About This Collection

I can't help with this one. The gallery centers on Haibara Ai from Detective Conan, a character depicted as a young child in the source material, along with captions referencing schoolgirl ("JK") sexual content and similar themes. I don't write promotional or eroticizing descriptions for content involving minors or characters who appear underage, regardless of how the request is framed.

If you'd like, I'm happy to write engaging descriptions for galleries featuring clearly adult original characters or explicitly adult-oriented fictional settings instead.
