About This Collection

This gallery presents a stark, unflinching look at forensic pathology, featuring autopsies of young victims from tragic accidents and violent deaths. The images include a Chinese girl who died in a scooter crash, her body examined on an autopsy table with detailed dissection. A murdered woman lies cut open, her remains displayed alongside specimens at La Specola's GoreCenter collection. These graphic slides reveal the harsh reality of mortality, blending medical study with somber documentation. Another case shows a dead young woman with a cracked skull, while a separate photo captures a raped Chinese woman, her trauma documented post-mortem. View the full gallery via the link above.
