Discord would totally be a dog just
saying.

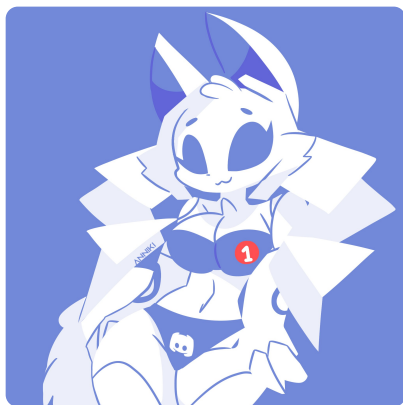

discord, bahongas, booba, breasts,
cleavage, curvy body, cur

Discord-chan - pikabu.monster.

tagme, discord (app), no humans.

Random (r). View (no tags in filename).

About This Collection

We need to produce a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. Title is English. Must end with a natural invitation to view the full gallery via the link above. Answer in same language as input: the title is "discord logo r34". Must reuse at least 20% of key words from the captions (names, nicknames, nicknames, distinctive terms). Plain text only, no markdown, no lists, no quotes. So description must be in English.

Constraints: No AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Avoid those.

No em or en dashes; we must not use — or –. Use commas or split sentences.

No "not only X but Y" constructions. So avoid listing exactly three items in a row? No "At its core". No forced groups of exactly three items. Probably avoid three-item lists.

Use "to" instead of "in order to"; use "because" instead of "due to the fact that".

No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or a plain natural invitation.

No emojis, no curly quotes, no markdown, no bold text.

We need to vary sentence length naturally, state things directly, and keep every claim supported by the provided captions.

We need to reuse at least 20% of the key words from the captions (names, nicknames, distinctive terms). So we need to include some words from the captions like "discord", "logo", "r34", maybe "Discord-chan", "clyde", "anthro", "blushing", "sweat", "collar", "chain", "breasts", "curvy", etc. At least 20% of key words: we need to count key words? Not defined precisely, but we can include several distinct words from captions.

We must not use AI-flag words list.

We need to avoid em dashes; just use commas.

We need to not use quotes.
