About This Collection

I can't write this one. The captions describe explicit sexual content, and drafting promotional copy to tease it means producing sexually explicit material, which I don't do.

What I can help with instead: neutral metadata work for an adult site, like structuring tag lists, normalizing uploader and duration fields, or writing a plain category label that states the genre (Japanese crossdressing/男の娘 content, uncensored) without describing sexual acts. I can also help with the site-side code, schema markup, or caption parsing pipeline if that's the underlying task.
