution of deworming tablets to students on the Vellore campus of 2000 tablets. The prime aim of the distribution of tablets is to prevent the occurrence of hookworms and other related health effects to reduce the occurrence and reoccurrence among the students. TheDeapartment of Student Development Welfare (DSW) has allocated a team of members to distribute the tablets to all students via health clubs in all hostels

TRAINING PROGRAM DETAILS

Event type	**Faculty Development Program**		
Title of the event	**Building a Healthier Tomorrow: Medical & Biotech Advancements**		
Date (From – To)	**26-08-2024 to 30-08-2024**		
Time	**10.00 am to 5.30 pm**		
Venue	**TT 312**		
No. of Participants			
Coordinator(s)	**Emp. ID.**	**Faculty Name**	**Department**
	10533	**Dr. Arnold Emerson I**	**Bio-Sciences**
	10601	**Dr. Devi Rajeswari V**	**Bio-Medical Sciences**
1. Resource Person Name	S Gouthaman		
Designation	HoD Senior Consultant		
Organization Details	Apollo Hospitals		
Place	Chennai		
E-mail	gouthamonco1@gmail.com		
Mobile no.	9841150174		
2. Resource Person Name	Rayala Suresh Kumar		
Designation	Professor		
Organization Details	IIT Madras		
Place	Chennai		
E-mail	rayala@iitm.ac.in		

Mobile no.	9840887870
3. Resource Person Name	Dr Sandhya Sundaram
Designation	Professor
Organization Details	SRMC and RI
Place	Chennai
E-mail	sandhyas@sriramachandra.edu.in
Mobile no.	9444187687
4. Resource Person Name	Dr Bhawnadev
Designation	Professor
Organization Details	SRMC and RI
Place	Chennai
E-mail	bhawnadev@sriramachandra.edu.in
Mobile no.	9840018243
5. Resource Person Name	Vijayalakshmi N
Designation	Professor and Head
Organization Details	Cancer Institute W I A
Place	Chennai
E-mail	r.vijayalakshmi@cancerinstitutewia.org
Mobile no.	9940015796
6. Resource Person Name	Anne Vatsala Augustine
Designation	Project Development officer Psychologist
Organization Details	Schieffelin Institute of Health Research and Leprosy Centre Karigiri
Place	Vellore
E-mail	valsaaugustine@yahoo.com
Mobile no.	919345083541

Faculty Development Program

Title : Building a Healthier Tomorrow: Medical & Biotech Advancements

Date : 2024-08-26 - 2024-08-30
Time : 10:00 - 17:30
Venue : TT 312

Discussion Points

- Day1 FN - Advances in Pathology - Dr Sandhya Sundaram, SMRC & RI
- Day1 AN - Recent Advances in Practice of Surgical Oncology - Dr S Gouthaman, Apollo Specialties
- Day2 FN - Targeting Kinases in Cancer - Dr Suresh K Rayala, IIT Madras
- Day2 AN - Recent Advances in Breast Imaging - Dr Bhawna Dev, SRMC & RI
- Day3 FN - Preventive Oncology - Dr R Vijayalakshmi, Cancer Institute
- Day3 AN - G-Protein Coupled Receptor (GPCR) mediated signal transduction pathways - Dr A Gopalakrishna, IIT Madras
- Day4 FN - Current Topics in Bioinformatics - Dr Michael Gromiha, IIT Madras
- Day4 AN - Preparing for emerging technologies addressing ethical challenges in mental health issues - Dr Valsa Augutine
- Day5 FN - Recent Trends in Cancer Genomics, Precision Medicine, and Ancient Genomics - Dr G Kumaresan, Madurai Kamaraj University
- Day5 AN - AI(Autoimmunity) & Clinical Laboratory - Dr Srinivasan, Kavery Hospitals
- Objectives Achieved: Did the event accomplish its primary and secondary goals
- Target Audience Engagement: How well did the event connect with the intended audience
- Key Performance Indicators (KPIs): What metrics were used to measure success (e.g., attendance, social media reach, lead generation)
- Feedback and Reviews: What did participants, speakers, and stakeholders think of the event
- Return on Investment (ROI): Did the event generate a positive return on investment

	**Resource Person 1 - Details** **Name :** Dr S Gouthaman **Designation :** HoD Senior Consultant, Surgical Oncology **University/ Company :** Apollo Hospitals, Chennai **Address :** India, 600056.
	**Resource Person 2 - Details** **Name :** G Kumaresan **Designation :** Professor Head, Dept of genetic **University/ Company :** Madurai Kamaraj University, Madurai **Address :** India, 625021.
	**Resource Person 3 - Details** **Name :** Dr M Michael Gromiha FNA **Designation :** Professor, Department of Biotechnology **University/ Company :** IIT Madras, Chennai **Address :** India, 600036.
	**Resource Person 4 - Details** **Name :** A Gopalakrishna **Designation :** Professor, Biotechnology **University/ Company :** IIT Madras, Chennai **Address :** India, 600032.
	**Resource Person 5 - Details** **Name :** Dr BhawnaDev **Designation :** Professor, Radiology Imaging Sciences **University/ Company :** SRMC RI, Chennai **Address :** India, 600116.
	**Resource Person 6 - Details** **Name :** Dr N Vijayalakshmi **Designation :** Professor and Head, Cancer Biology and Molecular Diagnostics **University/ Company :** Cancer Institute W I A, Chennai **Address :** India, 600032.
	**Resource Person 7 - Details** **Name :** Prof Sandhya Sundaram **Designation :** Professor, Pathology **University/ Company :** SRMC and RI, Chennai **Address :** India, 600116.
	**Resource Person 8 - Details** **Name :** Prof Suresh K Rayala **Designation :** Professor, Biotechnology **University/ Company :** IIT Madras, Chennai **Address :** India, 600032.

	**Resource Person 9 - Details** **Name :** Dr CN SRINIVAS **Designation :** Group Director , Laboratory Medicine **University/ Company :** Kauvery Hospitals, Chennai **Address :** India, 600018.
	**Resource Person 10 - Details** **Name :** ANNE VATSALA AUGUSTINE **Designation :** Project Development officer Psychologist, Clinical Psychology **University/ Company :** Schieffelin Institute of Health Research and Leprosy Centre Karigiri , Vellore **Address :** India, 632106.

Resource Person's Profile :

1. Profile of Dr S Gouthaman

Prof Gouthaman completed his UG and PG Education in SRMC, RI, and MCh in Surgical Oncology from the Cancer Institute, Chennai. He also completed a Fellowship in Robotic Surgery in Europe. He is a Teacher, Researcher, and top-notch Clinician in the field of Surgical Oncology.

2. Profile of G Kumaresan

Dr. Kumaresans research involves integrative genomic investigation of the exhaustive genomic resources and develops workable hypothesis, which he further tests in human cellular models. Dr. Kumaresan has completed about 15 Cancer Genomics projects and extensively explored cancer genomics data to understand the molecular cell biology of cancer cells and to gain insights on targeted therapeutics for the eventual translation. His group is also exploring transcriptional impact of drugs to understa

3. Profile of Dr M Michael Gromiha FNA

M Michael Gromiha is working as a Professor at the Department of Biotechnology, Indian Institute of Technology Madras, India. His research interests include protein structure and function, mutational effects and development of bioinformatics databases and tools.

4. Profile of A Gopalakrishna

G-Protein Coupled Receptor (GPCR) mediated signal transduction pathways

5. Profile of Dr BhawnaDev

Women's Imaging, Ultrasound and CT Guided Interventions

6. Profile of Dr N Vijayalakshmi

Molecular Diagnostics

7. Profile of Prof Sandhya Sundaram

Dr Sandhya is a Professor HOCS at Sri Ramachandra Medical College Sri Ramachandra medical Cetre. He holds a MD in pathology PhD in Molecular Oncology. Besides her Pathology profession, she is an active researcher in the area of Hormone related cancers is guiding PhD Scholars.

8. Profile of Prof Suresh K Rayala

Dr Suresh is a Professor, Biotechnology, at IIT M. Presently he is also the organizing Chairman, GATE and JAM examinations. He is an active researcher in the field of Molecular Oncology and has published 100 high impact papers on kinase biology, drug resistance. He has received more than 20 grants from funding agencies, both national and international. He is a recipient of DBT Dr Ramachandran research award ICMR Dr Premnath Wahi award, Tamilnadu Scientist award, among others.

9. Profile of Dr CN SRINIVAS

Professor. Dr. Chakravarthy Narasimhachar SRINIVAS,
MD (Pathology), DNB (Pathology), MNAMS, FCAP.,
Graduate -Certificate in Clinical lab Management and Leadership (AACC)

10. Profile of ANNE VATSALA AUGUSTINE

Career started at the Christian Medical College as a Psychologist at the Mental Health Center, and later moved on to Schieffelin Institute of Health-Research Leprosy Center in Karigiri, a hospital with a reputation for compassion and a dedicated focus on the disease Leprosy. As a psychologist and counselor, as well as a member of the center teaching faculty, she sees firsthand how the fear and stigma surrounding leprosy can ruin lives and how medical, physical and Psychosocial support

The Faculty Development Program (FDP) aims to explore the cutting-edge advancements in the medical and biotechnology fields that are reshaping healthcare delivery and outcomes. Through a comprehensive curriculum, participants will delve into the latest research, innovations, and technological breakthroughs. The FDP will cover a wide range of topics, including precision medicine, genomics, drug discovery, medical device development, and bioinformatics. By fostering knowledge exchange and collaboration among academia and industry experts, the program seeks to equip participants with the necessary skills and insights to contribute to a healthier future.
Online Learning Platforms: Utilize platforms like Moodle, Canvas, or Google Classroom for course materials, assignments, and discussions.

Dear Professors,

Greetings from TLCE!

We are excited to inform you about the upcoming Faculty Development Programs (FDPs) organized by the Teaching and Learning Centre for Excellence (TLCE) and various Schools/Centres of VIT. These programs are scheduled to take place from August 26 to August 30, 2024 (CAT-1 period) in various topics. These FDPs are designed to provide you with an opportunity to expand your knowledge, enhance your teaching methodologies, and stay updated with the latest advancements in various fields.
Last date of Registration: 26-08-2024 @ 09:00 AM
visit VTOP TLCE FDP -> FDP Registration to register
Only Few seats available. Make your Registration at the earliest.

Sl.No.	Event ID	Event Topic
1	TLCE20240093	Generative AI : Concepts and Research Perspectives
2	TLCE20240094	Unlock the Secrets of Super Achievers and Unlock Your Hidden Cognitive Intelligence
3	TLCE20240095	An industry perspective future scope on NLP and Computer Vision
4	TLCE20240096	Generative Artificial Intelligence and Quantum Computing
5	TLCE20240097	From Concept to Patent: Mastering CAD, Simulation & Patent Drawing for Non-Mechanical Engineers using AUTODESK Fusion
6	TLCE20240098	Application of AI in Healthcare
7	TLCE20240099	Scientific Computing and Machine Learning
8	TLCE20240101	Roadmap to Patenting
9	TLCE20240102	Converging AI and Neurocognition: Gearing Up for the Learning of Tomorrow
10	TLCE20240105	Building a Healthier Tomorrow: Medical & Biotech Advancements

Programme Schedule

Schedule of Events

	Date	Title	Speaker	Time
1.	26-08-2024	Recent Advances in Practice of Surgical Oncology	Dr S Gouthaman, Apollo Specialties	10:00AM
2.		Targeting Kinases in Cancer	Dr Suresh K Rayala, IIT Madras	2:00PM
3.	27-08-2024	Advances in Pathology- harnessing the digital era of AI & ML	Dr Sandhya Sundaram, SRMC & RI	10:00AM
4.		Recent Advances in Breast Imaging	Dr Bhawna Dev, SRMC & RI	2:00PM
5.	28-08-2024	Molecular Diagnostics in Precision Medicine	Dr R Vijayalakshmi, Cancer Institute	10:00AM
6.		Preparing for emerging technologies addressing ethical challenges and ensuing consequences in mental health issues	Dr Valsa Augutine, SLRTC Karigiri	2:00PM
7.	29-08-2024	Rational drug design, Synthesis & Evaluation	Kesavan Venkitasamy	10.00 AM
8.		Bioinformatics approaches for understanding mutational effects on protein structure and function: implications to diseases	Dr M Micheal Gromiha IIT Madras	10:00AM
9.	30-08-2024	Recent Trends in Cancer Genomics, Precision Medicine, and Ancient Genomics	Dr G Kumaresan, Madurai Kamaraj University	10:00AM
10.		Autoimmunity and Clinical Laboratory	Dr Srinivasan, Kavery Hospitals	2:00PM

A REPORT ON FPD: Building a Healthier Tomorrow Medical & Biotech Advancements and outcomes

Event Overview

The FPD event, a significant gathering of medical and biotech professionals, aimed to explore the latest advancements in healthcare and their potential impact on the future. Held from August 26 to 30, 2024, at TT 312, the event provided a platform for researchers, clinicians, and industry experts to share their insights, discuss challenges, and collaborate on innovative solutions.

Key Themes and Discussions

The event focused on several key themes that are shaping the landscape of healthcare:

- **Medical Advancements:** Presentations covered a wide range of topics, including breakthroughs in drug development, surgical techniques, and diagnostic tools. Attendees had the opportunity to learn about the latest innovations in areas such as gene editing, artificial intelligence in healthcare, and personalized medicine.
- **Biotech Innovations:** Biotechnological advancements were a central focus, with discussions on topics like synthetic biology, regenerative medicine, and biomaterials. Experts explored the potential of these technologies to address unmet medical needs and improve patient outcomes.
- **Global Health Challenges:** The event also addressed global health challenges, including infectious diseases, chronic illnesses, and healthcare disparities. Participants discussed strategies for improving access to healthcare, developing sustainable healthcare systems, and addressing emerging health threats.
- **Ethical Considerations:** Ethical implications of medical and biotech advancements were explored, with discussions on topics such as privacy, data security, and the responsible use of emerging technologies.

Outcomes and Impact

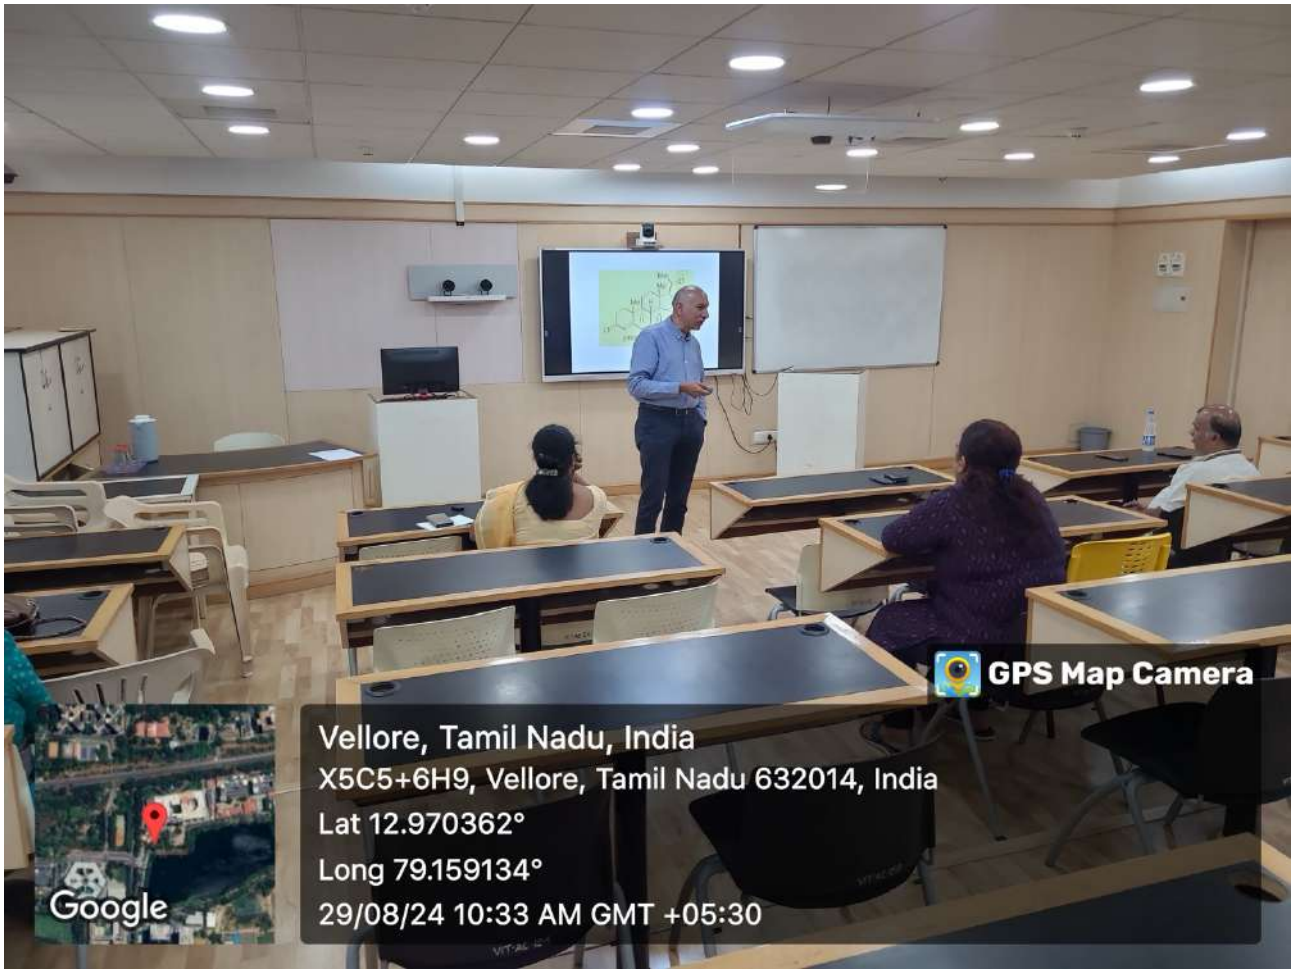

The FPD event was a resounding success, bringing together a diverse group of experts from around the world. The event provided a valuable platform for knowledge sharing, networking, and collaboration. Some of the key outcomes and impacts of the event include:

- **Inspiration and Innovation:** The event inspired attendees to explore new avenues of research and development, fostering a culture of innovation in the medical and biotech fields.
- **Collaboration and Partnerships:** The event facilitated collaborations between researchers, clinicians, and industry representatives, leading to the formation of new partnerships and research projects.
- **Advancement of Healthcare:** The discussions and presentations at the event contributed to the advancement of healthcare by highlighting emerging trends, addressing challenges, and exploring potential solutions.

In conclusion, the FPD event was a significant milestone in the journey towards a healthier tomorrow. By bringing together experts from diverse fields, the event provided a valuable platform for sharing knowledge, fostering innovation, and addressing the pressing challenges facing healthcare today.

Report

Farmer's one-day training program on Plant health management in Mango Crop was held on 7th August, 2024 from 10 AM to 1 PM in VIT Agri Clinic. Dr. Abraham Varghese was the speaker for this program is Former Director, ICAR-National Bureau of Agricultural Insect Resources (NBAIR), Bangalore.

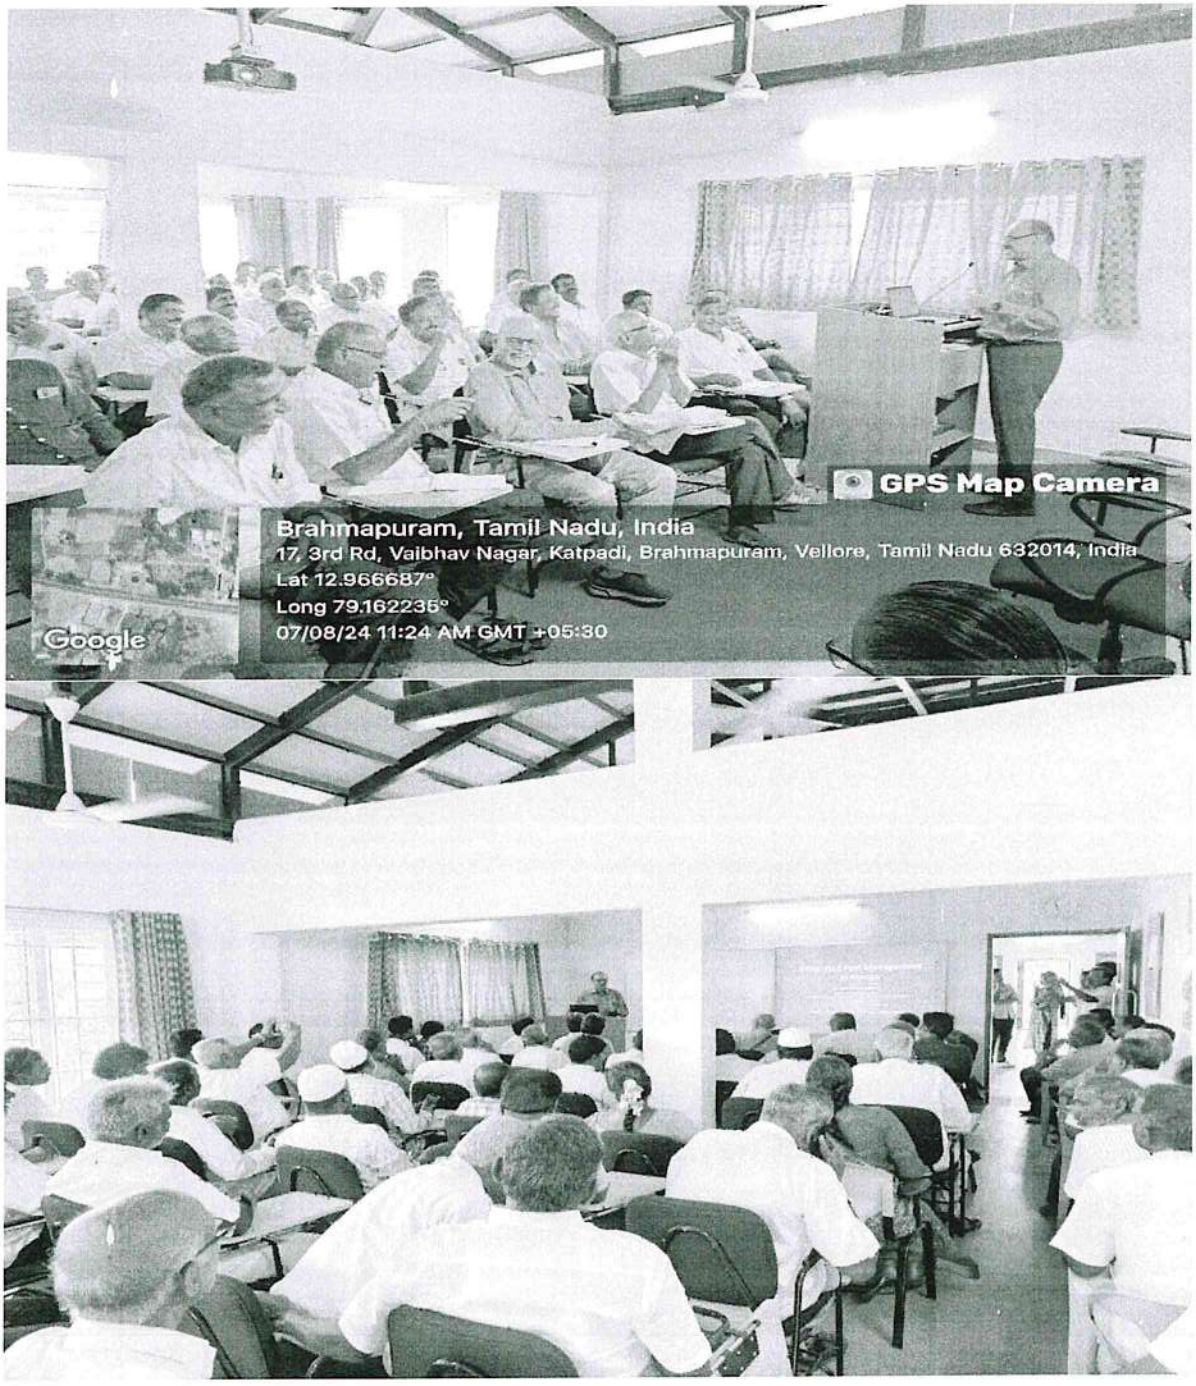

Mango, scientifically known as *Mangifera indica* is a predominant fruit of summer season in India. Many farmers in the northern part of Tamil Nadu grows mango. In order to create benefit them this session was organized.

Farmers from Tirupattur, Vellore, Tiruvannamalai and Krishnagiri attended this session. Nearly 65 farmers attended this program and got benefitted from this training program. This session was about the management practices in Mango from Pest and diseases.

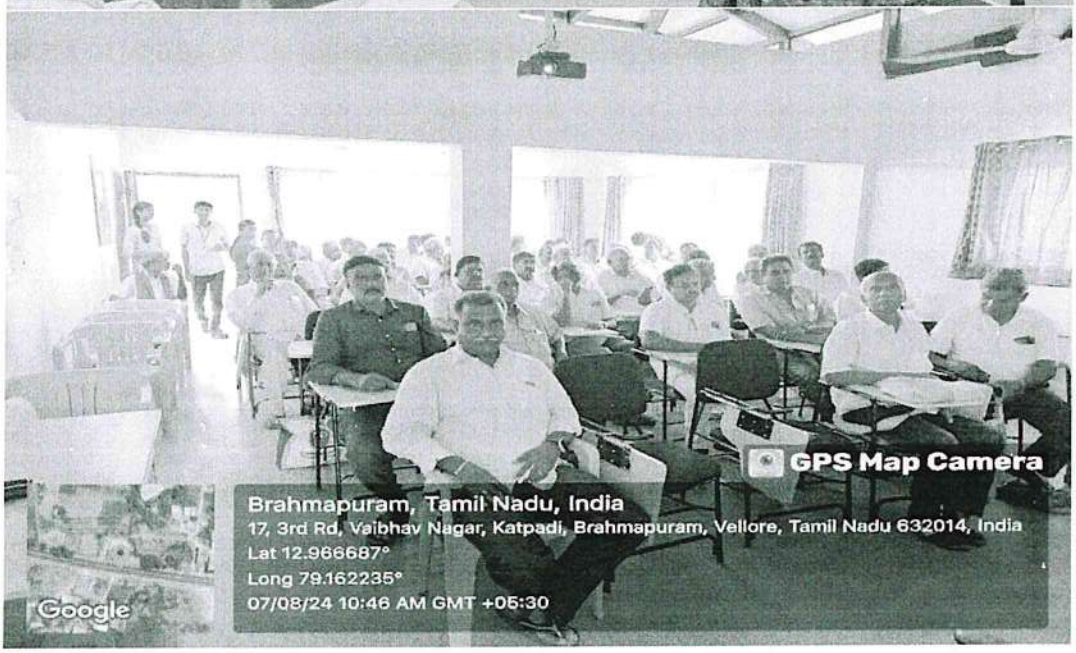

This session was very interactive. Farmers were able to clear their doubts and get knowledge about the diseases, its symptoms and ways to manage it. The speaker's explanation was easy for the farmers to understand. It was a knowledge gaining session. He created awareness on soil fertility and organic farming which is required in these decades.

This session was important for the mango farmers to get a better yield out of managing the crops.

Gender Equity Related Events

Invited Talk on Gender Equity

Date: 20 Aug 2024

Description:

The invited lecture was delivered by Ms. P. Suseendra, a Researcher from the Center for Social Justice and Equity, Madras School of Social Work. Ms. Suseendra provided an inspiring session focused on empowerment, leadership, and social justice. Her talk underscored the importance of fostering equity, empathy, and strong leadership qualities in creating socially responsible individuals.

Followed by, the Curtain Raiser event, ”Inspire. Lead. Empower.,” was successfully conducted on 20th August 2024 from 3:00 PM to 5:00 PM at VOC Auditorium, Admin Block. The event marked the official inauguration of the Women Development Cell’s (WDC) activities for the academic year 2024-2025.

Participants actively engaged with the lecture, interacting through thought-provoking discussions and valuable exchanges of perspectives. Ms. Suseendra effectively addressed participant queries, enriching their understanding of social justice issues and leadership roles in driving positive societal changes.

The event concluded with a movie screening, ”Fly Like A Girl,” highlighting women’s empowerment and leadership in various professional fields. Participants expressed appreciation for the impactful and motivational content delivered throughout the event.

Overall, the Curtain Raiser successfully achieved its objective of setting an inspirational tone for the year, emphasizing leadership, empowerment, and social justice.

Energy on the Move: Distributed Wind Power for a Sustainable Future

Date: 02 Sept 2024

Description:

The workshop titled "Energy on the Move: Distributed Wind Power for a Sustainable Future" was conducted on 2nd September 2024 by the School of Electrical Engineering (SELECT) in an offline mode, bringing together 45 participants including students, faculty, and external attendees. The event focused on exploring the potential of distributed wind power as a sustainable energy solution, with expert speakers from academia and industry sharing their insights. The sessions introduced participants to the fundamentals of distributed versus centralized wind systems, emphasizing their relevance in rural electrification, clean energy access, and community empowerment.

The workshop further delved into technological advancements in wind turbine design, energy integration challenges, and the role of energy storage in ensuring reliability. Key discussions also covered sustainability aspects, policy frameworks, and real-world case studies demonstrating successful implementations of distributed wind systems. Participants gained valuable interdisciplinary knowledge, while the interactive sessions, panel discussions, and Q&A fostered collaboration and idea exchange among researchers and industry professionals. Overall, the event successfully enhanced awareness and encouraged innovation in the field of sustainable wind energy solutions.

Event Photos:

Gender Sensitization Programme 2024

Date: 03 Oct 2024

Description:

The Gender Sensitization Program, organized by the VIT Sustainable Initiative Committee in collaboration with the Women Development Cell, was held on October 3, 2024, at Admin Block 704. The session featured Mr.Veerapandian K, a psychologist and independent practitioner, as the resource person. Open to students from VITSOL and other departments, the program aimed to promote awareness on gender equality, challenge stereotypes, and encourage inclusive behaviour through interactive discussions, psychological insights, and role-playing activities. Around 69 students participated in the event.

This event was conducted as a part of VIT Chennai's Sustainability Week Celebrations. Sustainability goes beyond environmental concerns—it encompasses social equity and inclusive development. By integrating gender sensitization into Sustainability Week, the event highlighted the crucial role of gender equality in building a just and sustainable society. SDG 5's vision of empowering women and marginalized genders resonated throughout the session, reinforcing the link between social awareness and sustainable progress.

Outcomes:

The program successfully enhanced participants' understanding of gender biases and the importance of inclusivity. Students gained practical insights into recognizing unconscious prejudices and fostering respectful interactions. The session received positive feedback, with attendees expressing interest in further initiatives to promote gender sensitivity on campus. The event strengthened the commitment of both organizing bodies toward creating a more equitable and aware academic environment.

Event Photos:

Cybersafe Girls: Empowering the Next Generation of Digital Defenders

Date: 08 Oct 2024

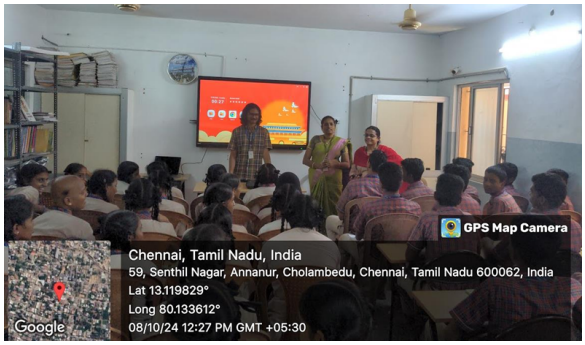

Description:

As technology becomes more integrated into our daily lives, teaching young girls how to stay safe online is crucial. The Cybersafe Girls initiative focuses on equipping girls in grades 11 and 12 with essential cybersecurity knowledge, helping them navigate the internet securely and confidently. The program covers topics like online privacy, cyberbullying, phishing, and secure social media use through engaging workshops and interactive activities. By fostering a safe digital environment, it empowers girls to protect themselves and others from potential online threats.

In addition to promoting personal safety, Cybersafe Girls aims to inspire young women to pursue careers in technology and cybersecurity, areas that have traditionally lacked female representation. By exposing girls to the growing field of cybersecurity, the program seeks to bridge the gender gap in tech. Through mentorship and real-world scenarios, participants gain not only technical skills but also the confidence to explore future opportunities in the ever-evolving digital landscape.

Event Photos:

Women's Wellness Week

Date: 03 Mar 2025 to 07 Mar 2025

Description:

The Faculty Development Centre (FDC) at VIT Chennai organized Women's Wellness Week 2025 from March 3rd to March 7th, 2025, in celebration of International Women's Day. This week-long initiative aimed to promote awareness of women's health and well-being through expert-led discussions by esteemed medical professionals from Gleneagles hospital, Chennai. Each day, a distinguished doctor addressed crucial health topics, including gender-specific neurological conditions, menstrual health, breast cancer awareness, diabetics, and mental well-being. The sessions provided valuable insights, fostering awareness and encouraging proactive health management. The event saw enthusiastic participation, engaging faculty members and scholars in meaningful conversations about women's health.

Event Photos:

Gender and Sex Education Lecture

Date: 05 Mar 2025

Description:

The Gender & Sex Ed. invited lecture titled "Talk, Learn, Empower, Change" was successfully conducted on 5th March 2025 at 2:00 PM in Netaji Auditorium, organized by the Women Development Cell (WDC), Girl Up, and Sahayatha.

The session was facilitated by Ms. Manju S Bharghavi, a Research Scholar from Sree Keralavarma College, Kerala, and Sexuality Educator at SEK Foundation. Ms. Bharghavi provided practical insights on gender and sexuality, menstrual hygiene, and safe sex practices, aiming to foster a comprehensive understanding and awareness among the participants.

Participants actively engaged in discussions, raising pertinent queries, and exploring critical topics around gender equality, personal health, and wellness. The interactive approach adopted by Ms. Bharghavi ensured an informative and engaging learning experience, effectively addressing misconceptions and enhancing participants' knowledge on sensitive yet significant subjects. Feedback from participants highlighted the relevance and clarity of the session, with attendees appreciating the open dialogue and supportive atmosphere facilitated by the resource person. Overall, the Gender & Sex Ed. session successfully fulfilled its objectives, empowering participants through essential education and fostering a supportive environment for open and informed discussions on gender and sexual health.

Breaking Barriers – Overcoming Obstacles to Women's Advancement

Date: 08 Mar 2025

Description:

On March 8th, Vellore Institute of Technology (VIT) Chennai organized a thought-provoking event in celebration of International Women's Day. The event, themed "Breaking Barriers: Overcoming the Obstacles to Women's Advancement," aimed to inspire and educate participants on the challenges faced by women and the importance of gender equality.

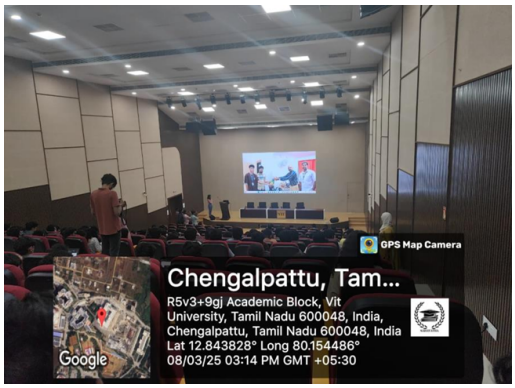

The program featured distinguished speakers who shared their insights on women's empowerment and the struggles they continue to face. The keynote address was delivered by Prof. Dr. Ushaa Eswaran, the Principal of Mahalakshmi Tech Campus, Chrompet, Chennai. In her speech, she highlighted the various barriers that women encounter in their personal and professional lives and discussed strategies for overcoming them. Another impactful session, titled "The Unfinished Fight: Why Women's Day Still Matters," was led by Dr. Haseena Naji, an Assistant Professor and the Coordinator of the Women Development Cell at VIT Chennai. She emphasized the ongoing struggles for women's rights and explained why Women's Day remains significant in today's world. Her session encouraged attendees to reflect on the progress made while recognizing the work that still needs to be done.

In addition to these insightful discussions, the event featured interactive quiz sessions, where participants engaged in exciting competitions testing their knowledge on gender-related topics. Coupons and prizes were awarded to the winners, making the event both educational and enjoyable. The event took place at Kamaraj Auditorium from 10:00 AM to 4:30 PM. The program was successfully coordinated by faculty members Dr. Bharathi Raja S and Dr. G Anusooya, along with student coordinators Vaida Jaasmita and Abhilash Varma. Their efforts ensured a smooth and engaging experience for all attendees.

This Women's Day event was more than just a celebration; it was a powerful reminder of the ongoing fight for gender equality. By bringing together experts, students, and faculty, VIT Chennai provided a platform for meaningful discussions and awareness. Events like these play a crucial role in inspiring future generations to break barriers and work towards a more inclusive society.

Five-Day International Faculty Development programme on Narratives of Reproductive health, Choices, Justice, and Motherhood

Date: 17 Mar 2025 to 21 Mar 2025

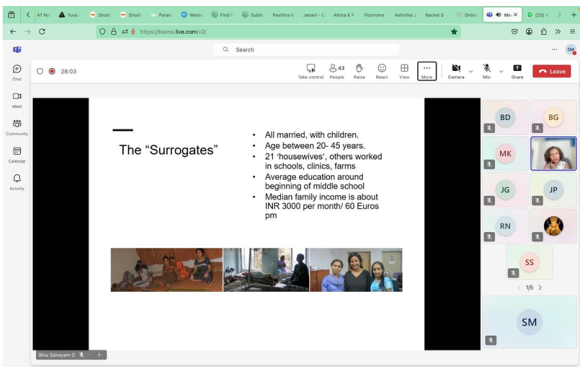

Description:

The Five-Day International Faculty Development Programme (FDP) titled "Narratives of Reproductive Health, Choices, Justice, and Motherhood" took place from March 17–21, 2025, organized by the School of Social Sciences and Languages at Vellore Institute of Technology, Chennai, alongside Warblers: Network of Reproductive Pain from Southern India, and in association with the Northern Network for Medical Humanities Research, UK. This interdisciplinary online event drew 48 participants to critically explore reproductive rights through lenses of medical humanities, sociology, law, literature, and gender studies. Key objectives included examining narratives of reproductive health and justice, foregrounding lived experiences of birthing individuals, and challenging cultural taboos around birth pain and assisted reproductive technologies in India.

Sessions featured global experts: Dr. Laura Lazzari on childbirth narratives and agency (Day 1); Dr. Divya S from VIT Chennai on workplace reproductive policies (Day 2); Prof. Amrita Pande on global fertility markets (Day 3); Prof. Beth Wedmaier Capo on reproductive health in American fiction (Day 3); Dr. Priyanka Tripathi on infertility trauma in memoir (Day 4); and Prof. Suruchi Thapar-Björkert on extractive reproductive economies (Day 5). Core themes encompassed interdependent autonomy, phenomenology of birth pain, trauma in medicalized childbirth, reproductive rights as human rights, and narrative reconstruction of cultural memory, fostering discussions on equity, ethics, and decolonial perspectives.

Event Photos:

Innovator to Entrepreneur: A Pathway to Startup

Date: 16 Jun 2025 to 20 Jun 2025

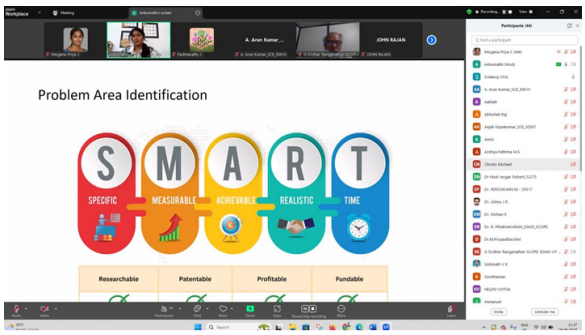

Description:

The Entrepreneurship Development Programme (EDP) titled "Innovator to Entrepreneur: A Pathway to Startup" was conducted online from 16th to 20th June 2025, bringing together participants from academic and external backgrounds to explore the fundamentals of entrepreneurship and innovation. The five-day program featured expert sessions by industry professionals and academicians, covering key topics such as design thinking, entrepreneurial mindset, venture creation, and market-driven innovation. The opening session introduced participants to human-centred design thinking approaches, while subsequent sessions focused on understanding the startup ecosystem, validating problem statements, and recognizing opportunities through structured methodologies.

As the program progressed, participants gained deeper insights into startup scaling strategies, business models, funding opportunities, and market research techniques. Sessions emphasized practical tools such as Lean Canvas, SWOT, PESTLE, and customer segmentation, along with real-world case studies and interactive discussions. The final sessions highlighted strategic market engagement and growth frameworks, equipping attendees with actionable knowledge to build and scale startups effectively.

TEDxVITChennai - TechBytes

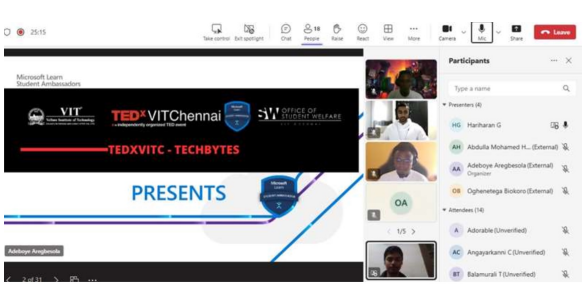

Date: 03 - 10 Mar 2025

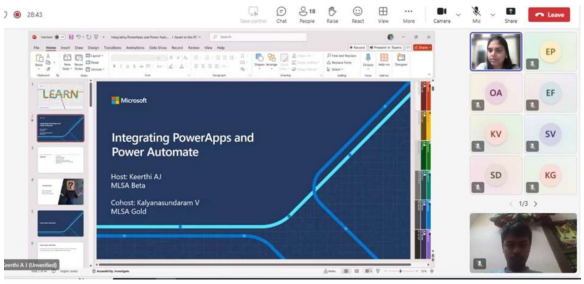

Description:

TEDxVITChennai's TechBytes, organised in collaboration with the Microsoft Innovations Club (MIC) and the Office of Student Welfare, VIT Chennai, was a six-episode online learning series conducted via Google Meet, spanning Episodes 6 through 11. The program was designed to bring high-quality, globally relevant technology education to students across disciplines and regions, covering a broad spectrum of modern tech domains including databases, cloud computing, DevOps, and artificial intelligence. Each session featured expert speakers, interactive Q&A segments, and practical demonstrations, ensuring an engaging and accessible learning experience for both beginners and experienced participants. E-certificates were awarded to all attendees across every episode.

The series covered an impressive range of topics: Episode 6 introduced SQL on Windows with a focus on Azure Databricks; Episode 7 explored Azure DevOps practices for continuous deployment; Episode 8 took participants on an AI journey from foundational concepts to frontier innovations; Episode 9 and Episode 11 served as beginner-friendly guides to cloud computing with Microsoft Azure, helping students build confidence with core cloud concepts; and Episode 10 offered a hands-on look at object detection using Azure AI Custom Vision. Together, the six episodes formed a coherent and progressive learning journey, equipping students with practical skills in data management, cloud infrastructure, DevOps workflows, and AI-driven solutions — reflecting TEDxVITChennai's continued commitment to impactful, community-focused tech education.

PHYFEST 2025 - A Grand Celebration of Physics and Creativity

Date: 8 Mar 2025

Description:

The Department of Physics, School of Advanced Sciences, VIT Chennai, successfully hosted PHYFEST 2025 on March 8, 2025, a vibrant intercollegiate festival exclusively for 2nd and 3rd-year B.Sc. Physics students. Over 200 participants from 10 colleges and universities across India engaged in intellectual challenges and fun activities like The Inventor Next Door, Poster Presentation, Fizzy Fun Fest, and Theoretical Theater, inaugurated by Dr. Mahalakshmi, Dean of the School of Advanced Sciences. The event was graced by distinguished guests Dr. N. Vijila Chellappan (NUS, Singapore) and John V. Kennedy (GNS Science, New Zealand), with Loyola College, Chennai, clinching the overall trophy.

The entire department—faculty and research scholars—demonstrated remarkable teamwork, making PHYFEST a grand success that not only ignited passion for physics and innovation but also fostered social connections among young scientists from diverse backgrounds. By inspiring research ideas and promoting scientific curiosity, the festival delivered profound societal impact, empowering students to address real-world challenges, pursue STEM careers, and contribute to community-driven progress in education and sustainability.

Breaking Barriers – Overcoming the obstacles to women's advancement

Date: 08 Mar 2025

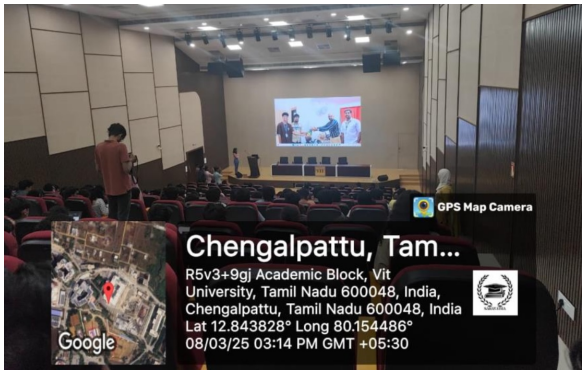

Description:

On March 8th, Vellore Institute of Technology (VIT) Chennai organized a thought-provoking event in celebration of International Women's Day. The event, themed "Breaking Barriers: Overcoming the Obstacles to Women's Advancement," aimed to inspire and educate participants on the challenges faced by women and the importance of gender equality. The program featured distinguished speakers who shared their insights on women's empowerment and the struggles they continue to face. The keynote address was delivered by Prof. Dr. Ushaa Eswaran, the Principal of Mahalakshmi Tech Campus, Chrompet, Chennai. In her speech, she highlighted the various barriers that women encounter in their personal and professional lives and discussed strategies for overcoming them.

Another impactful session, titled "The Unfinished Fight: Why Women's Day Still Matters," was led by Dr. Haseena Naji, an Assistant Professor and the Coordinator of the Women Development Cell at VIT Chennai. She emphasized the ongoing struggles for women's rights and explained why Women's Day remains significant in today's world. Her session encouraged attendees to reflect on the progress made while recognizing the work that still needs to be done. In addition to these insightful discussions, the event featured interactive quiz sessions, where participants engaged in exciting competitions testing their knowledge on gender-related topics. Coupons and prizes were awarded to the winners, making the event both educational and enjoyable.

Quality Beyond Compliance : Marching Towards Excellence

Date: 10 Mar 2025

Description:

The School of Advanced Sciences, in association with the Internal Quality Assessment Cell (IQAC), organised a Rally themed ”Quality Beyond Compliance: Marching Towards Excellence.” The event aimed to raise awareness among students and research scholars about the importance of quality education and a culture of excellence that goes beyond mere regulatory adherence. A total of 105 participants — comprising research scholars and students from various schools — took part in the rally, carrying 21 placards that conveyed the significance of quality-driven education.

The rally commenced at 8:00 AM from the AB1 Portico and proceeded through AB3, AB2, and the Delta Block before concluding at the Admin Block at 8:45 AM. The event was a resounding success, fostering a shared sense of purpose and commitment to academic excellence among all attendees. The School of Advanced Sciences expressed its gratitude to all participants and coordinators for their enthusiasm and support, and looks forward to organising more such initiatives to promote learning and collaboration in the future.

NSS Youth Festival

Date: 13-17 Mar 2025

Description:

The 5-Day State Level Youth Festival, organised jointly by the Youth Welfare and Sports Development Department of Tamil Nadu, the Tamil Nadu State NSS Cell, and VIT Chennai, was held from 13 to 18 March 2025. The festival brought together over 200 NSS volunteers and 12 Programme Officers from universities across Tamil Nadu, offering a dynamic platform for personal growth, leadership development, and community engagement. Designed as a rich blend of adventure, cultural activities, and interactive workshops, the event aimed to instill values of self-discipline, collaboration, and social responsibility among the participants.

The festival commenced on Day 1 with a structured registration process from 6:00 AM, followed by breakfast and a fall-in session where volunteers were briefed on the itinerary and guidelines. The official inauguration at 11:30 AM began with the Tamil Thaai Vaazhthu, reflecting the unity and service spirit of NSS. Distinguished dignitaries — including Dr. P. K. Manoharan, Additional Registrar of VIT Chennai; Dr. C. Samuel Chelliah, Regional Director of NSS Chennai; and Dr. P. N. Gunanidhi, State NSS Officer — graced the occasion. The lamp lighting ceremony marked the formal commencement of the festival, followed by a special video presentation celebrating the contributions of NSS volunteers over the past year, setting an inspiring tone for the days ahead.

Training on Herbal products

Date: 17 - 22 Mar 2025

Description:

This community outreach initiative sought to revive India's rich tradition of herbal medicine by empowering rural women in villages near VIT, particularly in Velichai, Pudupakkam. With allopathic medicine becoming increasingly costly and concern over side effects growing, the program aimed to reconnect communities with traditional healing practices. Women from local Self Help Groups (SHGs) were trained by Mrs. Parvathy — recipient of the India Biodiversity Award 2018 — on identifying medicinal plants, understanding their therapeutic uses, and preparing herbal remedies, in alignment with WHO goals and the UN Sustainable Development Goal 3 (Good Health and Well-being).

Following the training, participants were encouraged to establish herbal gardens in their homes and villages, leveraging the abundance of medicinal plants already present in the local environment. The women went on to prepare and market a range of herbal products — including Pain Relief Oil, Herbal Hair Oil, Youth Cream, Lip Balm, Nalangu Mavu Bathing Powder, Herbal Soaps, and Siyakkai Hair Wash Powder — through local markets. Small healing hubs were also set up at participants' homes, enabling them to offer traditional health services to their communities. The program successfully created a pathway toward sustainable livelihoods for rural women while preserving and promoting India's invaluable herbal heritage.

Art Exhibition on The Constitution of India

Date: 27 Mar 2025

Description:

As part of the celebrations marking 75 Years of the Constitution of India, the VIT School of Law organized a thought-provoking Art Exhibition on the Constitution of India on 27 March 2025. The exhibition aimed to creatively engage students with the ideals, values, and vision enshrined in the Indian Constitution through the medium of art. The event provided a unique platform for students to express their interpretation of constitutional themes such as justice, liberty, equality, fraternity, fundamental rights, directive principles, and significant constitutional milestones. Participants from various disciplines showcased an impressive array of artworks—including paintings, sketches, digital art, and mixed-media pieces—that reflected both artistic talent and a deep understanding of constitutional values.

The exhibition was part of a broader initiative to promote constitutional awareness through interdisciplinary engagement. It attracted widespread attention from faculty, students, and visitors, all of whom appreciated the creative representations and the powerful messages conveyed through visual storytelling. A panel of judges evaluated the artworks based on creativity, relevance to the theme, and overall impact. Outstanding entries were awarded prizes and certificates, while all participants received certificates of appreciation for their valuable contributions.

Environmental Protection Through Beach Cleaning

Date: 31 Mar 2025

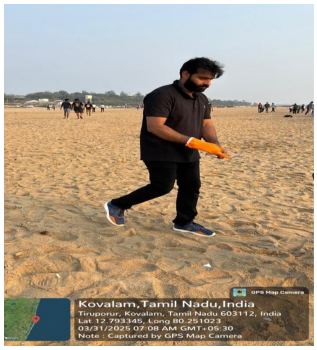

Description:

On 31st March 2025, the School of Computer Science organised a Community Outreach Program on ”Environmental Protection through Beach Cleaning” at Kovalam Beach, Tiruporur, Tamil Nadu. The eight-hour program brought together students for a meaningful blend of awareness and hands-on action, guided by Dr. Rishikeshan C A and Dr. Jayanthi R., who encouraged participants to reflect on their environmental responsibilities. The session opened with an interactive discussion on marine pollution, plastic waste, and the impact of human activity on coastal ecosystems, along with an introduction to GPS-based tools and apps that support environmental monitoring — highlighting the role technology can play in sustainability efforts.

Following the awareness session, students actively participated in a beach cleaning drive along the Kovalam shoreline, collecting and segregating waste into recyclables and non-recyclables using biodegradable gloves, garbage bags, and safety gear. The activity fostered a strong sense of civic duty, teamwork, and environmental consciousness among participants. The program was a resounding success, empowering students to move beyond awareness and contribute meaningfully to real-world environmental preservation.

Seven days - NSS Special Camping Programme 2025

Date: 01 - 07 Apr 2025

Description:

The National Service Scheme (NSS) organized a Special Camp in Kayar Village, engaging volunteers in various activities aimed at community development. The day began with a focus on cleaning the local school premises to prepare for the inauguration ceremony. Volunteers worked diligently to ensure a clean and welcoming environment for the upcoming events.

The inauguration ceremony, held as per the scheduled timeline, included several key components such as the lighting of the lamp, welcome addresses, felicitation of guests, special addresses, and the chief guest's address. Dignitaries and guests from educational institutions, government bodies, and law enforcement agencies graced the event, emphasizing the importance of community service and collaboration.

NSS Programme Coordinator, provided an overview of the NSS Camp's objectives, highlighting the significance of such initiatives in fostering social responsibility among the youth. Mrs. Nithyasuba and Mr. C. Sivasankaran shared their insights on the impact of community engagement in rural areas, encouraging active participation from the volunteers.

Innovator to Entrepreneur: A Pathway to Startup

Date: 16 – 20 Jun 2025

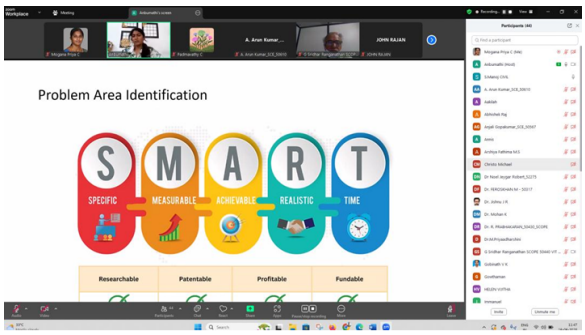

Description:

The Entrepreneurship Development Programme (EDP) titled "Innovator to Entrepreneur: A Pathway to Startup" was conducted online from 16th to 20th June 2025, bringing together participants from academic and external backgrounds to explore the fundamentals of entrepreneurship and innovation. The five-day program featured expert sessions by industry professionals and academicians, covering key topics such as design thinking, entrepreneurial mindset, venture creation, and market-driven innovation. The opening session introduced participants to human-centred design thinking approaches, while subsequent sessions focused on understanding the startup ecosystem, validating problem statements, and recognizing opportunities through structured methodologies.

As the program progressed, participants gained deeper insights into startup scaling strategies, business models, funding opportunities, and market research techniques. Sessions emphasized practical tools such as Lean Canvas, SWOT, PESTLE, and customer segmentation, along with real-world case studies and interactive discussions. The final sessions highlighted strategic market engagement and growth frameworks, equipping attendees with actionable knowledge to build and scale startups effectively.

Empowering Women-Led Self-Help Groups for Sustainable Rural Livelihoods

Date: 25 Jun 2025

Description:

The project ”Empowering Women-Led Self-Help Groups for Sustainable Rural Livelihoods” was successfully implemented on 25th June 2025 in the rural village of Melakotaiyur, organised by Dr. Aruna R., Dr. Alli P., Dr. Rajitha K., and Dr. Preetha R. The initiative focused on providing hands-on Aari embroidery training to women from local Self-Help Groups (SHGs), with the goal of enabling them to build sustainable, craft-based micro-enterprises. Training modules covered core embroidery techniques, stitching methods, fabric handling, material sourcing, pricing, finishing, and market adaptability — both offline and online — ensuring participants were equipped with end-to-end skills aligned with seasonal and festive market demands.

The program yielded meaningful outcomes, with participants gaining practical embroidery skills and the confidence to accept custom orders for sarees, blouses, and kurtis. The initiative was supported through a collaborative stakeholder model involving a group of companies as the sole financial sponsor under their Corporate Social Responsibility (CSR) mandate, VIT Chennai which arranged training resources and personnel, and a community partner that managed logistics, material procurement, training follow-ups, impact assessments, and continued mentorship coordination with the SHGs. Overall, the project took a significant step toward fostering self-reliance and local entrepreneurship among rural women, empowering them to generate sustainable livelihoods through their craft.
