

## Towards Sustainability...

### THE - Impact Rankings 2024

6 CLEAN WATER AND SANITATION

Ensure availability and sustainable management of water and sanitation for all

#### 6.4.2 Water re-use measurement

Water meters are provided in Sewage Treatment Plants to monitor recycled water.

The recycled water is used for gardening and flushing;

The process flow in STP is listed:

Treatment of waste water from sources other than toilets

Measurement of water usage at various end points

Measurement of the total amount of recycled water

Multiple sewage treatment plants located throughout the institute; sample photos of these facilities are provided below.
