6 CLEAN WATER AND SANITATION

Ensure availability and sustainable management of water and sanitation for all

6.3.3 The institution provides free drinking water to all residents and visitors. To meet the requirement it has adequate Reverse Osmosis Plants installed in its premises. The plant details are given below.

It is very important that clean and healthy water is available in a higher education institution. A sufficient amount of water stimulates mental activity and improves performance. VIT cares about the health of students, staff and guests, therefore, we provide free treated and clean drinking water. All the floors of hostel and academic buildings we installed water coolers and heaters.
