WORKSHOP

From Intelligence to Impact:

Building AI Agents with crewAI

A hands-on introduction to Agentic AI

An interactive, practical workshop designed to introduce participants to the emerging field of Agentic AI and the development of intelligent AI agents using CrewAI.

Explore how LLMs move beyond text generation to reason, make decisions, use tools, remember information, and autonomously accomplish tasks.

Build multi-agent systems that collaborate to solve real-world problems.

WHAT WILL YOU LEARN?

Understand AI Agents

Learn what makes an LLM an agent, including reasoning, tools, and memory.

Learn CrewAI Fundamentals

Understand roles, goals, tasks, and crews.

Build Multi-Agent Systems

Create a team of AI agents that can collaborate and hand off tasks.

Deploy AI Agents

Learn how to move from testing to real-world automation and deployment.

Hands-on Development

Build a working AI agent using CrewAI + Ollama (Python) or CrewAI Studio (no-code).
