ABOUT SOCIETY OF INFLAMMATION RESEARCH

Envisaged in August 2015 and registered in July 2017, SIR is a non-profit association that will strive to serve as a biomarker consortium at the national level to facilitate the interaction between clinicians and basic scientists related to Inflammation Research.

The diverse background of the society members, including academicians, researchers, basic scientists, clinicians and specialists, policy makers, and scientific experts has helped in establishing a strong foothold for the society. The society strives to achieve the mission through publications, scientific meetings, educational activities, policy work, and offering awards and grants to researchers and students.

ABOUT VIT & SBST

The School of Bio Sciences and Technology (SBST) at Vellore Institute of Technology (VIT) is a renowned academic institution established in 2001. SBST has been at the forefront of biological research and education, providing students with a strong foundation to pursue successful careers in biotechnology, pharmaceutical sciences, healthcare, and related field.

Vice-Chancellor
- Dr. Partha Sharathi Mallick
Pro-Vice Chancellor
- Dr. T. Jayabarathi
Registrar

CHAIRPERSON

- Dr. Suneetha V, Dean, SBST
- Dr. Anand Anbarasu, Asso Dean, SBST.

CO-CHAIRPERSON

- Dr. Shanthi V, HoD, Dept. of Biotechnology
- Dr. Sudha Ramaiah, HoD, Dept. of Bio-Sciences
- Dr. Suthindhiran K, HoD, Dept. of Bio-Medical Sciences
- Dr. Trupti Patel, HoD, Dept. of Integrative Biology

CONVENOR

- Dr. M. Rasool, Director- Purchase/
Professor, SBST.

ORGANIZING SECRETARIES

- Dr. Pragasam V, Professor, SBST
- Dr. Sudandira Doss C, Professor, SBST
- Dr. Rajasekaran R, Professor, SBST
- Dr. Debasish Mishra, Professor, SBST
- Dr. Jabez Osborne, Asso. Professor, SBST
- Dr. Sudesh Ravi, Asst. Professor, SBST

ABOUT THE CONFERENCE

Inflammation is a fundamental biological response that maintains tissue homeostasis but, when dysregulated, drives a wide spectrum of inflammatory and immune-mediated diseases. Understanding its complex molecular and cellular communication is crucial for uncovering disease mechanisms and developing effective interventions.

The conference theme, “Molecular and Cellular Language of Inflammation: With Clinical Relevance,” brings together basic scientists, clinicians, and translational researchers to bridge fundamental discoveries with clinical applications. Through cross-disciplinary dialogue, the conference aims to advance biomarker discovery, therapeutic innovation, patient stratification, and precision medicine—creating a platform where bench meets bedside.
