

## ABOUT VIT

VIT was established with the aim of providing quality higher education on par with international standards. It persistently seeks and adopts innovative methods to improve the quality of higher education on a consistent basis. The campus has a cosmopolitan atmosphere with students from all corners of the globe. Experienced and learned teachers are strongly encouraged to nurture the students. The global standards set at VIT in the field of teaching and research spur us on in our relentless pursuit of excellence. In fact, it has become a way of life for us. The highly motivated youngsters on the campus are a constant source of pride. Our Memoranda of Understanding with various international universities are our major strength. They provide for an exchange of students and faculty and encourage joint research projects for the mutual benefit of these universities. Many of our students, who pursue their research projects in foreign universities, bring high quality to their work and esteem to India and have done us proud. With steady steps, we continue our march forward. We look forward to meeting you here at VIT few of the innovations that VIT has introduced.

## ABOUT SCE

The School of Civil Engineering (SCE) is a part of VIT since its inception. The School has grown tremendously over years and is now recognized as one of the major engineering schools in VIT. The School faculty members

are from various reputed institutes such as IITs, IISc etc. Besides high-quality teaching and instruction at both UG and PG levels, the faculty members of the school are actively involved in executing a number of R&D and consultancy projects from government agencies including DST, ISRO, BRNS and also from many reputed industries.

## ABOUT IIC

The Institution's Innovation Council (IIC) is an initiative of the Ministry of Education (MoE), Government of India, launched in collaboration with the All India Council for Technical Education (AICTE) in 2018. Its aim is to systematically cultivate a culture of innovation and entrepreneurship within India's Higher Education Institutions (HEIs).

## ABOUT THE PROGRAMME

This training program is designed to empower professionals with the knowledge and skills to harmonize workplace safety with sustainable environmental practices. By exploring the intersection of occupational health and environmental stewardship, participants will gain practical insights into creating safer work environments while minimizing ecological impact. Through interactive sessions, case studies, and expert guidance, this program fosters a culture of responsibility that supports long-term organizational resilience and regulatory compliance.
