4 DAY Executive Development Programme **GREEN BUILD LEADERSHIP:**

An EDP on Climate Design, Energy Efficiency & Embodied Carbon

28th–31st January 2026

IST 10.00 to 17.00

PROGRAM HIGHLIGHTS

- 4-day Executive Development Program integrating policy, design, engineering, ESG & carbon analytics
 - Expert-led sessions by VIT Vellore faculty and industry sustainability professionals
 - End-to-end building sustainability coverage: climate-responsive design, energy modelling, low-carbon materials & LCA
 - Practical case studies & workflows for ECBC, GRIHA, IGBC, LEED & C&D Waste compliance
 - Enhances technical expertise & strategic decision-making for future-ready construction
 - Designed for architects, engineers, sustainability professionals, developers, project leaders & Researchers

HANDS ON TRAINING ON

- Building Energy Modelling
- Climate-Responsive Design
- Day lighting & Ventilation Calculations
- Low-Carbon Material & LCA Basics
- Water and waste management
