

DEAN'S INTERACTION WITH STUDENTS

The interaction of Dean with students include discussions on academic progress, research opportunities, skill development, event organizations and career aspirations. The interactions encourage open dialogue, address student concerns, as well as highlight the importance of innovation, interdisciplinary learning, and professional growth, fostering a supportive and engaging academic environment within the school.

Regular Interactions with Class Representatives:
The Dean holds regular meetings with the class representatives (CR) to discuss academic progress, address student concerns, and gather suggestions, as well as encouraging them to take proactive initiatives in organizing academic, cultural, and co-curricular events. The interaction emphasized on leadership, teamwork, effective communication, and active student participation.

Meeting with students:
Frequent meetings with students are organized to address their concerns, take suggestions and feedback as well as encourage open communication.

Student Induction Ceremony:

Interaction with the Dean during the induction programme provided an opportunity for newly joined UG and PG students, along with research scholars, to gain insights into the institute's vision, mission, and research ecosystem. The session highlighted the importance of academic excellence, innovation, interdisciplinary collaboration, and the pursuit of impactful and ethical research.

Events to showcase student innovation:

The Dean encourages students to showcase their innovative projects and products through events like *Bio Expo* and *Voice of Biotechnology*, promoting creativity, interdisciplinary collaboration, and the translation of scientific ideas into impactful real-world applications.

Encouraging and motivating students for active participation in events:

Students are actively encouraged and motivated by Dean to participate in academic, cultural, and co-curricular events, emphasizing the importance of leadership, teamwork, and holistic development in enriching their overall learning experience.
