DIRECTOR'S MESSAGE

The month of October was filled with reflection, celebration, and awareness at VIT. While clubs actively Observed National Cybersecurity Awareness Month and hosted programmes on women in technology, the most memorable highlight of the month was the UG Farewell for the graduating Class of 2026.

From 27th to 30th October 2025, the Office of Students' Welfare organized the Chancellor's Dinner and UG Farewell across four special evenings for different schools. The event marked the closing chapter of campus life for the graduating batch. Each day was carefully planned, beginning with formal group photographs with the management and faculty members.

The evenings featured cultural performances that reflected the talent and spirit of the batch. This was followed by a formal dinner, where students gathered with their friends, mentors, and faculty members to share memories and celebrate their journey. It provided students an opportunity to thank their teachers, appreciate their peers, and look ahead with confidence.

Earlier in the month, Mehfil-e-Manzhar, the annual Sufi Night, was held on 12th October at Anna Auditorium. The event featured soulful performances of Sufi music, Qawwali, and Ghazals, creating a culturally rich atmosphere on campus.

October also observed National Cybersecurity Awareness Month, during which clubs conducted quizzes and interactive sessions to promote digital safety. IEEE Women in Engineering organized alumni talks that inspired students by sharing the journeys of women working in leading technology fields.

In total, October 2025 witnessed 243 events organized by the clubs and chapters of VIT Vellore, reflecting strong student participation. However, the UG Farewell stood out as the defining moment of the month – a heartfelt send-off celebrating years of hard work, friendship, and growth.

MAJOR EVENTS

Chancellor's Dinner & UG Farewell 2025

The Office of Students' Welfare at Vellore Institute of Technology organized the Chancellor's Dinner & Farewell for the UG Class of 2026 from 27th to 30th October 2025, celebrating the culmination of their academic journey.

The event began with group photo sessions with faculty and management, followed by cultural performances and a grand dinner, creating a warm and celebratory atmosphere. Students attended in formal attire, adding elegance to the occasion.

The farewell was organized across four days for different Schools:

- Day 1 (27 October 2025): SCOPE-1 (Core)
- Day 2 (28 October 2025): SELECT, V-SIGN, V-SMART, HOT, SCOPE-2 (Specializations)
- Day 3 (29 October 2025): VAIAL, SCORE, SSL, VITBS
- Day 4 (30 October 2025): SCHEME, SCE, SMEC, SENSE

The Chancellor's Dinner served as a heartfelt farewell, providing students with an opportunity to reflect on their journey, celebrate their achievements, and cherish the bonds they had formed during their time at VIT.

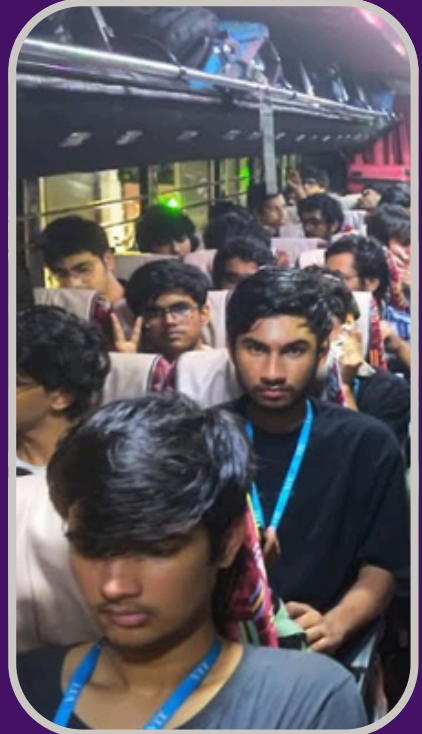

The event concluded successfully, leaving the graduating batch with lasting memories as they step forward into new beginnings.

MAJOR EVENTS

Airport Shuttle Service for Diwali 2025 – VIT Student Council Initiative

As an initiative by the VIT Student Council, shuttle and cab services to Chennai Airport were arranged during the Diwali Holidays 2025 to ensure a smooth and safe travel experience for first-year students.

As part of VIT's commitment to student well-being and support, this initiative was designed to assist freshers during their first festive break away from campus. The service reflected the institution's focus on providing a safe, convenient, and student-friendly environment, especially during travel transitions.

The registration process was carried out through official communication channels, where students were required to fill out a Google Form and submit their flight details to the DSW (Dean – Students Welfare) office for verification. Seats were allocated on a first-come, first-served basis, and final travel arrangements were systematically coordinated by the DSW office to ensure efficiency and safety.

This thoughtful initiative by the VIT Student Council not only eased travel concerns but also reinforced a sense of care and responsibility within the campus community. It stood as a testament to VIT's proactive approach in prioritizing student comfort and well-being.

EMINENT TALKS

13/10/2025

Mr. Ashwin Krishnamoorthy, Director and Senior Technology Manager for Global Risk Analytics and a proud VIT alumnus, spoke at the VIT-hosted Alumni Talk. His incredible trip, professional development, and encounters with international technologies were all highlighted in the presentation.

Mr. Krishnamoorthy imparted insightful knowledge, lessons learnt, and advice for ambitious professionals through open dialogue. His experiences provided participants with motivation and useful information, making the session interesting and educational.

13/10/2025

Distinguished alumni Mr. Sidharth Kondetti, Mr. Pabithra Laha, and Mr. Vishakh Garg participated in the Leo Club VIT-hosted Alumni Interaction Session. Juniors received helpful advice throughout the workshop on how to balance their studies, succeed in club activities, and get ready for placements.

Mr. Laha, who served as Chairperson from 2022 to 2023 and is currently an Executive HR at Azuga, Inc.; Mr. Garg, who served as Co-Secretary from 2022 to 2023 and is currently employed at InfoEdge; and Mr. Kondetti, who served as Chairperson from 2021 to 2022 and is currently a Public Sector Consultant at North Highland (USA), shared their experiences, insights. Participants gained motivation, practical guidance, and techniques to confidently and clearly manage their VIT journey from the interactive session.

AROUND THE WORLD

Space: Voyager 1 Final Transmission.

NASA made known that the Voyager 1, the farthest artificially produced object, has sent its last intelligible information packet. The nuclear power source is less than the energy required to run the transmitter due to 48 years of operation. Accordingly, the probe is quietly turning into the interstellar-space, bringing the Golden Record with it, as a quiet ambassador.

Computing The revolution of optic chips.

Scientists at MIT had shown a photonic computer chip, which uses light instead of electricity as a processing medium. Its "Optical Tensor Core" is 100 times faster than the latest NVIDIA GPUs and consumes a fraction of the energy, making it a possible approach to reducing the soaring energy needs of the large AI data centers.

Transportation Hyperloop Cargo Route Live.

An all-cargo hyperloop between Abu Dhabi and Dubai has been fully launched. Speeding along a range of 600 mph levitated cargo pods along a near-vacuum tube, halting a two-hour trip by truck to a half-hour. This development is being hailed by logistics leaders since the introduction of shipping container as the most important freight shift.

Health: The Flu Vaccine that is Universal.

The fast-track Food and Drugs Administration approval was of an mRNA Universal Influenza Vaccine targeting the non-mutating stem of the virus. Existing early clinical evidence suggests that all known influenza types will produce a lifelong immune response, which will potentially suppress the need to have annual vaccinations and alleviate risks of pandemics in the future.

Artificial intelligence (AI) Music: Grammy Scandal.

After the unknown artist who created his works using AI became the top performer on the Billboard charts with a single song written and performed purely by algorithms, the music industry has plunged into chaos. The song is called Ghost in the Machine, and it can make no difference between the manner of human expression in his or her emotions, so the Recording Academy decided to conduct an emergency vote on whether algorithms will be eligible to receive recognition as well.
