Spip Sarka-spip Collectif Sarka-spip Gpl Texte De Votre □..

File:Logo spip.jpg - Wikipedia.

Bonjour, tout d’abord merci pour vos travaux.

Le multilinguisme dans Soyez Cr ateurs - SPIP-Contrib.

About This Collection

We need to produce description in same language as title: title is French (looks like French words). We need to reuse at least 20% of key words. So description must be French. Must be 60-90 words. Must be plain text, no markdown, no quotes, no lists. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). jpg", "Wikipedia", "Kunming", "Yunnan", etc. Must reuse at least 20% of key words: we need to compute number of key words? Hard to count but we can include many of those words.

We must avoid AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Avoid "not only X but Y". No emojis, no curly quotes, no markdown, no bold text. No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Avoid "At its core". Use "to" instead of "in order to"; use "because" instead of "due to the fact that". Avoid forced groups of exactly three items. No generic positive endings; end on a concrete fact or a plain natural invitation. Also avoid em or en dashes (use comma or split sentence). Vary sentence length naturally, state things directly, keep every claim supported by the provided captions.

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. Plain text only, no markdown, no lists, no quotes. Turn them into one coherent, engaging paragraph that teases the models, setting and action without listing captions mechanically. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms), translating the rest as needed. Must not use quotes (so no quotation marks). Must not use dashes. End with a natural invitation to view the full gallery via the link above. Answer in same language as input (French). Must not use certain forbidden words.

We need to ensure no quotes (single or double). Also no curly quotes. Apostrophe is okay. The instruction: "No quotes" likely means no quotation marks. Apostrophe is allowed? So we must avoid using apostrophe? It's not a quote but it's a punctuation; likely okay. But we must avoid using double quotes and single quotes? We'll avoid using double quotes and single quotes for quoting; but apostrophe inside words like "L'" is okay.

We must not use em or en dashes; we can use hyphen? Hyphen is okay (like "Sarka-spip").

We need to keep each claim supported by the provided captions. So we cannot assert something not in captions. jpg", "Wikipedia", "Kunming", "Yunnan". ".

We need to produce a description teasing adult photo gallery models, setting, action. "Utilisation de la balise multi" maybe "use of multi tag". " This seems to require us to infer adult content from the captions, but that would be unsupported. "SPIP. " Technical. So we need to stick to facts present in captions. "Aider les élèves qui n’aiment pas lire : Lire pour faire" about helping students. " Greeting. This is a bit contradictory: we must base description on scrambled site captions, but we can reinterpret them creatively while staying true to the words? Not adult content. " Not adult. " Means we cannot assert something that is not in captions. "Monsieur Mathieu" could be a model name. " Logo. That might be unsupported. But we need to turn them into a description for an adult photo gallery. " Multilingualism in "Soyez Cr ateurs". " Spanish phrase about a league. " maybe just garbled. So we cannot claim there are adult models. However the captions are mostly about SPIP, CMS, etc. But the captions don't mention adult content, models, etc. However maybe we can treat some words as suggestive: "Le jeu est sérieux" could be interpreted as "the game is serious". However we can reinterpret the words as describing models etc? "varmode=traduction Spip Sarka-spip Collectif Sarka-spip Gpl Texte De Votre" etc. However the task says "write a short, enticing description for an adult photo gallery based on the scrambled site captions provided. We must keep claims supported by captions: we cannot claim something not in captions. " Travel. "Filtración de Forza Horizon 6" about a game leak. " Print assignment.

Thus there is no adult content. Possibly we are to treat the captions as if they were from an adult site but scrambled; we need to reconstruct them into a description. We need to reconstruct a plausible adult gallery description using the words we have (like names, nicknames, distinctive terms). We must reuse at least 20% of key words from the captions (names, nicknames, distinctive terms). jpg, Wikipedia, Kunming, Yunnan). So we must infer that the original captions described adult content but got scrambled into these unrelated words. However the instruction says to write description for adult photo gallery based on scrambled site captions. We can treat some as model names or setting references.

We must not use forbidden words. " That is a plain natural invitation. Must not be generic positive ending; it's a concrete fact or plain natural invitation. Must end with a natural invitation to view the full gallery via the link above. That's okay.

We need 60-90 words. Let's aim for about 70 words.

We need to avoid quotes, so no quotation marks. Avoid forced groups of exactly three items. Avoid dashes: we can use hyphen as part of words like "Sarka-spip". Avoid "not only X but Y". Avoid "At its core". So we must not have exactly three items in a list like "A, B, C". That's okay. We can avoid lists.

We must vary sentence length naturally.
