

CLEAN PALAR –RIVER REJUNEVATION

Date : June 25th, 2018 to July 19th, 2018

The palar clean- up project was divided into three phases .The first phase was carried out in January by removing the unwanted plants including Seemai Karuvelam (prosopsis juli flora) and plastic. A total of 86 lakhs sq. feet area, from Palar Old Bridge to Konavattam Railway bridge. The third phase also competed successfully that covered from New Palar Bridge to Vellore District Collectorate. As a part of cleaning, the graveyard in the banks of the river palar also cleaned up well where bushes and wastages existed the future plans included to lay roads on both the banks of the palar river to connect the old and new bridge and to develop a garden along the road.
