VELLORE INSTITUTE OF TECHNOLOGY

VIT was established with the aim of providing quality higher education on par with international standards. It persistently seeks and adopts innovative methods to improve the quality of higher education on a consistent basis. The campus has a cosmopolitan atmosphere with students from all corners of the globe. Experienced and learned teachers are strongly encouraged to nurture the students. The global standards set at VIT in the field of teaching and research spur us on in our relentless pursuit of excellence. In fact, it has become a way of life for us. The highly motivated youngsters on the campus are a constant source of pride. Our Memoranda of Understanding with various international universities are our major strength. They provide for an exchange of students and faculty and encourage joint research projects for the mutual benefit of these universities. Many of our students, who pursue their research projects in foreign universities, bring high quality to their work and esteem to India and have done us proud. With steady steps, we continue our march forward.

SCHOOL OF BIO SCIENCES AND TECHNOLOGY

The School of Bio Sciences and Technology consists of four departments namely Biotechnology, Integrative Biology, Bio Sciences and Bio-Medical Sciences headed by well-trained Professors. The school offers an undergraduate (B.Tech. Biotechnology) and six Postgraduate (M.Sc. and M.Tech.) programme. It also offers Integrated Ph.D. and Ph.D. programme. The priority of the SBST is developing an entrepreneurship skills and mentoring students to become future scientists for the improvement of humanity. Our efforts are strengthened by collaboration with national, international universities and multinational companies. Consultancy research and commercialization of products at the university are undertaken as a part of the program. The school houses excellent infrastructure and well-trained faculty members which makes SBST one among the top ten Bio School in the country.

ABOUT VIT BIOSUMMIT

The 10th edition of VIT BIOSUMMIT brings together leaders from government, academia and industry for compelling discussions and comprehensive coverage on industrial employability, skill set requirements, innovative thinking and higher education. Across two days of the event, participants can expect exceptional networking opportunities in the exhibit hall, engaging panel discussions, and shared case studies with members of the BIOSUMMIT community from technology providers to policy makers. The 2022 edition saw more than 500 participants which included scientists/technologists, executives/directors, professors and students.
