About VIT

VIT was established with the aim of providing quality higher education on par with international standards. It persistently seeks and adopts innovative methods to improve the quality of higher education on a consistent basis. The campus has a cosmopolitan atmosphere with students from all corners of the globe. Experienced and learned teachers are strongly encouraged to nurture the students. The global standards set at VIT in the field of teaching and research encourage us in our relentless pursuit of excellence. Our Memoranda of Understanding with various international universities are our major strength.

About SCOPE

The school has one of the best infrastructures, including domain-specific labs associated with the technical departments. The main aim is to produce computing graduates with potential, to design and develop systems involving the integration of software and hardware devices, and to employ innovative approaches in programming and problem-solving and create large-scale software systems. With an objective of developing core competence in the subject matter specializations and special interest groups for learning new technologies.

The School has formed the following technical departments:

- Department of Analytics
- Department of Computational Intelligence
- Department of Database Systems
- Department of Software Systems
- Department of Information Security
- Department of IoT
- Department of Quantum AI

About Workshop

The “Career Catalyst: Skill Development Workshop” aims to equip participants with essential professional, technical, and interpersonal skills required for career growth and employability. The workshop focuses on enhancing communication, leadership, teamwork, problem-solving, resume building, interview preparation, and workplace readiness while creating awareness about industry expectations and career opportunities. It also encourages continuous learning, confidence building, and professional development to help participants successfully transition into the corporate and professional world.
