

Intellectual Property and Technology Transfer Clinic (IP & TT Clinic)

Date: September 03, 2025

Greetings!!!

Intellectual property and technology transfer cell VIT is pleased to announce the formal launch of the IP & TT Clinic. This dedicated resource is established to assist all students, PhD scholars, and faculty in transforming their research and innovative ideas into protectable assets and marketable products. Our mission is to provide expert, one-on-one guidance in protecting and commercializing your intellectual creations.

Comprehensive Services

The clinic specializes in critical areas of intellectual property (IP) and technology transfer (TT). Our expert members will provide support for:

- Invention Assessment: We will conduct an initial review to determine if your invention is novel and eligible for intellectual property protection.
- Technology Readiness Level (TRL) Assessment: We will help you evaluate your invention's current TRL and guide you on the necessary steps to advance it to the next level of development.
- Invention Disclosure Form (IDF) Assistance: We will provide hands-on support in drafting and preparing your IDF applications.
- IDF Revision Support: We will guide you through the process of revising your IDF after preliminary feedback, a patentability search, or to address any other clarifications.
- Technology Transfer Strategy: We will assist you in developing effective strategies to move your intellectual property from the laboratory to the market, including guidance on licensing and other commercialization pathways.

Operational Details

The VIT IP & TT Clinic is a unique initiative staffed by a team of three expert members, committed to your success.

- Consultations will be available three days a week, for one hour per day. Our team will be located at the IPR and Technology Transfer Cell, Room 101, First Floor, CDMM Building
- A maximum of 10 appointments will be scheduled per day.
- The appointment booking form will be available via Google Forms during the last week of each month, from the 25th to the 28th.
- All appointment confirmations will be sent to your official VIT email ID.
- All inquiries are welcomed to our official email address: iprvit@vit.ac.in.

This clinic also serves as a valuable learning hub, providing inventors with hands-on experience in the fields of intellectual property and technology commercialization. We are committed to fostering a culture of entrepreneurship and research excellence at VIT.
