About This Collection

The d-art + kaiartz gallery collects digital works from several artists who blend 3D tools, illustration and game art into a compact showcase of character design. The collection moves between clean vector lines, rendered 3D prints and painted game assets, keeping the focus on stylized heroes and indie favourites like Celeste. KaiArtz contributes commissions and motion studies, often mixing Cinema 4D with After Effects, while other contributors sketch anime figures such as Sarada and Sasuke, render Pokémon trainers and explore concept art for supernatural academies.
