JULY 2024 NEWSLETTER

DIRECTOR'S MESSAGE

July was particularly lively, marked by a series of special events, seminars, and championships that captured the spirit of innovation, patriotism, and collaboration. One of the standout events, “Reaching the Moon: Chandrayaan 3,” brought together some of the leading minds in space exploration, including Dr. Veeramuthuvel, Project Director of Chandrayaan-3, and Dr. K Thenmozhi Selvi, Project Director of OCEANSAT-3/3A from ISRO, Bangalore. Their insights highlighted the immense strides India is making in space research and inspired our students to dream big and push boundaries.

In a moving tribute to our nation's heroes, we commemorated Kargil Vijay Diwas through a series of events organized by the Office of Students' Welfare. These activities reignited the flame of patriotism and reminded our students of the sacrifices made by our brave soldiers.

Our freshers were welcomed with successful induction programs organized by various schools. These programs fostered a sense of unity and belonging, helping new students integrate seamlessly into the vibrant VIT community.

This month has truly been a celebration of new beginnings, historical milestones, and the pursuit of knowledge, setting a promising tone for the year ahead.

OLYMPICS

2024

PARIS

The Office of Students' Welfare dazzled the attendees with an extraordinary event, "Reaching the Moon with Chandrayaan 3" held on the 28th July at Anna Auditorium. This captivating session brought together some of India's brightest minds in space exploration, that featured the illustrious Dr. Veeramuthuvel, Project Director of Chandrayaan-3, and the esteemed Dr. K Thenmozhi Selvi, Project Director of OCEANSAT-3/3A from ISRO Bangalore.

Guests were treated to an unforgettable evening as intricacies of India's ambitious journey to the moon were unveiled. Their compelling insights provided a rare glimpse into the groundbreaking Chandrayaan-3 mission, highlighting its objectives, the formidable challenges faced, and the groundbreaking potential outcomes.

This exceptional event not only celebrated India's achievements but also kindled a passion for space exploration among all the attendees. It was a night of knowledge, excitement, and endless possibilities, showcasing the nation's journey to the stars.

REACHING THE MOON With Chandrayaan 3

On the 26th of July, the campus was abuzz with excitement and reverence as the Office of Students' Welfare hosted a series of special events to honor the 25th anniversary of "Kargil Vijay Diwas". This significant occasion, etched in the heart of India's history, commemorated the bravery and sacrifice of the soldiers who heroically defended our nation during the Kargil War of 1999.

This day marked the successful culmination of Operation Vijay, a daring military campaign in which the Indian Armed Forces heroically reclaimed the territories in the Kargil district of Jammu and Kashmir that had been infiltrated by Pakistani soldiers and militants. In a parallel of bravery, Velu Nachiyar, the 18th-century queen of Sivaganga, fiercely defended her kingdom against the British East India Company, becoming one of the first Indian rulers to challenge British colonization well before the 1857 revolt.

From touching speeches that recounted tales of valor to stirring performances that evoked a deep sense of patriotism, the air was charged with a collective pride, as the attendees had gathered to pay homage to the heroes who gave their all for the country's dignity.

The Dramatics Club staged a compelling street play, "Dastaan-e-Kargil," that captivated the audience with its heartfelt performances. Featuring intense drama, thrilling action, and touching moments, the play, held at the SMV Portico, celebrated the enduring spirit of Kargil Diwas and left a lasting impression on all who attended.

The commemoration served as a powerful testament to the courage and resilience of our armed forces, a unifying moment that brings the nation together in gratitude and respect for those who stood on the front lines for our freedom.

KARGIL VIJAY DIWAS

The spotlight of the Freshers' Induction at VIT Vellore was celebrating the institution's heritage and human values. The event began with a tribute to parents for their crucial role in their children's success. Chancellor Dr. G. Viswanathan was honored for growing VIT from a small college in 1984 to a major engineering school with five campuses and over 880,000 students. Pro Vice Chancellor Dr. Partha Sharathi Mallick welcomed the new students and highlighted VIT's rising prestige and competitiveness.

The ceremony celebrated VIT's four-decade growth, crediting strong leadership and global vision. Dr. G.V. Selvam spoke on achieving true success through happiness, urging students to embrace integrity,

and lifelong learning. He emphasized support, a positive attitude, and community involvement. The event also highlighted VIT's support systems, including student services, the Proctor system, and new initiatives like the Institute Innovation Council and Entrepreneurship Cell.

The Office of Students' Welfare, providing 24/7 support and holistic counseling, was highlighted as a key part of VIT's commitment to student growth. The ceremony ended with a heartfelt wish for successful learning, as Dr. G. Viswanathan reaffirmed the institution's dedication to quality education and the importance of hard work and preparation.

The event welcomed new students to a vibrant academic community while reinforcing values of integrity, community service, and personal development. As VIT thrives, it remains dedicated to leading in education and nurturing future leaders who will make a positive impact on the world.

FRESHERS' INDUCTION

Ideals that Unite Us All

In July 2024, VIT Vellore rolled out the red carpet for its new students with a spectacular Freshers' Induction event.

Founded in 1984 by visionary Chancellor Dr. G. Viswanathan, VIT has evolved into a leading engineering university with a sprawling network of campuses and a large vibrant student community.

The university's esteemed leaders, including Vice President, who champions environmental and academic excellence, set the stage for an inspiring academic journey. Vice Chancellor Dr. Kanchanaa Bhaaskaran and Pro Vice Chancellor Dr. Partha Sharathi Mallick uphold the university's high standards, while Dr. Anthony Xavier and other notable council members ensure a seamless academic experience.

At VIT, students dive into a world of opportunities across disciplines like civil engineering, biotechnology, robotics, and data science, while,

exploring cutting-edge technologies such as 5G and AR/VR. The Semester Abroad Program and the International Transfer Program offer global exposure, letting students study abroad and earn credits that transfer back to VIT.

Career prospects are bright, with the Career Development Center led by Dr. Samuel Rajkumar facilitating connections with over 800 companies. The university's robust placement support features 835 "Super Dream Companies" offering impressive salaries, including top names in automotive and engineering sectors.

FRESHER'S INDUCTION

Main Ceremony

The academic journey at VIT is as dynamic as it is flexible, featuring two main semesters—Fall and Winter—with additional instructional days in August and September.

The VTOP Portal is the student's gateway to managing exam schedules, grades, and revaluations, and they can enhance their academic profiles with extra courses and opportunities for grade improvement.

Notion thrives at VIT with initiatives like the Institute Innovation Council, which fuel entrepreneurial spirit with financial backing, mentorship, and incubation spaces. Exciting startups like Renora Wellness and Alpal Technology highlight the university's commitment to cutting-edge solutions.

Scholarship opportunities, including the prestigious Chancellor's Dream Scheme, provide comprehensive financial support for students from underprivileged backgrounds, covering everything from their tuition to accommodation. The vibrant campus life includes engaging events, community service, and the handy V-Nav App for easy navigation.

VIT invites students to seize every opportunity, immersing themselves in a rich tapestry of academic, entrepreneurial, and extracurricular experiences. Your journey here promises not only to shape your future but to enrich your present, making VIT a launchpad for extraordinary achievements.

School of Biosciences and Technology (SBST)

VIT's School of Biosciences and Technology (SBST) recently welcomed its new students. Biotechnology students with an induction at SMV. Dr. Aanchal Mittal, the Freshers' Coordinator, introduced the key faculty and highlighted VIT's excellence in education and research. Prof. Ramesh Pathy covered the M.Tech curriculum and VIT's core values, while Prof. Abilash VG explained academic regulations and Prof. Mohanasrinivasan discussed internships and placement opportunities.

Dr. Mittal wrapped up the program by reaffirming her commitment as the class coordinator, ensuring students felt well-supported as they began their academic journey.

School of Computer Science and Engineering (SCOPE)

On July 12, 2024, VIT's School of Computer Science and Engineering (SCOPE) warmly welcomed its new M.Tech (CSE) students with a vibrant induction program. Dean Prof. Ramesh Babu K set an inspiring tone, while Associate Dean Prof. Saleem Durai M A offered a warm welcome. Prof. Swathi J N introduced the M.Tech (CSE) and M.Tech (CSE - AI & ML) programs, and Prof. Murali S and Prof. Gopinath M P highlighted specialized tracks in Big Data Analytics and Information Security."

Prof. Manikandan N from the CDC shared placement advice, while other faculty offered insights on hostel life, thesis writing, and research. The program ended with a Q&A and a vote of thanks by Prof. Arivoli A, leaving students inspired for their journey at VIT.

School of Hotel and Tourism Management (HOT)

Professor Jesu Frederick led an engaging induction for BHA freshers at VIT, offering a concise overview of the program's structure, syllabus, and goals. He explained the academic framework and assessments, ensuring students were well-prepared for what lies ahead.

SCHOOL INDUCTION

A highlight of the session was VIT's strict zero-tolerance policy on ragging, harassment, and bullying, underscoring the commitment to a safe and supportive environment.

Students were excited to learn about the 100% training and placement support from VIT-HOT School, which opens doors to careers in top 5-star hotels, paving the way for success in hospitality. The session left students informed, reassured, and ready to begin their journey at VIT.

School of Social Sciences and Languages (SSL)

VIT's School of Social Sciences welcomed its new Master of Social Work students with an engaging induction. Key faculty members addressed the gathering, setting the tone for the students' academic and professional journey. Dr. Soma Saha opened with a welcome address, followed by Dr. J. Raja Meenakshi outlining the induction goals.

Dean Dr. M. Manoharan encouraged students to seize academic and fieldwork opportunities, while Associate Dean Dr. V. Selvam and HoD Dr. Bangalore Morarji emphasized the value of a well-rounded learning approach. The program wrapped up with a vote of thanks from Dr. Preethi Solomon,

marking the beginning of an exciting academic chapter for the new students.

School of Media, Arts and Technology (V-SMART)

The School of Media, Arts, and Technology (V-SMART) at VIT University recently welcomed 87 new B.Sc. students in Multimedia & Animation and Visual Communication with an engaging Freshers' Induction Programme. Prof. Raja M opened the event with a warm Welcome Address, introducing V-SMART's dynamic environment. Students then met their Year Coordinators, including Dr. Ramalakshmi L, and participated in self-introduction sessions.

Dean Prof. Vydianathan R shared V-SMART's vision, and Prof. Mahadevan R outlined key academic regulations. The program featured a guided tour by Dr. Bharath Yuvaraj R and a fun activity organized by faculty. Dr. Ramalakshmi L closed with encouraging remarks, setting an inspiring tone for the students' journey at V-SMART. The day effectively combined informative sessions with interactive elements for a motivating start.

EMINENT TALKS

Innovators Quest's "Mastering Blender: An Introduction to 3D Modeling" workshop on July 1st, led by Mr. Chirag Singh, provided participants with essential tips and training on Blender. The session covered everything from basic navigation to advanced 3D modelling techniques, empowering attendees to turn their creative visions into reality.

Mr. Chirag Singh
>>>Innovators Quest

Mr. Ramendra Kumar
>>>Leo Club

On July 7th, VIT Leo Club hosted a memorable session featuring Mr. Ramendra Kumar, a distinguished children's author and cancer survivor. Known affectionately as 'Ramen,' Mr. Kumar engaged with students personally, offering profound insights into his journey as a cancer warrior and the bravery required to face life's challenges. All attendees appreciated the session, which was highly interactive.

On July 4th, IEEE-SPS hosted an event featuring Anis Fatema, founder and CEO of Pistartech Ltd. She discussed advancements in flexible chipsets, shared her expertise in designing pressure sensors, and demonstrated a DIY project. Ms. Anis also showcased her work on pressure-sensing chairs using machine learning for posture analysis, offering attendees valuable insights into flexible technology's potential.

Anis Fatema
>>>IEEE-SPS

EMINENT TALKS

The SW special event "Remembering the Brave," held on July 27, 2024, honoured Kargil Vijay Diwas, with Major Dr Khushwant Kolibailu sharing his experiences from the 1999 Kargil War. The session included an intense discussion, allowing participants to engage with Major Kolibailu. Students were made to reflect on the bravery of the soldiers to foster a sense of community and remembrance.

Dr. Khushwant Kolibailu
>>>SW

Dr. R. Ranjith Kumar
>>>BRSI-VIT

BRSI-VIT's online event "Precision Analysis: Unveiling Pesticides in Food" on July 28, 2024, featured Dr. R. Ranjith Kumar, garnering up to 40 participants. The lecture focused on pesticide detection in food, health implications, and safer food choices, which included an intensive Q&A session, thereby empowering students to make more rational decisions.

IChE-VIT held a guest lecture on "Exploring Innovations in Batteries and Fuel Cells" by Prof. Shankar Raman Dhanushkodi on MS Teams. The session covered recent trends in batteries and fuel cells, including advancements in solid-state technology, fast charging, and green hydrogen production. The session was concluded with an engaging Q&A, deepening participants' understanding of the topics.

Prof. Shankar Raman Dhanushkodi
>>>IChE-VIT

EMINENT TALKS

On July 27th, AIChE-VIT hosted "Chemically Doped," an engaging podcast with Yury Gogotsi, Director of the A.J. Drexel Nanomaterials Institute. The discussion covered nanotechnology, MXenes, and their prospects, sparking curiosity and innovative ideas among the 30+ participants. The session concluded with a brief overview of current MXenes research.

Dr. Yury Gogotsi
->AIChE-VIT

Dr. Vinod Balakrishna
->ASME-VIT

ASME-VIT's Tech Elevate 1.10 on July 10th featured Dr. Vinod Balakrishna from PSG-Tech, discussing robotics from a mechanical engineering perspective. He explored industrial robot market trends, and opportunities for students in R&D, emphasising the role of mechanical engineering in advancing robotics. He further encouraged students to upskill themselves regularly.

BRSI-VIT hosted a lecture on July 6, 2024, led by Sarvesh Falari, an industry expert from Dr. Reddy's Laboratories, on the topic of advancing cell culture processes. The seminar, held on Google Meet, covered challenges and strategies in cell culture, offering attendees valuable insights into process optimization and the biotech industry's potential growth.

MECHANICAL ENGINEERS (ASME)

HIGHLIGHTS

Array Quest

Mozilla Firefox – Array Quest

The Array Mastery Challenge on Dare2Compete was a thrilling competition where coders tested their skills with array-based problems. Participants showcased their expertise while tackling challenges that sharpened their fundamentals.

ASME – Tech Elevate 1.9

Tech Elevate by ASME-VIT offered a dynamic session on the fusion of mechanical engineering with aerospace and defense. Guest speaker Prashanth Rajanna shared insights into cutting-edge innovations, industry challenges, and regulatory impacts, highlighting how these advancements are shaping the future of aerospace and defense.

Space for Learning

HARNESSING SPACE TECHNOLOGY FOR QUALITY EDUCATION

Inspiring event that explores the potential of space technology in enhancing educational quality, in alignment with Sustainable Development Goal (SDG)

VIT Stellar – Space for Learning

VIT Stellar hosted "Space for Learning: Harnessing Space Technology for Quality Education" at SJT G07, an inspiring event exploring how space technology can enhance educational quality in line with the UN's Sustainable Development Goal (SDG) 4. The talk delved into practical applications, from improving education access in remote areas to integrating space data into STEM curricula.

SAE – Auto Round-Up

SAE VIT's AUTO ROUND-UP showcased the latest trends in the Indian automotive scene. From new innovations to cool concepts across bikes, cars, and planes, this event delivered all the updates with an Indian touch. Highlights were featured on SAE-VIT's Instagram Live.

FRESHMEN INDUCTION

On July 25, 2024, the School of Mechanical Engineering hosted an Undergraduate Freshmen Induction Programme organized by the Student Welfare Committee. The event introduced new students to various club activities through morning and afternoon sessions. During the morning session (09:30 AM to 12:30 PM), students were grouped by registration numbers and allocated to specific rooms, where they met different teams. For instance, in MB 305, students met the Pravega Racing team, followed by Uttejtit, Jaabaaz_BAJE KI Racing, and Assailing Falcons. Other rooms featured similar rotations with different sequences of teams. In the afternoon session (02:00 PM to 04:30 PM), a new set of students participated, encountering clubs like Vimanas, Curtis RC, Rotor FPV Drone, and Team Albatross Ecotitans. Faculty advisors from each club supervised the sessions, ensuring freshmen were well-informed about the opportunities and activities available within each club.

TEAMS OF VIT

TEAM SAMMARD

Team Sammard, a student-led aerospace team from Vellore Institute of Technology, has achieved a groundbreaking feat in rocketry. Their successful launch of Agneya at the Spaceport America Cup 2024 showcases exceptional technical skills and innovation. Agneya's design and development demonstrate expertise in aerospace engineering, featuring an advanced stabilization mechanism for precise control and navigation. This sets a new benchmark for student-led teams. Through international competitions, Team Sammard has demonstrated dedication and passion for space technology. Their goal is to inspire and mentor the next generation, driving innovation and excellence. The team's journey has been marked by challenges and learning opportunities. Overcoming obstacles through perseverance and creative problem-solving has been crucial.

The successful launch of Agneya is a significant milestone, demonstrating Team Sammard's capabilities and potential for lasting impact. As they continue to innovate, they inspire students and young engineers across India. Team Sammard's achievements extend beyond technical accomplishments. They have fostered a culture of collaboration, innovation, and continuous learning, setting a new standard. Their dedication has created a ripple effect, inspiring others to pursue STEM careers.

In conclusion, Team Sammard's achievement showcases the power of innovation, dedication, and collaboration. Their journey inspires students and young engineers, demonstrating that hard work and determination can lead to remarkable success.

AROUND THE WORLD

MIT researchers have developed an AI algorithm which has the ability to detect early-stage cancers with remarkable accuracy. The algorithm analyzes medical images and identifies subtle patterns indicative of any form of tumor, even before symptoms appear. This breakthrough has the potential to revolutionize cancer diagnosis and treatment as a whole.

Scientists from the California Institute of Technology have engineered a new type of algae that can produce large quantities of a sustainable biofuel. The algae can be grown in saltwater and does not require arable land or freshwater resources, making it a more environmentally friendly alternative to traditional fossil fuels.

Oura Health, a Finnish Health Technology start up has developed the Oura Ring. It is a wearable device that continuously monitors heart rate, sleep quality, and other vital health metrics. The ring uses advanced sensors and algorithms to provide personalized insights into an individual's health and wellness.

Zipline has developed a fully autonomous drone delivery system that can transport medical supplies and other essential goods to remote areas. The drones are capable of flying long distances and can land autonomously, making them a valuable tool for humanitarian aid and disaster relief.
