Competition

(A) Idea / Innovation Challenge

Students propose a solution or innovation for a real agricultural problem. (On-spot problem statement will be given)

(B) Poster Presentation

Scientific or conceptual posters (based on the theme – “Healthy Soils for Healthy Cities”)

(C) Prototype / Model Exhibition

Participants have to present Sensors, IoT devices, Soil test kits, Precision tools, etc. (Students are required to prepare a prototype or model which they can begin developing after registration. During the exhibition participants must present their completed prototype or model.)

(D) Soil Awareness Reel / Short Video (60 sec)

Participants are required to prepare an awareness video on the theme – “Healthy Soils for Healthy Cities”. They can start developing the video after registration and all submitted videos will be showcased on the day of the competition.
