

Three Days Hands-on Workshop on "Advancing qPCR Skills for Gene Expression Analysis: Experimental Design to Data Analysis" organized by VIT-TBI

This intensive three-day hands-on workshop is designed to provide practical training and conceptual clarity in quantitative real-time PCR (qPCR) for gene expression analysis. Participants will gain end-to-end experience starting from RNA isolation, cDNA synthesis, Primer Design, to qPCR data analysis and interpretation, following best laboratory and analytical practices.

Certificate will be given to the participants upon successful completion.

WHO CAN ATTEND?

Graduates / Students pursuing B.Sc. / M.Sc. / B.Tech / M.Tech / Research scholars / Faculties in Life science, Biotechnology, Microbiology
