Researchers develop an automated 3D-printed bioreactor to gr

Our industrial biotechnology team

About This Collection

Step into the world of bioreactor development, where gleaming steel meets cutting-edge science. Watch UV lights sterilize glass bioreactors, admire blue indigoidine glowing inside a VVector Bio vessel, and follow scalable CAR-NK cell expansion up close. From Boccard's engineered vessels and VTT's Algiida project to Sartorius's BIOSTAT STR Generation 3 with BIOBRAIN, these photos capture fermenters large and small — including a massive 5000-liter BioMatrix BioVita and an automated 3D-printed system growing bone in the lab. Click the link above to view the full gallery.
